*Viewing Faith through an Atheist's Eyes* InterVarsity Press #1 NEW YORK TIMES BESTSELLER • More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is more important than ever. Now and for the foreseeable future: • Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. • Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. • Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. • Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a "vision" and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan.

Genesis Press, Inc. Redneck Romeo: Rough Riders Book 15 *Jennifer Doudna, Gene Editing, and the Future of the Human Race* Tyndale House Publishers, Inc. As many--young people especially--leave the traditional church in droves, they often still long for a genuine Christian community in

which to practice their faith and share their spiritual journeys with others. They want to be faithful but struggle to find a place where they flourish. Whether they've already left the church behind or are merely considering it, readers will find here both heartfelt encouragement and practical steps for finding or creating a community of faith that honors God and offers rest, love, and communion with other believers. Author Kelly Bean broadens our definition of church to include many alternative forms of Christian community. With true stories of those who have given up on church and what they're doing now, this book is also helpful for pastors and churchgoers to help them understand why people leave the church--and what might be done to help them stay. *Lessons from the Inspired Prayers of Scripture* WaterBrook "The work is influenced by the pursuit of the American Dream lifestyle in the Western World and contemporary practices such as leisure, consumption, media overstimulation, eternal youth, and the psychological sequels they generate in our everyday private life. The project seeks to evoke a mood of isolation, desperation, vanishing, and anxiety, through fragmented images, that exist both in a fictional way and a real one"--Publisher's website.

Henderson hired atheist Casper to accompany him to twelve churches and to then reveal what he found there. The chronicle of their journey offers a glimpse into a kind of relationship that Henderson believes more Christians need to open themselves to--authentic, respectful, transparent friendship with nonbelievers. They collected valuable insights into what nonbelievers see, experience, and feel as visitors in the midst of believers.

## FRANK CONVERSATION ABOUT FAITH, CHURCHES, AND WELL-MEANING CHRISTIANS

### Baker Books

Statistics tell us that Christianity has an image problem. But what are the stories behind the stats? This question led Jim Henderson, Todd Hunter, and Craig Spinks to host a national interview tour with young non-Christians and Christians in Kansas City, Phoenix, Denver, and Seattle. They wanted to hear why Christians get such a bad rap and what we can do to improve. Inspired by David Kinnaman's bestselling book *unChristian*, *The Outsider* Interviews provides close encounters with what a new generation really thinks of Christianity and helps readers learn to live faithfully in a fast-changing world. Ridgeview Publishing

Have you left the church in search of Jesus? Studies show that one in four young adults claim no formal religious affiliation, and church leaders have long known that this generation is largely missing on Sunday morning. Hundreds of thousands of "church leavers" have had a mentor and pastor, however, in Michael Spencer, known to blog readers as the Internet Monk. Spencer guided a vast online congregation in its search for a more honest and more immediate practice of Christian faith. Spencer discovered the truth that church officials often miss, which is that

many who leave the church do so in an attempt to find Jesus. For years on his blog Spencer showed de-churched readers how to practice their faith without the distractions of religious institutions. Sadly, he died in 2010. But now that his last message is available in *Mere Churchianity*, you can benefit from the biblical wisdom and compassionate teaching that always have been hallmarks of his ministry. With *Mere Churchianity*, Spencer's writing will continue to point the disenchanted and dispossessed to a Jesus-shaped spirituality. And along the way, his teachings show how you can find others who will go with you on the journey.

Unique insights from an atheist's Sunday-morning odyssey When Hemant Mehta was a teenager he stopped believing in God, but he never lost his interest in religion. Mehta is "the eBay atheist," the nonbeliever who auctioned off the opportunity for the winning bidder to send him to church. The auction winner was Jim Henderson, a former pastor and author of *Evangelism Without Additives*. Since then, Mehta has visited a variety of church services--posting his insightful critiques on the Internet and spawning a positive, ongoing dialogue between atheists and believers. *I Sold My Soul on eBay* tells how and why Mehta became an atheist and features his latest church critiques, including descriptions of his visits to some of the best-known churches in the country. His observations will surprise and challenge you, revealing how the church comes across to those outside the faith. Who better than a nonbeliever to offer an eye-opening assessment of how the gospel is being presented--and the elements that enhance or detract from the presentation. Mehta announced prior to his churchgoing odyssey that he would watch for any signs of God's existence. After spending Sunday mornings in some of the nation's leading churches, what happened to the man who sold his soul on eBay? Did attending church change his lack of belief? The answers can be found inside.

