SANTIAGO MAXIMILLIAN

The Text of the New Testament Energion Publications
After a thorough survey of the fundamentals of Greek palaeography, the author discusses many of the distinctive

features of biblical manuscripts, such as musical neumes, lectionaries, glosses, commentaries and illuminations.

**MYTHS AND MISTAKES IN NEW TESTAMENT TEXTUAL
CRITICISM**

Wm. B. Eerdmans Publishing

If only we could hold the actual words of Luke's descriptive narrative or Paul's outpouring of pastoral pain to the church at Corinth. Now we can. A continuing quest to recover the New Testament text allows Christians to open their Bibles with confidence that the words approximate the writers' Greek quill strokes or the English equivalents. Such thought breaths excitement into Philip Comfort's history of the New Testament

text and discussion of the credibility (and limitations) of texts and translations. Comfort challenges the view that early copyists were careless and took editorial liberties. He argues that their accuracy and integrity are indisputable. While this task involves comparing manuscripts, technical facts are framed in historical and cultural color. He assures Christians that even uncovering the paper signed by Paul would not change our understanding of what he said. This introduction to the work of textual criticism challenges students to continue the quest for the original text. It is essentially a sequel to 'Early Manuscripts and Modern Translations of the New Testament.'

The Reliability of the New Testament Wipf and Stock Publishers
"The Text of the New Testament: A Beginner's Handbook to New Testament Textual Studies" serves as an accessible introduction to understanding the transmission and interpretation of the New Testament. This comprehensive guide explores the complex field of New Testament Textual Criticism, breaking it down into digestible sections that beginners can easily grasp. Starting with an exploration of ancient scribes, scrolls, and scriptural materials in Chapter 1, readers gain insights into the origins of New Testament writings. The book emphasizes the significance of New Testament Textual Criticism and delves into various writing materials used in the ancient world. It also discusses the types of errors that can occur in New Testament manuscripts and the key sources of evidence for this discipline. Chapter 2 provides a detailed account of the transmission, corruption, and restoration of the New Testament text. It illustrates how ancient manuscripts have been preserved, changed, and reconstructed over centuries. The section on modern approaches to New Testament Textual Criticism offers readers a glimpse into the methodologies and techniques used by scholars to decipher and interpret these texts. Finally, Chapter 3 allows readers to apply their understanding through the practice of New Testament Textual Criticism. Here, various textual families of Greek New Testament manuscripts are discussed. The chapter also provides real examples of New Testament Textual Criticism, showcasing how theoretical principles are used in practice. This beginner's handbook, punctuated with a rich bibliography, offers readers an illuminating journey through the nuances of New Testament textual studies. "The Text of the New Testament: A Beginner's Handbook to New Testament Textual Studies" is an essential resource to begin your

understanding of the history of the New Testament text from the originals by the authors to the modern critical texts and the field of textual studies (the process of ascertaining the original wording of the original texts). Every area of Bible study cannot begin until the work of a textual scholar has been done first. Basic knowledge of New Testament Textual Studies is paramount for those sharing the Word of God (apologetics) and understanding the textual footnotes in your Bibles.

Numerals in Early Greek New Testament Manuscripts Baker Academic

In this groundbreaking work that sets apart fact and legend, authors Finkelstein and Silberman use significant archeological discoveries to provide historical information about biblical Israel and its neighbors. In this iconoclastic and provocative work, leading scholars Israel Finkelstein and Neil Asher Silberman draw on recent archaeological research to present a dramatically revised portrait of ancient Israel and its neighbors. They argue that crucial evidence (or a telling lack of evidence) at digs in Israel, Egypt, Jordan, and Lebanon suggests that many of the most famous stories in the Bible—the wanderings of the patriarchs, the Exodus from Egypt, Joshua's conquest of Canaan, and David and Solomon's vast empire—reflect the world of the later authors rather than actual historical facts. Challenging the fundamentalist readings of the scriptures and marshaling the latest archaeological evidence to support its new vision of ancient Israel, *The Bible Unearthed* offers a fascinating and controversial perspective on when and why the Bible was written and why it possesses such great spiritual and emotional power today.

Revisiting the Corruption of the New Testament Cambridge University Press

Although valuable for their early witness to the text of the Greek New Testament, the influence of the papyri on Bible translations in this century has largely gone unnoticed. *Early Manuscripts & Modern Translations of the New Testament* redresses this failure by providing a detailed profile of nearly 70 major New Testament papyri and assessing their effect on modern English Bible translations. A five-page bibliography on textual criticism and fourteen photos of ancient papyrus manuscripts round out this fascinating study.

