HISTORY OF THE DECLINE AND FALL OF THE ROMAN EMPIRE

Walter de Gruyter

Award-winning scholar Fred Kleiner brings art, architecture and culture to life with GARDNER'S ART

THROUGH THE AGES: THE WESTERN PERSPECTIVE, VOLUME I, 16th Edition. Backed by 45 art history experts, Kleiner delivers his signature storytelling in this edition, alongside 113 new reproduction images and more that have been upgraded for color-fidelity and clarity. To elevate the experience for learners, MindTap offers an interactive ebook with zoomable images, nearly 300 videos, an audio pronunciation guide, image flashcards, quizzes, and Google Earth coordinates of significant works. MindTap also allows you to customize your course with your own images, videos and activities, and use instructor resources to simplify planning. More than a text, GARDNER'S ART THROUGH THE AGES: THE WESTERN PERSPECTIVE has been inspiring a love for art and its history for more than 85

years. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Excavations at Ancient Halieis: The fortifications and adjacent structures Routledge

While scholars have long documented the migration of people in ancient and medieval times, they have paid less attention to those who traveled across borders with some regularity. This study of early transnational relations explores the routine interaction of people across the boundaries of empires, tribal confederacies, kingdoms, and city-states, paying particular attention to the role of long-distance trade along the Silk Road and maritime trade routes. It examines the obstacles voyagers faced, including limited travel and communication capabilities, relatively poor geographical knowledge, and the dangers of a fragmented and shifting political landscape, and offers profiles of better-known transnational elites such as the Hellenic scholar Herodotus and the Venetian merchant Marco Polo, as well lesser known servants, merchants, and sailors. By revealing the important political, economic, and cultural role cross-border trade and travel played in ancient society, this work demonstrates that transnationalism is not unique to modern times. Instructors considering this book for use in a course may request an examination copy here.

Ancient Civilizations John Wiley & Sons

A Roman historian examines the motivation and strategy behind Marc Anthony's invasion of Parthia and the reasons for its ultimate defeat. In the mid-first century BC, the Roman Empire was rivaled only by the Parthian Empire to the east. The first war between these two ancient superpowers resulted in the total defeat of Rome and the death of Marcus Crassus. When Rome collapsed into Civil War in the 1st century, BC, the Parthians took the opportunity to conquer the Middle East and drive Rome back into Europe. What followed was two decades of war which saw victories and defeats on both sides. The Romans were finally able to gain a victory over the Parthians thanks to the great general Publius Ventidius. These victories acted as a springboard for Marc Antony's plans to conquer the Parthian Empire, which ended in ignominious defeat. In this authoritative history, Gareth Sampson analyses the military campaigns and the various battles between Rome and Parthia. He provides fascinating insight into the war that in many ways defined the Middle East for the next 650 years.

The Single Life in the Roman and Later Roman World Casemate Publishers

Paul was the most influential figure in the early Christian church. In this epistle, written to the founders of the church in Rome, he sets out some of his ideas on the importance of faith in overcoming mankind's innate sinfulness and in obtaining redemption. With an introduction by Ruth Rendell

A MILITARY AND POLITICAL HISTORY

InterVarsity Press

Selected by Choice as a 2012 Outstanding Academic Title Awarded a 2012 PROSE Honorable Mention as a Single Volume Reference/Humanities & Social Sciences A Companion to Women in the Ancient World presents an interdisciplinary, methodologically-based collection of newly-commissioned essays from prominent scholars on the study of women in the ancient world. The first interdisciplinary, methodologically-based collection of readings to address the study of women in the

ancient world Explores a broad range of topics relating to women in antiquity, including: Mother-Goddess Theory; Women in Homer, Pre-Roman Italy, the Near East; Women and the Family, the State, and Religion; Dress and Adornment; Female Patronage; Hellenistic Queens; Imperial Women; Women in Late Antiquity; Early Women Saints; and many more Thematically arranged to emphasize the importance of historical themes of continuity, development, and innovation Reconsiders much of the well-known evidence and preconceived notions relating to women in antiquity Includes contributions from many of the most prominent scholars associated with the study of women in antiquity

Modeling in the Neurosciences Routledge

The series Beihefte zur Zeitschrift für die alttestamentliche Wissenschaft (BZAW) covers all areas of research into the Old Testament, focusing on the Hebrew Bible, its early and later forms in Ancient Judaism, as well as its branching into many neighboring cultures of the Ancient Near East and the Greco-Roman world.

