Although a powerful, independent bureaucracy poses a threat to democracy, it is indispensable to its proper functioning. This book provides an overview of the complex relationship between bureaucracy and the politics of democracy and is essential reading for students of sociology, political science and public administration. It is designed to guide students through the maze of classical and modern theories on the topic, to give them basic information on the historical developments in this area and the

present them with case histories of the actual relationship between bureaucrats and politicians in democratic societies.

1 Anunnaki is the actual shooting screenplay for the long awaited sci-fi legend created by write/producer/director/VFX producer Jon Gress and precedes the release of the highly anticipated and controversial series *Secrets Of The Anunnaki* which reveals the connections between the Anunnaki, UFO's, Crop Circles, Vampires and what Gress has coined "The True Dark Matrix".

This book is concerned with the ways in which organizations design, build and use information technology systems. In particular it looks at the interaction between these IT-centred

activities and the broader management processes within organizations. The authors adopt a critical social science perspective on these issues, and are primarily concerned with advancing theoretical debates on how best to understand the related processes of technological and organizational change. To this end, the book examines and deploys recent work on power/knowledge, actor-network theory and critical organization theory. The result is an account of the nature and significance of information systems in organizations which is an alternative perspective to pragmatic and recipe-based approaches to this topic which dominate much contemporary management literature on IT.

Classic tales of crime detection featuring Byomkesh Bakshi, the master inquisitor. Written long before Satyajit Ray's Feluda series, Saradindu Bandyopadhyay's Byomkesh Bakshi mysteries heralded a new era in Bengali popular fiction. Set in the old-world Calcutta of the Raj, these stories featuring the astute investigator and his chronicler friend Ajit are still as gripping and delightful as when they first appeared. Byomkesh's world, peopled with wonderfully delineated characters and framed by a brilliantly captured pre-Independence urban milieu, is fascinating because of its contemporary flavor. In the first story, Byomkesh works undercover to expose an organized crime ring trafficking in drugs. In 'The Gramophone Pin Mystery', he must put his razor-sharp intellect to good use to unearth the pattern behind a series of bizarre roadside murders. In 'Calamity Strikes', the ace detective is called upon to investigate the strange and sudden death of a girl in a neighbour's kitchen. In the next story, he has

to lock horns with an old enemy who has vowed to kill him with an innocuous but deadly weapon. And in 'Picture Imperfect', Byomkesh Bakshi unravels a complex mystery involving a stolen group photograph, an amorous couple, and an apparently unnecessary murder. Available in English for the first time in a superb translation, these stories will captivate every lover of crime fiction, young and old alike.

This book contains Mill's arguments in favor of a representative form of government, which was in Mill's view the ideal form a government should take. Mill thought that the best government was whatever kind would contribute to the most happiness in a society, both on an individual and an overall level. Democracy in particular creates the most overall happiness because, in Mill's thinking, it encourages individuals to participate in society. By taking active and intelligent interest in social issues, individuals develop their natural "human sympathies," learn to consider the common good, and are able to enjoy the benefits of working together with others. These types of social feelings of well-being--so important to utilitarians like Mill--simply aren't possible under other forms of government.

The Bureaucrats (Les Employes) stands out in Balzac's immense Human Comedy by concentrating precisely and penetratingly on a distinctive "modern" institution: France's state bureaucracy. Roubourdin, aided by his unscrupulous wife, attempts to reorganize and streamline the entire system. Roubourdin's plan

will halve the government's size while doubling its revenue. When the plan is leaked, Rabourdin's rival--an utter incompetent--gains the overwhelming support of the frightened and desperate body of low-ranking functionaries. The novel contains the recognizable themes of Balzac's work: obsessive ambition, conspiracy and human pettiness, and a melodramatic struggle between the social good and the evils of folly and stupidity. It is also an unusual, dramatized analysis of a developing political institution and its role in shaping social class and mentality.

This fascinating book focuses on those who are most affected by changes in education policy and systems--the pupils. It draws on empirical evidence from a number of research projects and distills this into a compelling account of contemporary schooling from the pupils' perspective. Jean Rudduck calls for a shift in the way we currently view young people at school and sets out a case for radically rethinking aspects of school organization, relationships and practice. Her research confirms that we need to see pupils differently, to re-assess their capabilities and reflect on what they are capable of being and doing.

A young couple poses before a painted backdrop depicting a modern building set in a volcanic landscape; a college student grabs his camera as he heads to a political demonstration; a man poses stiffly for his identity photograph; amateur photographers

look for picturesque images in a rural village; an old woman leafs through a family album. In *Refracted Visions*, Karen Strassler argues that popular photographic practices such as these have played a crucial role in the making of modern national subjects in postcolonial Java. Contending that photographic genres cultivate distinctive ways of seeing and positioning oneself and others within the affective, ideological, and temporal location of Indonesia, she examines genres ranging from state identification photos to pictures documenting family rituals. Oriented to projects of selfhood, memory, and social affiliation, popular photographs recast national iconographies in an intimate register. They convey the longings of Indonesian national modernity: nostalgia for rural idylls and "tradition," desires for the trappings of modernity and affluence, dreams of historical agency, and hopes for political authenticity. Yet photography also brings people into contact with ideas and images that transcend and at times undermine a strictly national frame. Photography's primary practitioners in the postcolonial era have been Chinese Indonesians. Acting as cultural brokers who translate global and colonial imageries into national idioms, these members of a transnational minority have helped shape the visual contours of Indonesian belonging even as their own place within the nation remains tenuous. *Refracted Visions* illuminates the ways that everyday photographic practices generate visual habits that in turn give rise to political subjects and communities.