A concise companion to Ellis Brotzman's *Old Testament Textual*

Criticism. Introduces students to the process of comparing Greek texts and seeking the original wording.

The Byzantine Text-Type & New Testament Textual Criticism Christian Publishing House

The third volume in the four-volume commentary on the Book of Acts, this work presents a fresh look at the text of Codex Bezae and compares its message with that of the more familiar Alexandrian text of which Codex Vaticanus is taken as a representative. It deals with Acts 13.1-18.23, the chapters that cover the first two stages of the mission to the Gentiles, with the intervening meeting in Jerusalem (14.28-15.41). For each section, there is a side by side translation of the Bezae and Vaticanus manuscripts, followed by a full critical apparatus which deals with more technical matters, and finally, a commentary which explores in detail the differences in the message of the two texts. Of particular interest in this part of Acts are the person of Paul and the unfolding of his character and theology. It is found that in the Bezae text Luke portrays him as a fallible disciple of Jesus who, despite his powerful enthusiasm, is hindered by his traditional Jewish understanding from fully carrying out the mission entrusted to him in these first stages. The conclusion is drawn that the portrait of an exemplary hero in the Alexandrian text is a later modification of the flawed picture.

400,000+ SCRIBAL ERRORS IN THE GREEK NEW TESTAMENT MANUSCRIPTS Christian Publishing House

This volume highlights points of agreement and disagreement between two leading intellectuals on the subject of the textual reliability of the New Testament: Bart Ehrman, James A. Gray Distinguished Professor at the University of North Carolina at Chapel Hill and Daniel Wallace, Professor of New Testament Studies at Dallas Theological Seminary and Executive Director of the Center for the Study of New Testament Manuscripts. This book provides interested readers a fair and balanced case for both sides and allows them to decide for themselves: What does it mean for a text to be textually reliable? How reliable is the New Testament? How reliable is reliable enough?

The Latin New Testament Baker Academic

Encountering the Manuscripts focuses on the most significant New Testament manuscripts from the perspective of paleography and textual criticism.

MANUSCRIPTS OF THE GREEK BIBLE

Chick Publications

How much did the theological arguments of the church affect the copying of the New Testament text? Focusing on issues of textual criticism, this inaugural volume of the Text and Canon of the New Testament series offers some answers to that question and responds to some of Bart Ehrman's views about the transmission of the New Testament text. Revisiting the Corruption of the New Testament will be a valuable resource for those working in textual criticism, patristics, and New Testament apocryphal literature.

THE MESSAGE OF ACTS IN CODEx BEZAE (VOL 3).

Cambridge University Press

In an era where skepticism about the Bible's reliability is rampant, "400,000+ Scribal Errors in the Greek New Testament Manuscripts: What Assurance Do We Have that We Can Trust the Bible?" emerges as a comprehensive and enlightening response. This book meticulously addresses the complex subject of textual variants in New Testament manuscripts, offering readers a deep dive into the world of New Testament Textual Criticism (NTTC). The book begins by challenging the conspiracy hypothesis and the influence of prominent scholars like Bart D. Ehrman. It navigates through the commonly held misconceptions and the exaggerated impact of scribal errors on the integrity of the New Testament text. Each chapter is structured to build the reader's understanding, from exploring the historical journey of the Bible manuscripts to examining the rigorous process of textual criticism. Key themes include a critical examination of the Greek New Testament, the transmission and preservation of manuscripts, and the impact of early Christianity and persecution on the New Testament text. The author also delves into the reliability of early texts and modern critical editions like NA28 and UBS5. One of the book's core arguments is the distinction between significant and insignificant variants and their impact on reconstructing the original text. It emphasizes the importance of understanding the certainty levels of textual variants, utilizing various textual tools, and comprehensively analyzing these variants. A unique feature of this book is its detailed discussion on how modern Bible translations handle textual variants, including an in-depth look at the New King James Version and the Updated

American Standard Version (UASV). The book also includes a specialized commentary on the New Testament text and translation, providing a clear perspective on the nature and number of textual variants. "400,000+ Scribal Errors in the Greek New Testament Manuscripts" offers an authoritative and accessible approach to a complex subject, affirming the reliability of the New Testament. It is an invaluable resource for anyone seeking to understand the robustness of textual scholarship and the trustworthiness of the biblical text amidst the criticisms and doubts of the modern era.

FUNDAMENTALS OF NEW TESTAMENT TEXTUAL CRITICISM

Christian Publishing House

In Numerals in Early Greek New Testament Manuscripts, Zachary J. Cole examines the distinctively Christian method of number-writing shared by early scribes and illustrates its relevance for textual criticism, Christian material and visual culture, codicology, and theology.

