reflect and gain a deeper understanding of history. In this edition, students discover the prolific Patrick Henry -- who some historians credit as firing the first figurative shot of the Revolution in his fiery "Give Me Liberty or Give Me Death" speech. Read select letters written by Henry, engage in his oratory, learn about his life and decide for yourself the impetus behind a man called one of

the greatest Patriots in the history of America.

THE LITIGANTS

The New Press Life, liberty, and the pursuit of happiness are prescribed ideals in America of 2050. The Moral Authority, the nation's newest branch of government, has virtually eliminated crime, poverty, and most social ills, but it also rules the land with a tyrannical fist, championing

ignorance and brandishing fear. Mark Bryan is a gay man whose existence brands him an outlaw; Isaac Montoya is a charming stranger, who entices Mark to defy moral law; and Samuel Pleasant runs the Moral Authority and plans to punish moral offenders and a rebellious uprising-no matter the cost. Will liberty and justice return for all?

Taylor READ BOOKS
Through the prism of one turn-of-the-century factory-city, Tamara Hareven and Randolph Langenbach have captured the historic experience of millions of Americans. We hear for the first time the eloquent voices—sometimes elegiac, sometimes bitter, yet always

powerful—of immigrant being turned into Americans as they worked the machines which were themselves transforming this country. The book focuses on the Amoskeag Manufacturing Company, once the largest textile factory in the world. The shells of its awesome mills still extend for two miles along the Merrimack River in Manchester, New Hampshire. Never before have we

known so vividly what it was like to live a life in the closed world of a single gigantic industrial entity, from the first moment a child set foot in a mill carrying his father's or mother's lunchpail to the moment he retired or was laid off sixty years later. Amoskeag moves through layer after layer of mill life, from the elegant world of Boston-based executives to the cramped

quarters of the families of messenger boys, Boston Brahmins and Scottish weaving girls, French-Canadian dirt farmers and Irish immigrants, bosses and workers, create and unforgettable vision of shared experiences and ethnic rivalries, of company loyalty and butter strikes, of back-breaking work and momentary delights in industrializing America. Over seventy

photographs, ranging from classic shots by Lewis Hine to modern portraits of the interviewees, help reconstruct the reality that was Amoskeag. *The Criminalization of Poverty in America* Bloomsbury Publishing Our choices seal our fate. Hannah Reed is about to learn just how important one little decision can be. Hannah's plans for a nice, quiet senior year of high school

are rapidly disintegrating. It all starts when she innocently bursts in on Ethan Flynn in the change room of the clothing store where she works. Ethan's presence in Hannah's world is subtle but constant, and when he saves her life, they become linked by the workings of an ancient society and Ethan's sworn duty to protect Hannah. Working together to figure out what destiny wants with

Hannah, the two of them stumble on a baffling mystery that leaves even Ethan questioning what is in store for her future. With Ethan's help, Hannah learns there is far more to this life, to her life, than she ever realized. As they attempt to untangle Hannah's unique past and emerging abilities, an unknown danger from Ethan's past looms ever closer. While racing to put together the pieces of the

puzzle before it's too late, Hannah wrestles with the idea that she is anything but average, and that perhaps she is also more to Ethan than just a job. Hleo is the first book in the series with the same name. A story of destiny and how one decision can change everything. When you buy a copy of Hleo, your one decision also has the ability to change the lives of others across the globe. \$3.00CAD

from every copy of Hleo purchased goes towards the amazing efforts of the Because I am a Girl Education initiative. Fighting to bring literacy and safe learning resources to girls living in some of the poorest nations in this world. Createspace Independent Publishing Platform When we're going through challenging times, we tend to think we're alone. In the middle of the bad times, it's

difficult to see how life could ever be even just okay again, never-mind good. The purpose of this book is to provide encouragement and inspiration for those who are going through challenges from which they can currently see no relief. Reading stories of ordinary people overcoming extraordinary challenges using a technique you can use to achieve the same results is one of the

most empowering gifts you can give to yourself. "It's 2 a.m. I am in Hawaii. And I'm dying. The pain comes in my body and the voice in my mind confirms it. This is real. Cancer is real. As I look down the barrel of my own emotional gun, my mind flashes back to conversations with another practitioner when I recall saying to her of her Fibromyalgia recovery account - "It's alright for you

- You've got a story! I don't have one! " Well, be careful what you ask for - because you just might get it. I'll rephrase that. Be careful what you ask for - you will definitely get it. I definitely had a story now. The question was would I live to tell it?"

This report describes the factors driving interest rates across the economic cycle. Written by an experienced fixed income analyst, it

explains in straightforward terms the theory that lies behind central bank thinking. Although monetary theory appears complex and highly mathematical, the text explains how decisions still end up being based upon qualitative views about the state of the economy. The text makes heavy use of charts of historical data to illustrate economic concepts and modern

monetary history. The report is informal, but contains references and suggestions for further reading. This is the second report published by BondEconomic s.

