Quantum Field Theory Damtp University Of Cambridge David Tong is a professor of theoretical physics at DAMTP in Cambridge, a fellow of Trinity College, Cambridge, and joint recipient of the 2008 Adams Prize. He was a postdoc at the MIT Center for Theoretical Physics. He was an Adjunct Professor at the Tata Institute of Fundamental Research (TIFR). He is currently also a Simons Investigator. His main research interest is in Quantum Field Theory.

David Tong (physicist) - Wikipedia Anthony Zee, "Quantum Field Theory in a Nutshell", Princeton University Press 2003. The first two are comprehensive textbooks which cover all the course material in great detail and much more. Zee's book gives a pedagogical but not too technical overview of many topics without going into great depth. Ramond's book is focused on the path integral approach to quantum field theory. Other modern textbooks include

Course: HMPH316 Quantum Field Theory Description. The goal of this course is to provide a solid introduction to the formalism, the techniques and important physical applications of quantum field theory. Furthermore it prepares students for the advanced course in quantum field theory (Quantum Field Theory II) and for work on research projects in theoretical physics, particle physics and condensed-matter physics.

Quantum Field Theory 1 - HS 2014 - ETH - Institute for ... Quantum Field Theory I Chapter 0 ETH Zurich, HS14 Prof. N. Beisert 18.12.2014 0

Overview Quantum field theory is the quantum theory of fields just like quantum mechanics describes quantum particles. Here, a the term "field" refers to one of the following: A field of a classical field theory, such as electromagnetism.

Quantum Field Theory I - ETH Z Quantum Field Theory (M24) - University of Cambridge Research in DAMTP is loosely organised into eight broad subject areas: Applied and Computational Analysis, Astrophysics, Geophysics, Fluid and Solid Mechanics, Mathematical Biology, Quantum Information, High Energy Physics and General Relativity and Cosmology.
