When Chris Bianco started Pizzeria Bianco in the back corner of a Phoenix grocery store in 1988, he had no idea that he would become a driving force in the artisanal pizza movement. All he knew was that his food would reflect the respect and sincere intention that he brings to each of his recipes, as the result of his relationships with farmers, local producers, customers, and staff. The book features recipes for his signature pizzas as well as strategies and techniques for translating chef’s methods to the home kitchen. Make homemade pizza that exceeds your wildest expectations—yet couldn’t be simpler—with Jim Lahey’s groundbreaking no-knead dough and inventive toppings. Jim Lahey, the baking genius behind New York City’s celebrated Sullivan Street Bakery and Co. pizza restaurant, has developed a brilliant recipe that requires no kneading and produces an irresistible crust in any home oven—gas or electric—in fewer than five minutes. The secret to incredible pizza is a superb crust—one that is crisp yet chewy, and slightly charred around the edges. My Pizza shares this revolutionary technique and the creative pies that put Co. on the map, as well as recipes for salads, soups, and desserts to make a meal complete. The pizzas in this book aren’t your usual, run-of-the-mill pies. In fact, Jim’s unique topping pairings—such as Corn and Tomato, Coppa and Fennel, and Potato and Leek—reinvigorate this American favorite. His whimsy is apparent in his Pepperoni Pie, which doesn’t include the cured meat we have all come to expect; instead, riffing on “pepperoni” as the Italian plural for “pepper,” Jim offers a pie with red pepper puree, ground lamb, and pecorino cheese. To round out dinner, My Pizza also has recipes for starters and side salads—such as Cannellini Bean Toast, Pea Soup, and Bibb and Roasted Squash Salad—and sweet finishes, from Milk Chocolate Sundae to Banoffee Pie. With gorgeous color photographs and helpful tips on equipment and techniques, My Pizza unlocks the secrets of great, easy pizza for home cooks everywhere.

Master bread baker Peter Reinhart follows the origins of pizza from Italy to the States, capturing the stories behind the greatest artisanal pizzas of the Old World and the New. Beginning his journey in Genoa, Reinhart scours the countryside in search of the fabled focaccia col formaggio. He next heads to Rome to sample the famed seven-foot-long pizza al taglio, and then to Naples for the archetypal pizza napoletana. Back in America, the hunt resumes in the unlikely locale of Phoenix, Arizona, where Chris Bianco of Pizzeria Bianco has convinced many that his pie sets the new standard in the country. The pizza mecca of New Haven, grilled pizza in Providence, the deep-dish pies of Chicago, California-style pizza in San Francisco and Los Angeles—these are just a few of the tasty attractions on Reinhart's epic tour. Returning to the kitchen, Reinhart gives a master class on pizza-making techniques and provides more than 60 recipes for doughs, sauces and toppings, and the pizzas that bring them all together. His insatiable curiosity and gift for storytelling make American Pie essential reading for those who aspire to make great pizza at home, as well as for anyone who enjoys the thrill of the hunt.

Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts- dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other

alternative 'theories' like FSMism, which is by far the tastier choice." -J. Simon, Ph.D. "In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory." -Afshin Beheshti, Ph.D. Read the book and decide for yourself!