Many of us live a mundane existence in which we get up, go to work, come home, and go to sleep. This cycle keeps

repeating each and every day. The worst part is that we likely work a job that we don't enjoy doing, but we keep working that job in order to provide for our family. Stop right now and pay attention, because it doesn't have to be that way. This book; Stir Up the Gift Within, encourages people to use their talents to do what they love. It teaches people exactly how to find their talents

so that they can use them to pursue their passions in life. There are bigger dreams and goals lurking inside each and every one of us; we need to stir up that gift within us. The difference between successful people and ordinary people is that successful people take action and pursue their dreams. Ordinary people tend to accept what life has thrown at them without trying to make any changes or go

against the ideals of society in order to seek out that better life. All successful people found a way to use their talents to do what they love. The hardest part was learning how to do it, and that is exactly what you will learn in this book.

exorbitant fines and fees for minor crimes that mainly hit the city's poor, African American population, resulting in jail by the thousands. As Peter Edelman explains in *Not a Crime to Be Poor*, in fact Ferguson is everywhere: the debtors' prisons of the twenty-first century. The anti-tax revolution that began with the Reagan era led state and local governments, starved for revenues, to squeeze

ordinary people, collect fines and fees to the tune of 10 million people who now owe \$50 billion. Nor is the criminalization of poverty confined to money. Schoolchildren are sent to court for playground skirmishes that previously sent them to the principal's office. Women are evicted from their homes for calling the police too often to ask for protection from domestic violence. The

homeless are arrested for sleeping in the park or urinating in public. A former aide to Robert F. Kennedy and senior official in the Clinton administration, Peter Edelman has devoted his life to understanding the causes of poverty. As Harvard Law professor Randall Kennedy has said, "No one has been more committed to struggles against impoverishment and its cruel

consequences than Peter Edelman." And former New York Times columnist Bob Herbert writes, "If there is one essential book on the great tragedy of poverty and inequality in America, this is it."

Two groundbreaking sociologists explore the way the American dream is built on the backs of working poor women
Many Americans

take comfort and convenience for granted. We eat at nice restaurants, order groceries online, and hire nannies to care for kids. Getting Me Cheap is a riveting portrait of the lives of the low-wage workers—primarily women—who make this lifestyle possible. Sociologists Lisa Dodson and Amanda Freeman follow women in the food, health care, home care, and other low-

wage industries as they struggle to balance mothering with bad jobs and without public aid. While these women tend to the needs of well-off families, their own children frequently step into premature adult roles, providing care for siblings and aging family members. Based on years of in-depth field work and hundreds of eye-opening interviews, Getting Me Cheap

explores how America traps millions of women and their children into lives of stunted opportunity and poverty in service of giving others of us the lives we seek. Destined to rank with works like Evicted and Nickle and Dimed for its revelatory glimpse into how our society functions behind the scenes, Getting Me Cheap also offers a way forward—with both policy solutions and

a keen moral vision for organizing women across class lines.

Controlling Accounts.-- The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common

examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or

Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the

Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the

text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

"Feathertop" is a short story by Nathaniel Hawthorne, first published in 1852. The moral tale uses a metaphoric scarecrow named Feathertop and its adventure to offer the reader a conclusive lesson about

human character. It has since been used and adapted in several other media forms, such as opera and theatre.

ow Ordinary Americans Subvert an Unfair Economy "I'm looking out from inside the chaos. It must be a one-way mirror because no one seems to be able to see back inside to where I am. The looks on their faces, the judgment in their eyes, tells me everything I need to know. The most frustrating part about the whole messed up situation is that even though I'm the one that they stare at in

shock, I am just as shocked as they are. I know no more than they do of why I lose control. What they don't know is that I am more scared of myself than they could ever be." ~ Tally BakerAfter a devastating turn of events, seventeen year old Tally Baker is admitted to Mercy Psychiatric Facility where she is diagnosed with Bipolar Disorder. She has come to a place where

she honestly believes that her life is over. Her mind tells her that she will never smile or laugh again, that she will never be normal again. It is in this unlikely place that she meets two people, different in every way, yet both critical to helping her realize that she has so much more living to do. Candy, a cantankerous sixty year old Mercy Psychiatric patient, is hell bent on driving

everyone as crazy as she is. Candy shows Tally that, regardless of her diagnosis, the ability to push on and live her life to the fullest is her choice and hers alone. In the midst of Tally's oftentimes humorous, sometimes heart-wrenching, escapades with Candy, a new patient is admitted to Mercy—a native American woman named Lolotea. Along with this new patient comes a daily visitor,

her son, Trey Swift. At first glance, it is obvious to Tally that he is incredibly handsome and unbelievably caring. But what she learns through her second glance, and many thereafter, is that there is much more to Trey than he ever lets on. It is during these daily visits that Trey and Tally build a friendship far deeper than either of them truly realize. With Trey, Tally feels for the first time since being admitted that

Tally doesn't tell Trey that she is a patient at Mercy, and she doesn't ever plan to. Her plans go up in flames | when she finds out that Trey is a new student at her school, the school where her brokenness was found out in the floor of the girl's bathroom in a pool of her own blood. |
