If you want to learn the art of trading fours, The Drummer's Cookbook Volume II will help you put it all together. This book takes you through the entire process, from developing a vocabulary to real world application. Today's working drummers are asked to play fills and fours at a variety of different tempos, each requiring a different vocabulary. The

author breaks down the process into three general tempo zones: moderate, bright and extreme. Develop your own musical vocabulary by studying the tools of the trade: uneven note groups, rhythm fragments, implied tempo changes, ghost notes, quarter note triplets, and more. Then put it all together by learning the format for fours. Learn to think in phrases: three beat groups, call and response, and symmetric and asymmetric phrases. Study the standard 32 bar AABA jazz format and learn the how, why and when of trading fours. Finally, all these skills can be practiced with several hundred two and four bar solos in each of the three tempo ranges

This book offers challenging material for the intermediate to advanced drummer. Addressing a multitude of

styles, author Frank Briggs helps guide your playing to a higher plane while improving your technique and raising your awareness of cutting edge concepts such as metric modulation, displaced beats, polyrhythms, and more. Briggs states, He believes the more you know about different styles and the inner workings of time and phrasing, the better your ability to contribute to the music at hand. The clearer you see the parallels or the common threads that tie these concepts together, the more freedom you will have to express yourself. The music is challenging and suitable for the advanced drummer. Styles include odd meters, metric modulation, tuplets, funk, Latin, mid and up-tempo swing, and fusion. This set includes the Complete Modern Drumset CD, which is a play-along for drums with full stereo versions of the music charts included in the book. Sketch, Electric, Red Moon, Home, Funky Track, Jazz Swing, and 32 Bar are recorded with drums and without drums (the tracks without drums include a click track) so that the student can listen and play-along.
