Reflections: The Legacy of Lee Kuan Yew

is a collection of essays reflecting on Singapore's first Prime Minister, Lee Kuan Yew's immense contribution to nation-building and the idea of development. This includes its various models — from government and statecraft as well as leadership and governance, to economic development

and the management of plural societies. The papers are written by a range of authors who had worked closely with, or for, or grew up, under Lee Kuan Yew. The Singapore Story: 1965-2000 Editions Didier Millet

In an industry of higher education that measures the longevity of its leading institutions in decades and centuries, the establishment and rapid growth of the eight-year-old Lee Kuan Yew School of Public Policy (LKY School), National University of Singapore, is a remarkable story that deserves to be told. The five co-authors, all of whom were involved in guiding the School during its formative years, provide unique perspectives of key events and the thinking behind major decisions that helped place the School on its current trajectory. They

also provide insights into the challenges faced along the way as well as their own motivations in becoming part of this enterprise. Finally, each author provides his or her own thoughts as to the challenges and opportunities that could emerge for the LKY School in years to come. Read the chapters authored by dynamic, key founding and management personnel of the LKY School and discover for yourselves: the relevance of an Asian policy school what will make the LKY School's curriculum OC one of the most innovative OCO what sets global policy studies apart from all other academic disciplines why executive education at the LKY School is one of the largest in the world why the LKY School is the third best-endowed policy school in the world a view of high-profile participating OC

Giants of Asia: Conversations with Lee  
Kuan Yew Routledge

One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise - and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America

replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, *The Hundred-Year Marathon* reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional

Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders – as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped – sometimes unwittingly and sometimes deliberately – to make this "China Dream" come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year Marathon is a wake-up call as we face the greatest national security challenge of the twenty-first century.

FAULT LINES--AND FUTURE**

Harper Collins

Cultural Politics and Asian Values looks at the political, cultural and religious background of East and Southeast Asian societies and those of 'the West', with a view to seeing how they are affecting contemporary national and international politics: democratization, the international human rights discourse, NGOs and globalization. The book surveys the political history and pre-history of the 'Asian values' debate, taking it up to the era of Megawati Sukarnoputri, Chen Shui-bian and Kim Dae-jung. In chapters on Confucianism, Buddhism, Islam, Christianity and liberalism, Barr explores the histories and conceptual essences of the world religions involved in or affected by the debate.

### **HISTORY, THEORY, CASES**

Routledge

Lee Kuan Yew played the pivotal role in Singapore's transition from British Crown Colony to independent developing nation, and on to the economically powerful and diplomatically influential city-state it is today. Throughout this surprising and at times painful journey, he has proved a charismatic and occasionally controversial leader. Lee is a conviction politician whose speeches are unambiguous, characterful and eminently quotable; this collection of almost 600 short quotations provides a

compelling summary of his views on a wide range of topics from Singapore's past, present and future. In Lee's own words: "I have been accused of many things in my life, but not even my worst enemy has ever accused me of being afraid to speak my mind."

**Up Close With Lee Kuan Yew** MIT Press

After forty years of largely cooperative Sino-U.S. relations, policymakers, politicians, and pundits on both sides of the Pacific see growing tensions between the United States and China. Some go so far as to predict a future of conflict, driven by the inevitable rivalry between an established and a rising power, and urge their leaders to prepare now for a future showdown. Others argue that the deep economic interdependence

between the two countries and the many areas of shared interests will lead to more collaborative relations in the coming decades. In this book, James Steinberg and Michael O'Hanlon stake out a third, less deterministic position. They argue that there are powerful domestic and international factors, especially in the military and security realms, that could well push the bilateral relationship toward an arms race and confrontation, even though both sides will be far worse off if such a future comes to pass. They contend that this pessimistic scenario can be confidently avoided only if China and the United States adopt deliberate policies designed to address the security dilemma that besets the relationship between a rising and an established power. The authors

propose a set of policy proposals to achieve a sustainable, relatively cooperative relationship between the two nations, based on the concept of providing mutual strategic reassurance in such key areas as nuclear weapons and missile defense, space and cyber operations, and military basing and deployments, while also demonstrating strategic resolve to protect vital national interests, including, in the case of the United States, its commitments to regional allies.

*Lee Kuan Yew World Scientific*  
Containing the latest research and insights of academics and development practitioners pursuing political and economic reforms in the ASEAN region, *Building Inclusive Democracies in ASEAN* recognizes that a well-functioning

democracy is part of what ultimately fosters inclusive growth and development. Inequitable access to democratic processes and mechanisms produce government policies and initiatives that are inconsistent with the needs of the majority. The chapters include empirical research on the symptoms and effects of traditional patron-client politics, experiences, insights, analyses, and policy recommendations, as well as reflections, on reform efforts along the lines of citizens' participation, transparency, and evidence-based policymaking.

