*Securing Outer Space  
International Relations*  
The essays here seek  
to 'bring back space'  
into the realm of  
International Relations  
discourse, from which  
it has been largely  
removed, marginalized  
and silenced. The  
various chapters do  
this by highlighting  
how activities in outer  
space are always  
connected to earth-  
bound practices and  
performances of the  
every day.

### **JPL | International Relations in Space**

The politics of outer  
space includes space

treaties, law in space,  
international  
cooperation and  
conflict in space  
exploration, and the  
hypothetical political  
impact of any contact  
with extraterrestrial  
intelligence.

Astropolitics, also  
known as astropolitik,  
has its foundations in  
geopolitics and is a  
theory that is used for  
space in its broadest  
sense. Astropolitics is  
often studied as an  
aspect of the security  
studies and  
international relations  
subfields of political  
science. This includes t  
The challenges that  
space poses for  
political theory are  
profound. Yet until  
now, the exploration  
and utilization of space  
has generally reflected  
- but not challenged -  
the political patterns  
and impulses which

characterized twentieth-century politics and International Relations. This edited ...
