The old masters of dealt only with the static features of the positional rules of chess. But these are insufficient to explain the basics of chess. The problem is that chess, like in other sciences, has undergone a dynamic revolution, but chess literature doesn't yet reflect it. In this major work Aagaard accessibly explains the rules of attack (the exploitation of a dynamic advantage), balanced between understandable examples, and deep analysis. Five years in the making, this book deals with weak kings, sacrifices, various minor attacking themes, intuitive sacrifices, opposite castling, modern king hunts, and enduring initiative.

The A-904 and A-727, debuting in 1960  
and 1962, respectively, are 3-speed  
automatic Chrysler TorqueFlite  
Transmissions. In Mopar circles, they  
have become synonymous with strength,  
durability, and performance. In fact, 43  
years after its first application, A-904s  
were still found in the Jeep lineup!

TorqueFlites are known for their  
dependability, but many have endured a  
tremendous amount of abuse over 50-  
plus years when hooked up to V-8 Mopar  
powerplants. There is little doubt that  
some of these automatics could be  
prone to failure, or at least need a  
thorough rebuild. Tom Hand shares his  
decades of experience rebuilding  
TorqueFlite transmissions with chapters  
dedicated to troubleshooting,  
disassembly and reassembly,  
performance modifications, post-  
installation procedures, and the most  
thorough source guide offered in print,  
ever. The author walks you through the  
TorqueFlite rebuild with color photos  
showcasing step-by-step procedures  
with highly detailed, easy-to-follow text.  
This book will keep money in your  
pocket and add experience to your  
résumé, but more important, it will help  
you get your Mopar back on the road!
