This is a how-to-do-it manual, limited to specific information on the use of asphalt in pavement maintenance. Planning, programming, financing and administration of maintenance are beyond its scope. Usually, money for pavement maintenance is limited and the maintenance man is called upon to "make one dollar do the work of two;" this is not easy. Large differences in soil types, climate, terrain, traffic and other factors make for greatly varying problems, even within small areas. Some regions are rugged and mountainous while others are fairly smooth and level; some have heavy rainfall, others are semi-arid; some highways and streets must accommodate vehicles carrying coal, ore, logs, or other heavy loads, while others are subjected to only light-weight traffic.

This classic history of America's high-stakes quest to dominate the skies is "a gripping technothriller in which the technology is real" (New York Times Book Review). From the development of the U-2 to the Stealth fighter, Skunk Works is the true story of America's most secret and successful aerospace operation. As recounted by Ben Rich, the operation's brilliant boss for nearly two decades, the chronicle of Lockheed's legendary Skunk Works is a drama of Cold War confrontations and Gulf War air combat, of extraordinary feats of engineering and human achievement against fantastic odds. Here are up-close portraits of the maverick band of scientists and engineers who made the Skunk Works so renowned. Filled with telling personal anecdotes and high adventure, with narratives from the CIA and from Air Force pilots who flew the many classified, risky missions, this book is a riveting portrait of the most spectacular aviation triumphs of the twentieth century. "Thoroughly engrossing." --Los Angeles Times Book Review

**POLITICAL AND SOCIETAL IMPLICATIONS**

Springer  
 "Berbicara mengenai pasar, menurut ramalan Jayabaya, ""Pasar Ilang Kumandange, Kali Ilang Kedunge"". Kutipan dari Sang Jayabaya ini kira-kira artinya, 'Pasar hilang hiruk pikuknya, bersamaan dengan sungai-sungai dihilangkan liang-liang resapannya'. Kehidupan para jasad pembuat resapan air, seperti yuyu, lele, belut, cacing, angga-angga dan keong, serta berbagai kehidupan biota sungai lainnya. Kemudian ditutup dengan semen.

Terciptalah kini, turap-turap sepanjang sungai yang tidak ramah lagi akan kehidupan dan penghidupan alami yang sudah turun-temurun ribuan tahun, akibatnya, memperderas arus sungai dan banjir di mana-mana dan jebolnya tanggul penahan buatan manusia. Hal ini menggambarkan bila pasar menjadi bisu dan sunyi, kita belanja dengan membisu, memilih barang dengan membisu, ke sana-kemari membawa barang belanjaan sendiri, tak bisa tawar-menawar dan berkelakar, tidak bisa senyum yang tulus, tidak mengantre lama-lama seperti ""keong"", tapi membayar lebih. Harga bisa diatur dengan teknologi komputer mana yang dinaikan dan diturunkan, seolah murah pada beberapa produk, padahal mahal pada produk lainnya. Hanya konsumen yang cerdas yang bisa mengambil keuntungan dari situasi ""perang harga"" antar swalayan atau ""perang produk"", kendatipun harus ke pasar tradisional untuk melengkapi daftar belanja, bisa juga ikut ""ngadem"" di kala kepanasan, sambil mencari informasi produk yang promo."

`A great basic book, which can be used by the novice qualitative researcher. The

advice is friendly, almost folksy with clear conceptual explanation of how the program works. A very welcome contribution to this field' - Martha Ann Carey, Albert Einstein College of Medicine, New York `Qualitative researchers continue to be criticized because they rely too much on their own interpretations and avoid analytical and theoretical issues. This book provides ways to integrate the thinking about a project and the data you have with practical ways that the software can facilitate the process. I recommend it for both the new user as well as the experienced one' - Marilyn Lichtman, Forum for Qualitative Social Research - follow the link below to read the complete review This book invites readers to learn how to use qualitative data analysis software in the context of doing their research project. The reader follows basic steps for creating and conducting a real project with real data, using the new-generation software package, QSR NVivo. The software tools are introduced only as needed and explained in the framework of what is being asked. The reader is the craftsman, trialling those tools in the processes of getting started, tentative interpretation, drawing links, shaping data, and seeking and establishing explanations and theories. The NVivo Qualitative Project Book allows the researcher to work through their own project, or work with data provided from a real project. The authors draw on decades of experience of research and training researchers around the world, and take the reader through each step in a style combining informality and authority, with frequent tips and reflections on what is being done. Demonstration software is provided on the enclosed CD-ROM, with data to help

create (a researcher's project) a project about researchers and researching, and with multiple stages arranged sequentially in the development of a real project. As a practical tool to help researchers understand qualitative data analysis software using NVivo, and a guide through the sometimes complex processes of doing a research project, this book will be invaluable reading for researchers and students undertaking qualitative research. Pat Bazeley provides training and consulting services in research design and data analysis through her company, Research Support. Lyn Richards is Director of Research Services at Qualitative Solutions and Research, the developers of NUD·IST and NVivo software. NVivo is distributed by Scolari, SAGE Publications Software.

Bahasa Portugis berasal dari bahasa Latin populer yang dibawa para tentara, pedagang, dan pendatang Romawi ke Semenanjung Iberia pada tahun 218 SM. Kini bahasa Portugis menjadi bahasa resmi di sembilan negara: Portugal, Brasil, Angola, Mozambik, Guinea-Bissau, Sao Tome dan Prinsipe, Tanjung Verde, Timor-Leste, dan Guinea Ekuatorial. Serta masih digunakan di RRC (Makau) dan India (Goa, Daman, dan Diu).
