**ON ...**

For everyone  
 involved in  
 any phase of  
 welding steel  
 structures---

engineers, detailers, fabricators, erectors, inspectors, etc. - the new D1.1 spells out the requirements for design, procedures, qualifications, fabrication, inspection and repair of steel structures made of tubes, plate and structural shapes that are subject to either static or cyclic loading.

ilar to the AWS D1.1, Structural Welding Code—Steel. Because of the interest of both The Aluminum Association and the American Welding Society, it was decided to begin in the mid-70s the task of developing a structural welding code. Initially, the effort was undertaken by

a task force of The Aluminum Association.	Structural Welding Code—Steel, is dedicated by the D1 Committee on Structural Welding and the D1Q Subcommittee on Steel Structures to	Keith Landwehr. In his 15 years of service, Keith contributed 30 years of expertise to the development of the D1.1, Structural Welding ...
