When Dead Tongues Speak introduces classicists to the research that linguists, psychologists, and language teachers have conducted over the past thirty years and passes along their most important insights. The essays cover a broad range of topics, including cognitive styles, peer teaching and

collaboration, learning disabilities, feminist pedagogy, speaking, and writing. Each contributor addresses a different problem in the learning process based on his or her own teaching experience, and each chapter combines a theoretical overview with practical examples of classroom activities. The book was developed for classroom use in Greek and Latin methodology classes in M.A. and M.A.T. programs. It will also appeal to Latin and Greek language instructors who want to get current with

the latest scholarship and pedagogical models.

The New York Times comes each morning and never fails to deliver news of the important dead. Every day is new; every day is fraught with significance. I arrange my cup of tea, prop up my slippers. Obituaries are history as it is happening. Whose time am I living in? Was he a success or a failure, lucky or doomed, older than I am or younger? Did she know how to live? I shake out the pages. Tell me the secret of a good life! Where else can you celebrate the life of the pharmacist who moonlighted as a spy, the genius behind Sea Monkeys, the school lunch lady who spent her evenings as a ballroom hostess? No wonder so many readers skip the news

and the sports and go directly to the obituary page. The Dead Beat is the story of how these stories get told. Enthralled by the fascinating lives that were marching out of this world, Marilyn Johnson tumbled into the obits page to find out what made it so lively. She sought out the best obits in the English language and chased the people who spent their lives writing about the dead. Surveying the darkest corners of Internet chat rooms, surviving a mass gathering of obituarists, and making a pilgrimage to London to savor the most caustic and literate obits of all, Marilyn Johnson leads us into the cult and culture behind the obituary page. The result is a rare combination of scrapbook and compelling read, a trip through recent history and the unusual lives we don't

quite appreciate until they're gone.

Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most

critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in

my head: 'I can't go on. I'll go on.'" When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both. *Black & White & Dead All Over* Springer

"The High School Left End" by H. Irving Hancock is a classic sports novel that provides readers with an engaging and inspiring story set in the world of high school football. The narrative primarily revolves around the experiences of Dick

Prescott, a student at Gridley High School who plays the crucial position of the left end on the school's football team. The story is a vibrant portrayal of the challenges and triumphs faced by Dick Prescott and his fellow football players as they navigate the highs and lows of their high school football season. The novel takes readers on a journey through the intense rivalries with other schools, the grueling practices, and the pivotal games that will determine the team's success. A central theme of the book is the importance of teamwork. As the left end, Dick Prescott must work in harmony with his teammates to execute plays effectively. This underscores the idea that success in football, as in life, often hinges on collaboration and collective effort. Throughout the story,

readers witness the bonds of friendship that form among the teammates. Shared victories and defeats on the football field lead to enduring relationships off the field. The novel portrays the idea that sports can be a catalyst for building lifelong friendships. H. Irving Hancock's writing style is both accessible and engaging, making the book particularly appealing to young readers interested in sports and the dynamics of a high school football team. The author's passion for the game is evident in his vivid descriptions of football action and the strategies employed by the team. In summary, "The High School Left End" is a timeless sports novel that celebrates the world of high school football, the value of teamwork, and the growth of young athletes. It reinforces the idea

that working together, fulfilling individual roles, and forming lasting friendships through sports are essential aspects of the high school experience.

Kate Spencer lost her mom to cancer when she was 27. In The Dead Moms Club, she walks readers through her experience of stumbling through grief and loss, and helps them to get through it, too. This isn't a weepy, sentimental story, but rather a frank, up-front look at what it means to go through gruesome grief and come out on the other side. An empathetic read, The Dead Moms Club covers how losing her mother changed nearly everything in her life: both men and women readers who have lost parents or experienced grief of this magnitude will be comforted and consoled. Spencer even concludes each

chapter with a cheeky but useful tip for readers (like the "It's None of Your Business Card" to copy and hand out to nosy strangers asking about your passed loved one).

All over the tri-state area, something strange is happening. Teenagers who die aren't staying dead. They are coming back to life, but they come back different - they stutter and their reactions to everything are slower. Termed 'living

impaired' or 'differently biotic', there are lots of conspiracy theories to explain this new phenomenon. But as their numbers keep on growing, so does the discomfort of the living people in the community. When Phoebe falls for Tommy Williams, her best friend and star of the football team, Adam, has conflicting emotions. And when Tommy decides to try out for the football team, it sets off a chain of events that escalates into deadly violence.

Fate smiles upon the wicked. Prison. That's where my dad is, and the word tastes sour and wrong on my tongue.

Prison. He doesn't deserve to be there. I know that. The set-up was done by someone wicked, someone who wants him out of the game. After all, there's a lot of truth to the saying, "Out of sight, out of mind." My aunt takes pity on me and takes me in, which means I get to spend all of my days at Fate High School. The school is its own sort of prison, but it doesn't matter. I'm just biding my time until I can actually prove that my dad is innocent: that he doesn't deserve what happened to him. In the meantime, I'm stuck navigating a new school, new groups, and new cliques. Oh, and the Legends. The three bad-boy bullies of the school have their own little group, one I want no part of. Too bad they can't seem to take their eyes off of me. This is a bully reverse harem high

school story with steamy scenes, bad boys, and bullying. Expect swearing, expect bad choices, and expect our heroine to refuse to choose between her three bad boys.