### **LEE KUAN YEW: THE CRITICAL YEARS**

Springer

For more than twenty years after the

Communist Revolution in 1949, China and most of the western world had no diplomats in each others' capitals and no direct way to communicate. Then, in July 1971, Henry Kissinger arrived secretly in Beijing on a mission which quickly led to the reopening of relations between China and the West and changed the course of post-war history. For the past forty years, Kissinger has maintained close relations with successive generations of Chinese leaders, and has probably been more intimately connected with China at the highest level than any other western figure. This book distils his unique experience and long study of the 'Middle Kingdom', examining China's history from the classical era to the present day, and explaining why it has taken the

extraordinary course that it has. The book concentrates on the decades since 1949, presenting brilliantly drawn portraits of Mao Zedong, Zhou Enlai, Deng Xiaoping and other Chinese leaders, and reproducing verbatim Kissinger's conversations with each of them. But Kissinger's eye rarely leaves the long continuum of Chinese history: he describes the essence of China's approach to diplomacy, strategy and negotiation, and the remarkable ways in which Communist-era statesmen have drawn on methods honed over millennia. At the end of the book, Kissinger reflects on these attitudes for our own era of economic interdependence and an uncertain future. On China is written with great authority, complete accessibility and with many wider reflections on

statecraft and diplomacy distilled from years of experience. At a moment when the rest of the world is thinking about China more than ever before, this timely book offers insights that no other can.

### **A MODERN HISTORY**

Marshall Cavendish International Asia Pte Ltd

Grand strategist and founder of modern Singapore offers key insights and controversial opinions on globalization, geopolitics, economic growth, and democracy. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-

handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S."

He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader—including the one who takes the oath of office on January 20, 2013.

### **CHINA'S GRAND STRATEGY AND AUSTRALIA'S FUTURE IN THE NEW**

## GLOBAL ORDER

Oxford University Press

Predicts that a catastrophic nuclear attack is likely to occur within the next decade if policy makers continue present tactics, and states that such an attack is preventable, offering recommendations for addressing national vulnerabilities.

China's Secret Strategy to Replace America as the Global Superpower

Marshall Cavendish International Asia Pte Ltd

Political genius is never without controversy, or without mystery. This is what makes it so interesting and so rare. Is Lee Kuan Yew the feral, authoritarian figure that Western critics claim? Or a stoic pioneer in new approaches to developing a nation—uncorrupt, modern,

almost scientific? American journalist Tom Plate first interviewed the founder of modern Singapore in 1996 in a continuing back-and-forth with LKY that led to the summer of 2009, when the former prime minister agreed to sit down for two days of unprecedentedly informal but intense conversations that led to this special book. This new edition includes fascinating excerpts from prior interviews, as well as the author's assessment of the man who goes down in history as the world's longest-serving prime minister—and as one of the most unforgettable political figures of modern times. "You have done a superb job of capturing the many facets of this extraordinary man...." - Dr Henry A. Kissinger on Conversations with Lee Kuan Yew.

### **Makers of Modern Asia** Scribe Publications

As India prepares to take its place in shaping the course of an 'Asian century', there are increasing debates about its 'grand strategy' and its role in a future world order. This timely and topical book presents a range of historical and contemporary interpretations and case studies on the theme. Drawing upon rich and diverse narratives that have informed India's strategic discourse, security and foreign policy, it charts a new agenda for strategic thinking on postcolonial India from a non-Western perspective. Comprehensive and insightful, the work will prove indispensable to those in defence and strategic studies, foreign policy, political science, and modern Indian history. It

will also interest policy-makers, think-tanks and diplomats.

### **U.S.-CHINA RELATIONS IN THE TWENTY-FIRST CENTURY**

Lee Kuan Yew The Grand Master's Insights on China, the United States, and the World

The Singapore Story is the first volume of the memoirs of Lee Kuan Yew, the man who planted the island state of

