the geopolitical balance of power in the Middle East. He also provides an update on the contemporary Muslim women's movement, a discussion of the controversy over veiling in Europe, an in-depth history of Jihadism, and a look at how Muslims living in North America and Europe are changing the face of Islam. The Dark Side is a dramatic, riveting, and definitive narrative account of how the United States made self-destructive decisions in the pursuit of terrorists around the world—decisions that not only violated the Constitution, but also hampered the pursuit of Al Qaeda. In spellbinding detail, Jane Mayer relates the impact of these decisions by which key players, namely Vice President Dick Cheney and his powerful, secretive adviser David Addington, exploited September 11 to further a long held agenda to enhance presidential powers to a degree never known in U.S. history, and obliterate Constitutional protections that define the very essence of the American experiment. Western countries are ignorant of true Islamic values, says Nonie Darwish. Darwish is an Egyptian-American, former-Muslim human rights activist who is frustrated with mainstream America's talk of

tolerance and assimilation. In *Wholly Different*, Darwish sets non-Muslims straight about tenets of Islam that are incompatible with free society. For the first time, Darwish tells the whole story of her personal break with Islam, starting with the brutal physical violence and rigid class system she witnessed and culminating with the spine-tingling visit she received from President Nasser after her father, fedayeen commander Mustafa Hayez, was assassinated by Israeli Defense Forces. She lays out the "seventh-century values" of Islam that religious extremists are so intent on protecting through global warfare—values that set Islam apart from the other Abrahamic religions.

How and why have women come to play a central role in the political project of Islamic revivalism and in the power struggles between Islamic and secular forces in Turkey? Ayse Saktanber rejects approaches to this issue that ask what Islam means for the position of women or see Muslim women as the 'reverse' or the 'dark' side of modernity. She examines the experiences of women for whom the discourse of modernity has no relevance and looks at the ways in which they have become crucial agents in the effort to make Islam a living social practice in a secular order. Full of fascinating accounts of the lives of Islamist women, this study is essential for anyone interested in the contemporary Muslim world.

W. Norton & Company

A sweeping history of the often-violent conflict between Islam and the West, shedding a revealing light on current hostilities The West and Islam -- the sword and scimitar -- have clashed since the mid-seventh century, when, according to Muslim tradition, the Roman emperor rejected Prophet Muhammad's order to abandon Christianity and convert to Islam, unleashing a centuries-long jihad on Christendom. *Sword and Scimitar* chronicles the decisive battles that arose from this ages-old Islamic jihad, beginning with the first major Islamic attack on Christian land in 636, through the Muslim occupation of nearly three-quarters of Christendom which prompted the Crusades, followed by renewed Muslim conquests by Turks and Tatars, to the European colonization of the Muslim world in the 1800s, when Islam largely went on the retreat -- until its reemergence in recent times. Using original sources in Arabic and Greek, preeminent historian Raymond Ibrahim describes each battle in vivid detail and explains how these wars and the larger historical currents of the age reflect the cultural fault lines between Islam and the West. The majority of these landmark battles -- including the battles of Yarmuk, Tours, Manzikert, the sieges at Constantinople and Vienna, and the crusades in Syria and Spain--are now forgotten or considered inconsequential. Yet today, as the West faces a resurgence of this enduring Islamic jihad, *Sword and Scimitar* provides the needed historical context to understand the current relationship between the West and the Islamic world -- and why the Islamic State is merely the latest chapter of an old history.

Christianity, Islam, and atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9/11 and thousands of other terrorist attacks throughout the world, many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions

THE SEARCH FOR TRUTH ABOUT ISLAM

St. Martin's Press

A growing international recognition and concern about the consequences of religious faith and its relationship to public policy is a centerpiece of daily discourse and global media coverage. This timely and important book presents a series of conversations steeped in a diversity of viewpoints about the nature, role, and impact of religiously grounded moral arguments. This book is published in cooperation with the Ethics and Public Policy Center.

I.B. Tauris

The acclaimed author of *Rubicon* and other superb works of popular history now produces a thrillingly panoramic (and

incredibly timely) account of the rise of Islam. No less significant than the collapse of the Roman Republic or the Persian invasion of Greece, the evolution of the Arab empire is one of the supreme narratives of ancient history, a story dazzlingly rich in drama, character, and achievement. Just like the Romans, the Arabs came from nowhere to carve out a stupefyingly vast dominion—except that they achieved their conquests not over the course of centuries as the Romans did but in a matter of decades. Just like the Greeks during the Persian wars, they overcame seemingly insuperable odds to emerge triumphant against the greatest empire of the day—not by standing on the defensive, however, but by hurling themselves against all who lay in their path.