Brainwashed Minnesota Historical Society Press

With a Foreword by Nathaniel Philbrick, author of the bestseller *In the Heart of the Sea* If you need an appendectomy, he can do it with a stone scalpel he carved himself. If you have a condition nobody can diagnose—"creeping eruption" perhaps—he can identify what it is, and treat it. A baby with toe-tourniquet syndrome, a human leg that's washed ashore, a horse with Lyme disease, a narcoleptic falling face-first in the street, a hermit living underground—hardly anything is off-

limits for Dr. Timothy J. Lepore. This is the spirited, true story of a colorful, contrarian doctor on the world-famous island of Nantucket. Thirty miles out to sea, in a strikingly offbeat place known for wealthy summer people but also home to independent-minded, idiosyncratic year-rounders, Lepore holds the life of the island, often quite literally, in his hands. He's surgeon, medical examiner, football team doctor, tick expert, unofficial psychologist, accidental homicide detective, occasional veterinarian. When crisis strikes, he's deeply involved. He's treated Jimmy Buffett, Chris Matthews, and various Kennedy relatives, but he makes house calls for anyone and lets people pay him nothing—or anything: oatmeal raisin cookies, a weather-beaten

.44 Magnum, a picture of a Nepalese shaman. Lepore can be controversial and contradictory, espousing conservative views while performing abortions and giving patients marijuana cookies. He has unusual hobbies: he's a gun fanatic, roadkill collector, and concocter of pastimes like knitting dog-hair sweaters. Ultimately, *Island Practice* is about a doctor utterly essential to a community at a time when medicine is increasingly money-driven and impersonal. Can he remain a maverick even as a healthcare chain subsumes his hospital? Every community has—or, some would say, needs—a Doctor Lepore, and his island's drive to retain individuality in a cookie-cutter world is echoed across the country.

The past comes back to haunt a high-profile defense attorney in the newest book in the Baltimore series from the New York Times bestselling author of *Edge of Darkness* and *Monster in the Closet*. In his work as a defense attorney in Baltimore, Thorne has always been noble to a fault--specializing in helping young people in trouble just as someone did for him when he was younger. He plays the part of the bachelor well, but he secretly holds a flame for his best friend and business partner, Gwyn Weaver, a woman struggling to overcome her own demons. After four years, he thinks he might finally be

ready to confess his feelings, come what may. But his plans are derailed when he wakes up in bed with a dead woman--her blood on his hands and no recollection of how he got there. Whoever is trying to frame Thorne is about to lead him down the rabbit hole of his past, something he thought he had outran long ago. Thorne must figure out who has been digging into his secrets, how much they know, and how far they will go to bring him down . . .

Reprints and reminiscences from the magazine's first decade: "Fun to flip through . . . Where would American humor be without the National

Lampoon?”—The New Yorker From its first issue in April 1970, the National Lampoon blazed like a comet, defining comedy as we know it today. To create Drunk Stoned Brilliant Dead, former Lampoon illustrator Rick Meyerowitz selected the funniest material from the magazine and sought out the survivors of its first electrifying decade to gather their most revealing and outrageous stories. The result is a mind-boggling tour through the early days of an institution whose alumni left their fingerprints all over popular culture: Animal House, Caddyshack, Saturday Night Live, Ghostbusters, SCTV, Spinal Tap, In Living Color, Ren & Stimpy, The Simpsons—even Sesame Street counts a few Lamponers among its ranks. This is the story of a band of young talents who

“irrevocably rewrote the landscape of American humor” (Publishers Weekly). “A vivid picture of a tight-knit family of twentysomething humorists at the dawn of their careers.” —Newsweek “The other night I started laughing so hard I had to leave the room . . . And then I realized that I hadn’t laughed so hard in 35 years, since I was a teenager, reading National Lampoon.” —The Wall Street Journal “If you grew up with the Lampoon, this book is a trip down memory lane like no other; if not, it will demonstrate that the much maligned 70s could produce humor that has never been surpassed.” —Vanity Fair

This book fills a clear gap in the literature for a technically-focused book covering nuclear proliferation and related issues post-9/11. Using a concept-led approach which serves a broad readership, it provides detailed overview of nuclear weapons, nuclear proliferation and international nuclear policy. The author addresses topics including offensive and defensive missile systems, command and control, verification, weapon effects, and nuclear testing. A chronology of nuclear arms is presented including detailed discussion of the Cold War, proliferation, and arms control treaties. The book is tailored to courses on nuclear proliferation, and the general reader will also find it a fascinating introduction to the science and strategy behind international

nuclear policy in the modern era. *Rockford High School Annual '94 [1894]* St. Martin's Press
“A triumph of the human spirit! This book will make you laugh and cry as you cheer Taylor on in her fight against childhood cancer” (Jeff Gordon, retired NASCAR champion and founder of Jeff Gordon’s Children Foundation). In *Paint Your Hair Blue*, Sue Matthews tells the heartwarming tale of heroic courage and devastating blows that characterized her daughter Taylor’s odyssey through the underfunded world of pediatric cancer. Most of us will be touched by cancer in some way during our lifetimes. Discover how Taylor and her family learned to balance the necessity of her continuous medical treatments with the need for her to be a kid and live as normally as

possible. Matthews gives dozens of tips and pointers, gleaned by trial and error, about navigating the maze of pediatric oncology through the lens of a layperson and better understand how to face fears with strength, fortitude, and confidence while living life to the fullest. Matthews and her sister, Andrea, will make you a better warrior in the war on cancer with this story of survival, where love transcends all and where every moment is a celebration of life. “Paint Your Hair Blue is a love story where heartbreak, joy, and tears will capture your heart and

make you believe that love can conquer all.” —Cher “Beautifully written . . . Paint Your Hair Blue will make you hug your children tighter and fight harder to find a cure for pediatric cancer.” —Angie Harmon, mother, actress, director, UNICEF ambassador “A heartwarming memoir . . . [An] incredible story of love and perseverance—a poignant reminder to both live life and love others to our greatest capacity.” —Hannah Storm, ESPN award-winning journalist