Singapore firmly on the map of the world. It was first published in 1999. In intimate detail, Lee recounts the battles against colonialists, communists and communalists that led to Singapore's independence. With consummate political skill, he countered adversaries, sometimes enlisting their help, at others opposing them, in the single-minded pursuit of Singapore's interests. We read how he led striking unionists against the colonial government, how over tea and golf he fostered ties with key players in Britain and Malaya, of secret midnight meetings in badly lit rooms, drinking warm Anchor beer with a communist underground leader, of his purposeful forging of an alliance with communists to gain the support of the Chinese-educated masses. Readers will find

inspiration in his tenacity as he fought for the people's hearts and minds against first the communists and later the communalists – in parliament, on the streets and through the media. Drawing on unpublished Cabinet papers, archives in Singapore, Britain, Australia, New Zealand and the United States, as well as personal correspondence, he gives us a vivid picture of how others viewed him: determined (“Lee will bluff, bully and blackmail up to the eleventh hour”), motivated (“Choo knew I sweated blood to master Hokkien”), ambitious (“He would think himself as legitimate as I was to be the leader of Malaya”), dangerous (“Crush Lee! Put him inside”). It is a sometimes controversial yet strangely consistent portrait of this Asian statesman. These experiences and his

dealings with the political leaders were to shape his views and policies, which have had a major impact on Singapore and the region.

### **Agricultural Innovation in Africa**

Vintage

Lee Kuan Yew: The Critical Years (1971–78) is a facsimile edition of Alex Josey's second masterful account of Singapore's formidable prime minister, first published in 1980 and simply titled Lee Kuan Yew Vol 2. In this volume, Josey tells the continuing story of Singapore's remarkable development from the beginning of 1971 to the end of 1978. Read about Lee's fears, hopes, triumphs and failures, his analytical judgements, his look into the future, his valuations and beliefs, his unswerving faith in the ability of the average

Singaporean to understand what his prime minister is talking about, and his supreme confidence that Singapore will survive as an independent, if inter-dependent, sovereign state, and be successful.

Decolonization and the Politics of Merger  
Henry Holt and Company

Few gave tiny Singapore much chance of survival when it was granted independence in 1965. How is it, then, that today the former British colonial trading post is a thriving Asian metropolis with not only the world's number one airline, best airport, and busiest port of trade, but also the world's fourth-highest per capita real income? The story of that transformation is told here by Singapore's charismatic, controversial founding father, Lee Kuan

Yew. Rising from a legacy of divisive colonialism, the devastation of the Second World War, and general poverty and disorder following the withdrawal of foreign forces, Singapore now is hailed as a city of the future. This miraculous history is dramatically recounted by the man who not only lived through it all but who fearlessly forged ahead and brought about most of these changes. Delving deep into his own meticulous notes, as well as previously unpublished government papers and official records, Lee details the extraordinary efforts it took for an island city-state in Southeast Asia to survive at that time. Lee explains how he and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the arduous process of nation building:

forging basic infrastructural roads through a land that still consisted primarily of swamps, creating an army from a hitherto racially and ideologically divided population, stamping out the last vestiges of colonial-era corruption, providing mass public housing, and establishing a national airline and airport. In this illuminating account, Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights, democracy, and inherited intelligence, aiming always "to be correct, not politically correct." Nothing in Singapore escaped his watchful eye: whether choosing shrubs for the greening of the country, restoring the romance of the historic Raffles Hotel, or openly, unabashedly persuading young men to

marry women as well educated as themselves. Today's safe, tidy Singapore bears Lee's unmistakable stamp, for which he is unapologetic: "If this is a nanny state, I am proud to have fostered one." Though Lee's domestic canvas in Singapore was small, his vigor and talent assured him a larger place in world affairs. With inimitable style, he brings history to life with cogent analyses of some of the greatest strategic issues of recent times and reveals how, over the years, he navigated the shifting tides of relations among America, China, and Taiwan, acting as confidant, sounding board, and messenger for them. He also includes candid, sometimes acerbic pen portraits of his political peers, including the indomitable Margaret Thatcher and Ronald Reagan, the poetry-spouting

Jiang Zemin, and ideologues George Bush and Deng Xiaoping. Lee also lifts the veil on his family life and writes tenderly of his wife and stalwart partner, Kwa Geok Choo, and of their pride in their three children -- particularly the eldest son, Hsien Loong, who is now Singapore's deputy prime minister. For more than three decades, Lee Kuan Yew has been praised and vilified in equal measure, and he has established himself as a force impossible to ignore in Asian and international politics. From Third World to First offers readers a compelling glimpse into this visionary's heart, soul, and mind.

### **The Challenges of Success** World Scientific

For more than a century, no US adversary or coalition of adversaries -

not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic

position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in a century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to

undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

The Ultimate Preventable Catastrophe

Council on Foreign Relations

The twenty-first century has been dubbed the Asian Century. Highlighting

diverse thinker-politicians rather than billionaire businessmen, Makers of Modern Asia presents eleven leaders who theorized and organized anticolonial movements, strategized and directed military campaigns, and designed and implemented political systems.
