This Introduction to Irish law booklet is a handy little number, it is compiled so that the most difficult and challenging terminology, rules and principles are explained, leaving you to enjoy learning about the law in Ireland without the headache of first learning terminology and confounding principles. Torts are wrongdoings; done by one person against another. When one person wrongs another, the injured person may take civil action against the other person. In plain English, let's say while walking down the fruit and veg aisle of your local supermarket, you slip on a grape that had fallen from the shelf and injure yourself. You become the plaintiff, or injured party, and the supermarket is considered the tortfeasor or defendant, they are defined as the negligent party. When this happens you can take civil action against the supermarket to claim compensation for pain, suffering, medical bills and expenses incurred as a result of the fall. Negligence is just one tort category. This booklet will go through all of the different types. This basic introductory booklet is just that, a layman's guide, it is not meant to be an academic text book, it is merely a guide, however, saying that, many first year law students on the CPA, ATI and ACCA courses as well as year one legal proactive and LLB students find it invaluable as it introduces all the rules and principles in plain English and they can then get on with the important task of learning the terminology once they come to grasps with the principles. There is a self-test MCQ at the end of the book AND answers. **Warning; another disclaimer ** This booklet has at its core, terminology which is aimed at a novice, it has some terminology explained in plain English in brackets (like this) and explanations of core rules and principles (at the end of paragraphs), it has icons and also humorous pictures (to remove the staunchness of legal reading), and at the end it has some court humour excerpts and the lighter side of law, a look at some old, strange and by modern standards, weird laws, if you don't want to see these when you are reading your legal book, probably best for you not to buy/read this one Contents The Law of Tort Types of Tort Intentional Torts Trespass to the person Threats Silent phone calls Trespass torts in medicine Defences to the tort of trespass Consent Self-defence Defence of Third Persons Lawful Authority Defence of Property Duress (pressure or threat) Trespass to Land Trespass to Goods Conversion Sample conversion Chose in Action (Intangible Property - Transferable by assignment) Trespass to Goods - Detinue Nuisance Private Nuisance Locus Standi Omissions Damage or Interference Material Damage Interference with enjoyment Magnitude of harm Nature of locality Defendant's motives Social utility Defences to Private Nuisance Remedies Injunctions Public Nuisance: Pure Economic Loss Remedies Damages Injunctions Private Rented Tenants: Local Authority Tenants: Private Homeowner: Alarms Passing Off Elements of Passing off Defamation Defences to Defamation. JumpStart is a new study aid series covering the first-year course areas. Each title is a short book, roughly 170 pages, that addresses a problem students experience as they navigate their first year courses. Often first year students are expected to learn substantive law by reading judicial opinions without a framework or process to help them comprehend what they are reading. The JumpStart series supplies the context and prepares students to apply the rules in a litigation context. Titles in the series can be used as a general introduction to law school or as an introduction to torts. The books are most useful early in the first semester as well as in orientation courses or as summer reading for students entering their first year of law school. The series will appeal to academic success/support coordinators as well as the course-area professors. Ross Sandler is the series editor. His JumpStart: Torts is the first title in the series. JumpStart: Torts offers a detailed step-by-step approach to the stages of litigation, beginning with stating a theory of the case, moving through determining facts and making motions to receiving the holding of the case. Legal reasoning and the litigation process are taught via numerous judicial opinions with full analysis of each. Judicial opinions and analyses are made comprehensible without in-class explanation in a straightforward, clear, and informal writing style. Class-tested for success, JumpStart: Torts features pedagogical elements that support learning and facilitate use. As with each book in the series, the opening chapter provides a glossary of the terms, idioms, and procedures encountered in reading cases in tort law. Many judicial opinions are accompanied by an artist-drawn "cartoon" that illustrates the conflict or issue of the case. Short, easy-to-read opinions focus on ordinary situations with simple fact patterns that apply settled rules of law and principles. The book ends with a Practice Exam: a clear explanation of how to approach the typical torts essay exam question as well as insight into how professors grade exams. The chapter ends with a practice essay question. Two sample answers are included: a strong answer and a weaker answer. Each answer includes notes that point out where students did well and where they could improve their answers.