THE RISE OF ROME

Cambridge University Press

Gibbon offers an explanation for why the Roman Empire fell, a task made difficult by a lack of comprehensive written sources, though he was not the only historian to tackle the subject. Most of his ideas are directly taken from what few relevant records were available: those of the Roman moralists of the 4th and 5th centuries.

A Companion to the Archaeology of the Roman Republic Cambridge University Press

A study of one of the ancient world's most fascinating figures. Fascinating and readable biography by a great populariser of classical civilisation. Directly responsible for momentous transformations of the Imperial scene, Constantine will always be famous as the 1st Christian Emperor of Rome, and for refounding ancient Byzantium as Constantinople - events which rank amongst the most significant in history. In art, politics, economics and particularly in religion, the life of Constantine acts as a bridge between past and present. Was he the last notable Roman Emperor, or the first medieval monarch? Was the Great convert a saint and hero, or should we regard him as a murderer who killed his wife, his eldest son, and many of his friends to further his own ambitions? These are just some of the issues that are raised in this stimulating biography.

The New Testament of Our Lord and Saviour Jesus Christ: The Gospels and Acts Cambridge University Press

For an accessible, comprehensive global survey of the world's major civilizations, Adler and Pouwels's WORLD CIVILIZATIONS offers a great balance between detail and brevity. This unique student-oriented text offers 53 short chapters accompanied by strong pedagogy and critical thinking tools, giving instructors the flexibility to assign a wide range of major topics in world history in a variety of different ways, while making learning more manageable for students. The focused treatment of topics throughout history covers every major epoch and follows broad patterns and processes, while illuminating history through specific examples and a particular emphasis on social and cultural topics. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Exploring the Background of Early Christianity Harvard University Press

For an accessible, comprehensive global survey of the world's major civilizations, Adler and Pouwels's *WORLD CIVILIZATIONS* offers a great balance between detail and brevity. This unique student-oriented text offers 53 short chapters accompanied by strong pedagogy and critical thinking tools, giving instructors the flexibility to assign a wide range of major topics in world history in a variety of different ways, while making learning more manageable for students. The focused treatment of topics throughout history covers every major epoch and follows broad patterns and processes, while illuminating history through specific examples and a particular emphasis on social and cultural topics. Among other updates, the eighth edition includes new content that illustrates how the world has become increasingly interdependent, gives more attention to the non-Western world and its peoples, and provides sharper focus on the importance of women in history. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Understanding Roman Inscriptions Cambridge University Press

James S. Jeffers provides an informative tour of the various facets of the Roman world--class and status, family and community, work and leisure, religion and organization, city and country, law and government, death and taxes, and the events of Roman history.

Sacred Institutions with Roman Counterparts Yale University Press

World History: A Concise Thematic Analysis presents the highly anticipated second edition of the most affordable and accessible survey of world history designed for use at the college level. An engaging narrative that contextualizes history and does not drown students in a sea of facts Offers a comparative analysis of the great civilizations of Eurasia, Africa, and the Americas Addresses themes of population dynamics, food production challenges, disease history, warfare, and other major issues for civilizations Features new interior design and organization to enhance user experience Instructor's test bank available online at www.wiley.com/go/wallech

Canongate Books

The Burning Slug book engine (<http://burningslug.com/>) is quite possibly the fastest way to get your text into book form. From the same manuscript file you can produce: EPUB format (iBooks, the Barnes & Noble Nook, and many other readers) MOBI format (Kindle) Print-ready PDF Stand-alone website This manual was itself compiled with Burning Slug. The EPUB, Kindle, and print versions were all generated from the same manuscript without any text changes for the different versions.

Music and Philosophy in the Roman Empire Weidenfeld & Nicolson

This Companion provides an authoritative and up-to-date overview of Roman Republican history as it is currently practiced. Highlights recent developments, including archaeological discoveries, fresh approaches to textual sources, and the opening up of new areas of historical study Retains the drama of the Republic's rise and fall Emphasizes not just the evidence of texts and physical remains, but also the models and assumptions that scholars bring to these artefacts Looks at the role played by the physical geography and environment of Italy Offers a compact but detailed narrative of

military and political developments from the birth of the Roman Republic through to the death of Julius Caesar Discusses current controversies in the field