Early Manuscripts and Modern Translations of the New Testament

Baker Books

(Peeters 1994)

An Introduction to New Testament Textual Criticism Energion Publications

This unique work takes a method of textual analysis commonly used in studies of ancient Western and Eastern manuscripts and applies it to twenty-one early Qur'an manuscripts. Keith Small analyzes a defined portion of text from the Qur'an with two aims in view: to recover the earliest form of text for this portion, and to trace the historical development of this portion to the current form of the text of the Qur'an. Small concludes that though a significantly early edited form of the consonantal text of the Qur'an can be recovered, its original forms of text cannot be obtained. He also documents the further editing that was required to record the Arabic text of the Qur'an in a complete phonetic script, as well as providing an explanation for much of the development of various recitation systems of the Qur'an. This controversial, thought-provoking book provides a rigorous examination into the history of the Qur'an and will be of great interest to Quranic Studies scholars.

NEW TESTAMENT TEXTUAL CRITICISM, EXEGESIS, AND EARLY CHURCH HISTORY

Baker Academic

The NIV is the world's best-selling modern translation, with over 150 million copies in print since its first full publication in 1978. This highly accurate and smooth-reading version of the Bible in modern English has the largest library of printed and electronic support material of any modern translation.

WESTCOTT & HORT BRILL

In this tour de force, Kenyon surveys the nuances of textual criticism for both Old Testament and New Testament. He provides a wealth of historical information on the history of scholarship as well as his own balanced conclusions. CONTENTS 1 Westcott and Hort and the Revised Version 2 The Discoveries of Fifty Years 3 Developments in Textual Theory 4 The Chester Beatty Papyri 5 Results and Speculations 6 The Greek Old Testament

Codex Sinaiticus Tyndale House Publishers, Inc.

This book provides a comprehensive introduction to the history and development of the Latin New Testament and a user's guide to the resources available for research and further study. The first five chapters offer a new historical synthesis, bringing together evidence from Christian authors and biblical manuscripts from earliest times to the late Middle Ages. Each witness is considered in its chronological and geographical context, to build up the bigger picture of the transmission of the text. There are chapters introducing features of Latin biblical manuscripts and examining how the Latin tradition may serve as a witness for the Greek New Testament. In addition, each book of the New Testament is considered in turn, with details of the principal witnesses and features of particular textual interest. The three main scholarly editions of the Latin New Testament (the Vetus Latina edition, the Stuttgart Vulgate, and the Oxford Vulgate) are described in detail. Information is also given about other editions and resources, enabling researchers to understand the significance of different approaches and become aware of the latest developments. The Catalogue of Manuscripts gives full details of each manuscript used in the major editions, with bibliographical references and links to sets of digital images. The Appendices include concordances for the different ways in which manuscripts are cited in scholarly literature. An extensive reference bibliography

of publications on the Latin New Testament is also supplied.

The Quest for the Original Text of the New Testament
Oxford University Press

An essential introduction for scholars and students of New Testament Greek With the publication of the widely used 28th edition of Nestle-Aland's Novum Testamentum Graece and the 5th edition of the United Bible Society Greek New Testament, a computer-assisted method known as the Coherence-Based Genealogical Method (CBGM) was used for the first time to determine the most valuable witnesses and establish the initial text. This book offers the first full-length, student-friendly introduction to this important new method. After setting out the method's history, separate chapters clarify its key concepts, including genealogical coherence, textual flow diagrams, and the

global stemma. Examples from across the New Testament are used to show how the method works in practice. The result is an essential introduction that will be of interest to students, translators, commentators, and anyone else who studies the Greek New Testament. Features A clear explanation of how and why the text of the Greek New Testament is changing Step-by-step guidance on how to use the CBGM in textual criticism Diagrams, illustrations, and glossary of key terms

New Testament Textual Criticism Рипол Классик

This book provides a student-level overview of the foundational

elements necessary to grasp textual criticism of the New Testament, also addressing such issues as canonical formation and translation theory. Stanley Porter and Andrew Pitts cover a range of topics related to New Testament textual criticism, including appropriate definitions, the canon, the manuscripts of the New Testament, and the best methodologies for determining the original reading when manuscripts disagree. They also provide a history of the various editions of the New Testament with a how-to guide for using and understanding them. The end of each chapter includes a list of key vocabulary and a select bibliography, making this text especially useful for teachers and students. An appendix introduces students to the tools of textual criticism and invites discussion on how they might use textual criticism in a future classroom or ministry setting.
