A masterpiece ahead of its time, a prescient rendering of a dark future, and the inspiration for the blockbuster film *Blade Runner* By 2021, the World War has killed millions, driving entire species into extinction and sending mankind off-planet. Those who remain covet any living creature, and for people who can't afford one, companies built incredibly realistic simulacra: horses, birds, cats, sheep. They've even built humans. Immigrants to Mars receive androids so sophisticated they are indistinguishable from true men or women. Fearful of the havoc these artificial humans can wreak, the government bans them from Earth. Driven into hiding, unauthorized androids live among human beings, undetected. Rick Deckard, an officially sanctioned bounty hunter, is commissioned to find rogue androids and "retire" them. But when cornered, androids fight back—with lethal force. Praise for Philip K. Dick "The most consistently brilliant science fiction writer in the world."—John Brunner "A kind of pulp-fiction Kafka, a prophet."—The New York Times "[Philip K. Dick] sees all the sparking—and terrifying—possibilities . . . that other authors shy away from."—Rolling Stone

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—"our pre-eminent translator from the Persian" (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi's masterpiece, adding more than 100 pages of newly translated text. Davis's elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafiz. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Get practical answers from the only guide on the care of sheep, goats, and cervids! Authoritative yet easy to read, *Sheep, Goat and Cervid Medicine*, 3rd Edition covers all the latest advances in the field, including diseases and medical treatment, surgery, pain management, theriogenology, and nutrition. Clear instructions and hundreds of full-color photographs guide you step by step through common procedures including restraint for examination, administration of drugs, blood collection, and grooming. New to this edition is coverage of deer and elk medicine, reflecting the growing interest in these ruminants. Written by an expert team led by Dr. D.G. Pugh, this comprehensive reference is ideal for veterinarians and also for owners of sheep and goats. Clear writing style and consistent organization makes the book easy to understand and use, with disease chapters including pathogenesis, clinical signs, diagnosis, treatment, and prevention. Coverage of both surgery and medicine in each body systems chapter makes it easier to choose between treatment options for specific disorders. Superbly illustrated surgical procedures clearly demonstrate the steps to follow in performing medical and reproductive surgery. Diverse, expert contributors include the most experienced authorities, each providing current information on the care of valuable breeding stock as well as pets. Useful appendixes, now including veterinary feed directives, offer convenient access to information on drugs and drug dosages, fluid therapy, and normal values and conversions. Consistent, logical format in each body systems chapter makes information easy to find by beginning with physical examination and diagnostic procedures, followed by discussions of common diseases that involve the system. Comprehensive Feeding and Nutrition chapter covers diet evaluation, method of balancing rations, total parenteral nutrition, and examples of nutritious diets. Explanation of the differences in normal behavior between sheep and goats shows how they are not the same, and require different methods of treatment. NEW! Coverage of cervids has been added to chapters throughout the book, reflecting the growing popularity of deer and elk. NEW! Thorough content updates are made throughout the book and reflect the latest research evidence. NEW! 170 new clinical photos have been added. NEW! Anesthesia and Pain Management chapter includes a new section on pain management strategies, reflecting the emphasis on controlling pain in small ruminants. NEW! Expert Consult website offers an online version of the book, making it easy to search the entire book electronically. NEW! Two new authors are respected and well-known veterinary medicine experts and educators: Dr. Misty Edmondson and Dr. Thomas Passler.

Including more than 35 step-by-step recipes from the Black Sheep School of Cheesemaking Most DIY cheesemaking books are hard to follow, complicated, and confusing, and call for the use of packaged freeze-dried cultures, chemical additives, and expensive cheesemaking equipment. For though bread baking has its sourdough, brewing its lambic ales, and pickling its wild fermentation, standard Western cheesemaking practice today is decidedly unnatural. In *The Art of Natural Cheesemaking*, David Asher practices and preaches a traditional, but increasingly countercultural, way of making cheese—one that is natural and intuitive, grounded in ecological principles and biological science. This book encourages home and small-scale commercial cheesemakers to take a different approach by showing them: • How to source good milk, including raw milk; • How to keep their own bacterial starter cultures and fungal ripening cultures; • How to make their own rennet—and how to make good cheese without it; • How to avoid the use of plastic equipment and chemical additives; and • How to use appropriate technologies. Introductory chapters explore and explain the basic elements of cheese: milk, cultures, rennet, salt, tools, and the cheese cave. The fourteen chapters that follow each examine a particular class of cheese, from kefir and paneer to washed-rind and alpine styles, offering specific recipes and handling advice. The techniques presented are direct and thorough, fully illustrated with hand-drawn diagrams and triptych photos that show the transformation of cheeses in a comparative and dynamic fashion. *The Art of Natural Cheesemaking* is the first cheesemaking book to take a political stance against Big Dairy and to criticize both standard industrial and artisanal cheesemaking practices. It promotes the use of ethical animal rennet and protests the use of laboratory-grown freeze-dried cultures. It also explores how GMO technology is creeping into our cheese and the steps we can take to stop it. This book sounds a clarion call to cheesemakers to adopt more natural, sustainable practices. It may well change the way we look at cheese, and how we make it ourselves.

Ship of Smoke and Steel is the launch of Django Wexler's cinematic, action-packed epic fantasy Wells of Sorcery trilogy. In the lower wards of Kahnzoka, the great port city of the Blessed Empire, eighteen-year-old ward boss Isoka enforces the will of her criminal masters with the power of Melos, the Well of Combat. The money she collects goes to keep her little sister living in comfort, far from the bloody streets they grew up on. When Isoka's magic is discovered by the government, she's arrested and brought to the Emperor's spymaster, who sends her on an impossible mission: steal Soliton, a legendary ghost ship—a ship from which no one has ever returned. If she fails, her sister's life is forfeit. On board Soliton, nothing is as simple as it seems. Isoka tries to get close to

the ship's mysterious captain, but to do it she must become part of the brutal crew and join their endless battles against twisted creatures. She doesn't expect to have to contend with feelings for a charismatic fighter who shares her combat magic, or for a fearless princess who wields an even darker power. "Truly epic, fierce, and exhilarating, *Ship of Smoke and Steel* will capture you and lock you away. With magical combat sequences fit for the big screen, the action is almost as breathtaking as the intrigue." —Morgan Rhodes, New York Times bestselling author of the *Falling Kingdoms* series At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

One night, when Ethan reaches under his bed for a toy truck, he finds this note instead: "Monsters! Meet here for final test." Ethan is sure his parents are trying to trick him into staying under the covers, until he sees five colorful sets of eyes blinking at him from beneath the bed. Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. But only the little green monster, Gabe, has the perfect blend of stomach-rumbling and snorting needed to get Ethan into bed and keep him there so he falls asleep—which as everyone knows, is the real reason for monsters under beds. With its perfect balance of giggles and shivers, this silly-spooky prequel to the award-winning *I Need My Monster* and *Hey, That's MY Monster!* will keep young readers entertained.