Ancient Rome Fortress Press

By the third century BC, the once-modest settlement of Rome had conquered most of Italy and was poised to build an empire throughout the Mediterranean basin. What transformed a humble city into the preeminent power of the region? In *The Rise of Rome*, the historian and archaeologist Kathryn Lomas reconstructs the diplomatic ploys, political stratagems, and cultural exchanges whereby Rome established itself as a dominant player in a region already brimming with competitors. The Latin world, she argues, was not so much subjugated by Rome as unified by it. This new type of society that emerged from Rome's conquest and unification of Italy would serve as a political model for centuries to come. Archaic Italy was home to a vast range of ethnic communities, each with its own language and customs. Some such as the Etruscans, and later the Samnites, were major rivals of Rome. From the late Iron Age onward, these groups interacted in increasingly dynamic ways within Italy and beyond, expanding trade and influencing religion, dress, architecture, weaponry, and government throughout the region. Rome manipulated preexisting social and political structures in the conquered territories with great care, extending strategic invitations to citizenship and thereby allowing a degree of local independence while also fostering a sense of imperial belonging. In the story of Rome's rise, Lomas identifies nascent political structures that unified the empire's diverse populations, and finds the beginnings of Italian peoplehood.

A Companion to the Roman Republic Indiana University Press

Explores the philosophical import and use of musical notions in crucial moments and authors of the Roman Imperial period.

THE STORY OF CHRISTIAN MUSIC

Routledge

A Companion to the Archaeology of the Roman Republic offers a diversity of perspectives to explore how differing approaches and methodologies can contribute to a greater understanding of the formation of the Roman Republic. Brings together the experiences and ideas of archaeologists from around the world, with multiple backgrounds and areas of interest Offers a vibrant exploration of the ways in which archaeological methods can be used to explore different elements of the Roman Republican period Demonstrates that the Republic was not formed in a vacuum, but was influenced by non-Latin-speaking cultures from throughout the Mediterranean region Enables archaeological thinking in this area to be made accessible both to a more general audience and as a valuable addition to existing discourse Investigates the archaeology of the Roman Republican period with reference to material culture, landscape, technology, identity and empire

A HISTORY OF SPACE AND PLACES

Cengage Learning

"Most societies in the past have had slaves, and almost all peoples have at some time in their pasts been both slaves as well as owners of slaves. Recent decades have seen a significant increase in our understanding of the historical role played by slavery and wide interest across a range of academic

disciplines in the evolution of the institution. Exciting and innovative research methodologies have been developed, and numerous fruitful debates generated. Further, the study of slavery has come to provide strong connections between academic research and the wider public interest at a time when such links have in general been weak. The Cambridge World History of Slavery responds to these trends by providing for the first time, in four volumes, a comprehensive global history of this widespread phenomenon from the ancient world to the present day. Volume I surveys the history of slavery in the ancient Mediterranean world. Although chapters are devoted to the ancient Near East and the Jews, its principal concern is with the societies of ancient Greece and Rome. These are often considered as the first examples in world history of genuine slave societies because of the widespread prevalence of chattel slavery, which is argued to have been a cultural manifestation of the ubiquitous violence in societies typified by incessant warfare"--Provided by publisher.

From Mesopotamia to the Rise of Islam Oxford University Press

The name of Rome excites a picture of power and organisation, as do the widely-spread ruins that Roman civilization left behind. Yet Rome grew out of a collection of small villages and major developments such as the growth of Empire were unplanned and completely unprepared for. Influenced by a small number of self-interested aristocrats who lacked a broader vision, Rome

was often threatened by their intrigues. Brought to the ground on a number of occasions, its leaders were able to snatch victory from the jaws of defeat. How did Rome survive for nearly 1000 years, ruling over millions of people with few instances of internal rebellion? David Shotter argues that the key was the way Rome managed to adapt to new circumstances, without at the same time discarding too many of its cherished traditions.

The Cambridge World History of Slavery: Volume 1, The Ancient Mediterranean World

Contraterrene eLearning Group, LLC

Lawrence Keppie's book offers the non-specialist a comprehensive and enjoyable guide to understanding the texts of Roman inscriptions, as well as explaining the numerous different contexts in which they were produced. Every area of Roman life is covered, including: * the emperor * temples and altars to the gods * imperial administration * gravestones and tomb monuments * local government and society * the army and the frontiers * Christianity * trade, commerce and the economy * the later Roman Empire. For each inscription cited, the book provides the original Latin, an English translation and a commentary on the piece's significance. Illustrated with more than 80 photos and drawings, this is the ideal introduction to the most important source for the history and organisation of the Roman Empire.