From the two-time Pulitzer Prize-winning author, *God's Crucible* brings to life "a furiously complex age" (*New York Times Book Review*). Resonating as profoundly today as when it was first published to widespread critical acclaim a decade ago, *God's Crucible* is a bold portrait of Islamic Spain and the birth of modern Europe from one of our greatest historians. David Levering Lewis's narrative, filled with accounts of some of the most epic battles in world history, reveals how cosmopolitan, Muslim al-Andalus flourished—a beacon of cooperation and tolerance—while proto-Europe floundered in opposition to Islam, making virtues out of hereditary aristocracy, religious intolerance, perpetual war, and slavery. This masterful history begins with the fall of the Persian and Roman empires, followed by the rise of the prophet Muhammad and five centuries of engagement between the Muslim imperium and an emerging Europe. Essential and urgent, *God's Crucible* underscores the importance of these early, world-altering events whose influence remains as current as today's headlines.

THE TROUBLE WITH ISLAM

Wiley

In "Islam Unveiled," Robert Spencer dares to face the hard questions about what the Islamic religion actually teaches--and the potentially ominous implications of those teachings for the future of both the Muslim world and the West. Going beyond the shallow distinction between a "true" peaceful Islam and the "hijacked" Islam of terrorist groups, Spencer probes the Koran and

Islamic traditions (as well as the history and present-day situation of the Muslim world) as part of his inquiry into why the world's fastest growing faith tends to arouse fanaticism. "Islam Unveiled" evaluates the relationship between Islamic fundamentalism and "mainstream" Islam; the fixation with violence and jihad; the reasons for Muslims' disturbing treatment of women; and devastating effects of Muslim polygamy and Islamic divorce laws. Spencer explores other daunting questions--why the human rights record of Islamic countries is so unrelievedly grim and how the root causes of this record exist in basic Muslim beliefs; why science and high culture died out in the Muslim world--and why this is a root cause of modern Muslim resentment. He evaluates what Muslims learn from the life of Muhammad, the man that Islam hails as the supreme model of human behavior. Above all, this provocative work grapples with the question that most preoccupies us today: can Islam create successful secularized societies that will coexist peacefully with the West's multicultural mosaic?

"I have to be honest with you. Islam is on very thin ice with me....Through our screaming self-pity and our conspicuous silences, we Muslims are conspiring against ourselves. We're in crisis and we're dragging the rest of the world with us. If ever there was a moment for an Islamic reformation, it's now. For the love of God, what are we doing about it?" In blunt, provocative, and deeply personal terms, Irshad Manji unearths the troubling cornerstones of mainstream Islam today: tribal insularity, deep-seated anti-Semitism, and an uncritical acceptance of the Koran as the final, and therefore superior, manifesto of God. In this open letter to Muslims and non-Muslims alike, Manji asks arresting questions. "Who is the real colonizer of Muslims - America or Arabia? Why are we all being held hostage by what's happening between the Palestinians and the Israelis? Why are we squandering the talents of women, fully half of God's creation? What's our excuse for reading the Koran literally when it's so contradictory and ambiguous? Is that a heart attack you're having? Make it fast. Because if more of us don't speak out against the imperialists within Islam, these guys will walk away with the show." Manji offers a practical vision of how the United States and its allies can help Muslims undertake a reformation

that empowers women, promotes respect for religious minorities, and fosters a competition of ideas. Her vision revives Islam's lost tradition of independent thinking. This book will inspire struggling Muslims worldwide to revisit the foundations of their faith. It will also compel non-Muslims to start posing the important questions without fear of being deemed "racists." In more ways than one, *The Trouble with Islam* is a clarion call for a fatwa-free future.

A Look Inside the Sacred Book of One of the World's Fastest-Growing Religions What used to be an exotic religion of people halfway around the world is now the belief system of people living across the street. Through fair, contextual use of the Qur'an as the primary source text, apologist James R. White presents Islamic beliefs about Christ, salvation, the Trinity, the afterlife,

and other important topics. White shows how the sacred text of Islam differs from the teachings of the Bible in order to help Christians engage in open, honest discussions with Muslims.

[Muhammad's Wrath](#) Routledge

There can be little doubt that we are living in a world where extremist views and fanatical religious ideology are at the forefront of our minds. This is particularly so with the collapse of several Middle East states and the rise of groups such as Islamic State. Since September 11, 2001, there have been more than 30,700 deadly Islamic terrorist attacks. Why? Perhaps if we try to understand, or at the very least acknowledge, what Islamic terrorists use as their motivational literature we can discover a way to communicate with them before violence becomes their only perceived alternative. *Muhammad's Wrath: The Dark Side of Islam* takes an impartial look at Islamic literature that many extremists use as their inspiration. It exhibits quotes from the Quran and Hadith that many non-Islamic people around the world find offensive, disturbing and threatening. Many of the verses

chosen have been cited by extremist and terrorists as their inspiration for horrifying acts, or as tools to attract and recruit new members and until we can discover what sets them on this path, we will see more bloodshed. *Muhammad's Wrath* is not meant to promote hate or prejudice against Muslim people. It is my intention to insinuate that all Muslims are extremist, terrorists, or violent. It contains only my own opinions of the Islamic faith, drawn from personal interpretations of Islamic text and the Holy Quran.
