Miscelánea de arte Editorial CSIC - CSIC Press

Precedents in Architecture provides a vocabulary for architectural analysis that will help you understand the works of others, and aid you in creating your own designs. Here, you will examine the work of internationally known architects with the help of a unique diagrammatic technique, which you can also use to analyze existing buildings. In addition to the sixteen original contributors, the Second Edition features seven new, distinguished architects. All 23 architects were selected because of the strength, quality, and interest of their designs.

The humanities and social sciences. A John Wiley & Sons

This collection of an important architectural theorist's essays considers and compares designs by Palladio and Le Corbusier, discusses mannerism and modern architecture, architectural vocabulary in the 19th century, the architecture of Chicago, neoclassicism and modern architecture, and the architecture of utopia.

MIT Press

A superb visual reference to the principles of architecture Now including interactive CD-ROM! For more than thirty years, the beautifully illustrated Architecture: Form, Space, and Order has been the classic introduction to the basic vocabulary of architectural design. The updated Third Edition features expanded sections on circulation, light, views, and site context, along with new considerations of environmental factors, building codes, and contemporary examples of form, space, and order. This classic visual reference helps both students and practicing architects understand the basic vocabulary of architectural design by examining how form and space are ordered in the built environment.? Using his trademark meticulous drawing, Professor Ching shows the relationship between fundamental elements of architecture through the ages and across cultural boundaries. By looking at these seminal ideas, Architecture: Form, Space, and Order encourages the reader to look critically at the built environment and promotes a more evocative understanding of architecture. In addition to updates to content and many of the illustrations, this new edition includes a companion CD-ROM that brings the book's architectural concepts to life through three-dimensional models and animations created by Professor Ching.

Cinema for Spanish Conversation, Fifth Edition, draws on sixteen high-interest films (and related readings) to introduce students to the authentic language and cultures of the Spanish-speaking world. Each chapter offers a wide variety of activities designed to improve students' conversational skills as well as opportunities for reading and writing practice. For a guide to accessing the films—and for supplementary instructor materials—visit www.hackettpublishing.com/cinema-for-spanish-films. New to the Fifth Edition: Three new critically acclaimed films, including Yuli (set in Cuba), El último verano de la Boyita (Argentina), and Oscar-award-winning film Roma (Mexico), along with readings and activities related to each. A section, added to each chapter, offering new and expanded activities related to the films. Updated information on each film, and its actors and directors. A revised and updated appendix, organized by chapter, offering a list of recent films that can be compared or contrasted to the films in the book. The Films: La misma luna María llena eres de gracia Flores de otro mundo Roma (NEW!) También la lluvia Todo sobre mi madre Como agua para chocolate

Diarios de motocicleta Mar adentro Presunto culpable El último verano de la Boyita (NEW!) Volver El norte No Yuli (NEW!) El viaje de Carol

Architectural form reconsidered in light of a unitary conception of architecture and the city. In The Possibility of an Absolute Architecture, Pier Vittorio Aureli proposes that a sharpened formal consciousness in architecture is a precondition for political, cultural, and social engagement with the city.

Aureli uses the term absolute not in the conventional sense of “pure,” but to denote something that is resolutely itself after being separated from its other. In the pursuit of the possibility of an absolute architecture, the other is the space of the city, its extensive organization, and its government.

Politics is agonism through separation and confrontation; the very condition of architectural form is to separate and be separated. Through its act of separation and being separated, architecture reveals at once the essence of the city and the essence of itself as political form: the city as the composition of (separate) parts. Aureli revisits the work of four architects whose projects were advanced through the making of architectural form but whose concern was the city at large: Andrea Palladio, Giovanni Battista Piranesi, Étienne Louis-Boullée, and Oswald Mathias Ungers. The work of these architects, Aureli argues, addressed the transformations of the modern city and its urban implications through the elaboration of specific and strategic architectural forms. Their projects for the city do not take the form of an overall plan but are expressed as an “archipelago” of site-specific interventions.

Las universidades españolas están liderando el cambio, basta asomarse a la escena universitaria más allá de nuestras fronteras para constatar la admiración que las Instituciones foráneas muestran hacia la iniciativa del programa "Campus de Excelencia Internacional". Este volumen se ocupa de analizar cuatro Proyectos CEI, pertenecientes a la convocatoria de 2010. La orientación que se ha querido dar al trabajo es una lectura centrada prioritariamente en los aspectos urbanístico-arquitectónicos que se inscriben dentro del entorno global de los Campus. Los Proyectos que se presentan a las convocatorias CEI se arman de un amplio y diversificado bagaje de temas: docencia, internacionalización, investigación, transferencia, gestión, y transformación de campus. En esta publicación, se han seleccionado cuatro Proyectos de alta calidad y representatividad de las dinámicas de modernización urbanístico arquitectónica de las universidades españolas: VLC/Campus-Valencia, Campus de Excelencia Internacional, Campus do Mar/Knowledge in depth, Andalucía Tech/El Conocimiento al servicio de la Sociedad, Studii Salamantini/800 Años innovando. *Architecture* Universitat Politècnica de Catalunya. Iniciativa Digital Politècnica

"A fully comprehensive guide to building in the tropical world, 'Barefoot Architect' covers everything from how to build in various climates, to the step-by-step practicalities of building homes that suit the local environment." --Publisher.

Ver la arquitectura, entenderla y sentirla no es algo inmediato. Requiere un aprendizaje. Este libro es, ante todo, la apertura a un vocabulario, a un conjunto de términos a través de los cuales conceptualizamos y hacemos comunicable la experiencia de la arquitectura. Si, como dijera Wittgenstein, el conocimiento empieza en las palabras, entonces un libro de iniciación a la arquitectura es un libro que trata de glosar, de dotar de contenido ciertas palabras clave con las que, como si de una herramienta se tratara, hacer posible el montaje y desmontaje de nuestra experiencia de la arquitectura. Proponer una introducción a la arquitectura no es tarea sencilla. Una introducción destinada a futuros arquitectos, pero también a cualquier persona que desee abrir sus ojos y su sensibilidad a uno de los grandes campos de la creación humana de todos los tiempos.

From 711 when they arrived on the Iberian Peninsula until 1492 when scholars contribute a wide-ranging series of essays and catalogue entries which are fully companion to the 373 illustrations (324 in color) of the spectacular art and architecture of the nearly vanished culture. 9 1/2x12 1/2 they were expelled by Ferdinand and Isabella, the Muslims were a powerful force in al-Andalus, as they called the Iberian lands they controlled. This awe-inspiring volume, which accompanies a major exhibition presented at the Alhambra in Granada and The Metropolitan Museum of Art in New York, is devoted to the little-known artistic legacy of Islamic Spain, revealing the value of these arts as part of an autonomous culture and also as a presence with deep significance for both Europe and the Islamic world.
