Exam Prep for Financial and Managerial Accounting by Warren & Reeve, 9th Ed. MznLnx

In order to effectively solve business problems, managers need to understand how managerial accounting can improve decision-making. This book lays the groundwork by presenting managerial accounting in a strategic framework. Each module examines cost estimation and planning decisions in both the short- and long-term context. Budgets are then discussed as devices that connect planning and control decisions. Within each chapter, a specific decision problem is framed in a four-step manner. Throughout the pages, Chapter Connections ties the decision problems to concepts in earlier chapters. End-of-chapter material also provides a good balance of quantitative and qualitative problems. This approach enables managers to learn the linkages among seemingly unrelated decisions.

COST/MANAGERIAL ACCOUNTING EXAM QUESTIONS AND EXPLANATIONS

Cengage Learning

A less-expensive grayscale paperback version is available. Search for ISBN 9781680922936.

Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Exam Prep for Fundamental Managerial Accounting Concepts by Edmonds, Tsay, & Olds, 4th Ed.
TeachUcomp Inc.

Pauline Weetman's innovative new text expertly guides students over the stepping stones of management accounting and provides a solid foundation across first and second levels as a basis for further specialist study. The text is clear and well structured and brings an imaginative approach to student learning with its emphasis throughout on allowing students to practice the application of theory. Key features include: comprehensive coverage of management accounting topics; provides a number of unique case studies complete with innovative ideas for interactive teaching sessions, as well as engaging real-life commentaries; excellent business focus shows students how management accounting techniques can be applied in real business situations; relevant research is explained in outline to link teaching to current developments; extensive coverage of service and not for profit sectors as well as manufacturing. Practical and imaginative pedagogy includes group discussions and activities; a management accounting consultant, which helps bring topics alive; as well as a wealth of examples, questions and problems throughout.; This work is fully supported by a comprehensive suite of student and lecturer resources, including cases with teaching notes, questions and multiple choice questions, PowerPoint slides, lecture notes, graded questions, and solutions to questions in the book. Innovative full colour design brings key issues and essential topics to life. It fully reflects CIMA terminology. "Management Accounting" aims to provide continuity of study over first and second levels in specialist accounting programmes while preserving the generality of coverage that is suitable for business studies degrees. The text is also suitable for professional courses where management accounting is introduced for the first time. Pauline Weetman BA, BSc (Econ), PhD, CA, FRSE, is Professor of Accounting at the University of Strathclyde, and has extensive experience of teaching at undergraduate and postgraduate level, with previous chairs held at Stirling and Heriot-Watt Universities. She received the Distinguished Academic Award of the British Accounting Association in 2005. She has convened the examining board of the Institute of Chartered Accountants of Scotland and was formerly Director of Research at ICAS