"Powerline describes the opposition of rural Minnesotans to the building of a high voltage powerline across 430 miles of farmland from central North Dakota to the Twin Cities suburbs. Convinced that the safety of their families and the health of their land was disregarded in favor of the gluttonous energy consumption of cities, the farmer-led revolt began as questioning and escalated to rampant civil disobedience, peaking in 1978 when nearly half of Minnesota's state highway patrol was engaged in stopping

sabotage of the project."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

 This open access book constitutes the proceedings of the 22nd International Conference on Agile Software Development, XP 2021, which was held virtually during June 14-18, 2021. XP is the premier agile software development conference combining research and practice. It is a unique forum where agile researchers, practitioners, thought leaders, coaches, and trainers get together to present and discuss their most recent innovations, research results, experiences, concerns, challenges, and trends. XP conferences provide an informal environment to learn and trigger discussions and welcome both people new to agile and seasoned agile practitioners. This year's conference was held with the theme "Agile Turns Twenty While the World Goes Online". The 11 full and 2 short papers presented in this volume were carefully reviewed and selected from 38 submissions. They were organized in topical sections named: agile practices; process assessment; large-scale agile; and short contributions.

Casper became a national celebrity when newspapers ran the story of the amazing cat that regularly took the No. 3 bus on 11-mile journeys around his home town, Plymouth, in Devon. While his devoted owner, Susan Finden, had wondered where her elusive pet was disappearing to each day, Casper was brightening the lives of countless commuters as they went about their business. Bus drivers, too, were getting well-acquainted with Casper, and notices went up in their depot alerting staff that a very special passenger might board their vehicle. In fact, he became a mascot for the bus company, and pictures of him and Susan adorned No. 3 buses. When Casper was sadly killed by a car in early 2010 messages of sympathy flooded in from places as far a field as Australia and Argentina. It quickly became clear that Casper and his remarkable story had touched the lives of so many people around the world. Movingly told by the owner who loved him dearly, Casper the Commuting Cat is the touching story of a very special black-and-white cat who rode the bus and stole our

hearts.

The authors of the popular *Jim and Casper Go to Church* are back! An unlikely friendship began when former pastor Jim Henderson brought atheist Matt Casper with him to visit a series of churches and give his honest feedback on the services. Since then, Casper has spent a lot of time deeply engaging with Jim and other Christians. And the burning question on everyone's minds is whether Casper has been saved. In *Saving Casper*, Jim and Casper engage in a new conversation about that question. Most Christians have friends like Casper—people who've heard the gospel but still say no—so what happens next? Jim and Casper reveal the surprising answers to questions like: What can an atheist teach us about how to share God with those who don't believe? What have well-meaning Christians said to Casper that has helped—or hurt—their cause? What, if anything, might bring Casper and other nonbelievers to faith . . . and why does Casper say he's closer to God now than ever before? *Saving Casper* is a groundbreaking, game-changing look at evangelism and the "conversion conversation."

On May 13, 1928, ten prominent men of Brockton, Massachusetts, headed off on a fishing trip to Moosehead Lake in Maine. After traveling fourteen hours, the group met Maine guide Samuel Budden and boarded the *Mac II* for the final voyage to their destination. Approximately six miles from the Tomhegan sporting camp, the boat took on water in rough seas and sank, taking Budden and all but one of the adventurers to a watery grave. Jim Benson and Nicole Casper chronicle this horrific tragedy and its legacy in two New England communities.

Christian ministries increasingly prioritize urban areas—big cities and suburbs are considered more strategic, more influential, and more desirable places to live and work. As a ministry strategy, focusing on big places makes sense. But the gospel of Jesus is often unstrategic. Filled with helpful stories and practical advice, pastor Stephen Witmer lays out an integrated theological vision for small-place ministry today.

Life is tough and cheerless for Billy Casper, a disillusioned teenager growing up in a small Yorkshire mining town. Violence is

commonplace and he is frequently cold and hungry. Yet he is determined to be a survivor and when he finds Kes, a kestrel hawk he discovers a passion in life. Billy identifies with her proud silence and she inspired in him the trust and love that nothing else can. Intense and raw and bitingly honest, *A KESTREL FOR A KNAVE* was first published in 1968 and was also made into a highly acclaimed film, 'Kes', directed by Ken Loach.

This historical exploration of the Green Book offers "a fascinating [and] sweeping story of black travel within Jim Crow America across four decades" (The New York Times Book Review). Published from 1936 to 1966, the Green Book was hailed as the "black travel guide to America." At that time, it was very dangerous and difficult for African-Americans to travel because they couldn't eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a horrific problem. It took courage to be listed in the Green Book, and Overground Railroad celebrates the stories of those who put their names in the book and stood up against segregation. Author Candacy A. Taylor shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America. Billy Casper had a higher winning percentage than Arnold Palmer, he won twice as many times on the PGA Tour as Gary Player, and during his career he finished in the top twenty-five more consistently than Jack Nicklaus. And yet, when golf historians write about the legends of the game, with special attention paid to the above-listed "Big Three," his name is often left out of the discussion, or is at best an afterthought. In this fascinating autobiography, Casper tells his life story, shining candid insight into the man who quietly collected fifty-one PGA Tour victories, the seventh highest total in history.
