"In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!" – Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for "the ethical and spiritual itinerary that follows." *Laudato Si'* outlines: The current state of our "common home" The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

Open Veins of Latin America Ewe Editorial Acad MIA Espa Ola The classic Gothic novel that inspired the blockbuster musical *There is a ghost in the Paris Opera House*. Singers, dancers, and stagehands have all seen him lurking in the shadows of the set, and each describes his face differently. Some say it is on fire, others that it is bare bone, and a terrified few say that he has no face at all. Outsiders dismiss the stories as theatrical superstition, but soon the phantom will reveal himself—and the Opera will never be the same. A crew member is found hanged, and every denizen of the theater is quick to blame the phantom. More deaths follow, until the phantom is forced to make himself known in the most spectacular manner possible. But when the mysterious ghost begins to admire a beautiful singer, it is the beginning of something magnificent: a love story as heartfelt and tragic as any opera ever staged. This ebook features a new introduction by Otto Penzler and has been professionally proofread to ensure accuracy and readability on all devices. "The wildest and most fantastic of tales." —The New York Times Book Review

A thirteen-year-old Jewish girl and her family abandoned their house in Amsterdam and went into hiding in 1942, when Nazis

occupied Holland. They and another family stayed cloistered in the "Secret Annex" of an old office building for the next two years, until their whereabouts were revealed to the Gestapo. They suffered starvation, boredom, the daily cruelties of living in tight quarters, and the ever-present prospect of discovery and death because they were cut off from the outside world. Anne Frank kept a diary throughout this time, recording vivid recollections of her events. Her story is a fascinating meditation on human tenacity and weakness, as well as a riveting self-portrait of a sensitive and vibrant young woman whose promising future was sadly cut short.

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

ÉOn the 24th of February, 1815, the look-out at Notre-Dame de la Garde signalled the three-master, thePharaonÉfrom Smyrna, Trieste, and Naples. As usual, a pilot put off immediately, and rounding the Chateau d'If, got on board the vessel between Cape Morgion and Rion island. Immediately, and according to custom, the ramparts of Fort Saint-Jean were covered with spectators; it is always an event at Marseilles for a ship to come into port, especially when this ship, like theÉPharaon, has been built, rigged, and laden at the old Phocce docks, and belongs to an owner of the city. The ship drew on and had safely passed the strait, which some volcanic shock has made between the Calasareigne and Jaros islands; had doubled Pomegue, and approached the harbor under topsails, jib, and spanker, but so slowly and sedately that the idlers, with that instinct which is the forerunner of evil, asked one another what misfortune could have happened on board. However, those experienced in navigation saw plainly that if any accident had occurred, it was not to the vessel herself, for she bore down with all the evidence of being skilfully handled, the anchor a-cockbill, the jib-boom guys already eased off, and standing by the side of the pilot, who was steering theÉPharaonÉtowards the narrow entrance of the inner port, was

a young man, who, with activity and vigilant eye, watched every motion of the ship, and repeated each direction of the pilot. The vague disquietude which prevailed among the spectators had so much affected one of the crowd that he did not await the arrival of the vessel in harbor, but jumping into a small skiff, desired to be pulled alongside thePharaon, which he reached as she rounded into La Reserve basin. When the young man on board saw this person approach, he left his station by the pilot, and, hat in hand, leaned over the ship's bulwarks. He was a fine, tall, slim young fellow of eighteen or twenty, with black eyes, and hair as dark as a raven's wing; and his whole appearance bespoke that calmness and resolution peculiar to men accustomed from their cradle to contend with danger.

El objetivo de este trabajo es la operación del servicio específico, entendido como un derecho, dentro del ordenamiento chileno. Más allá de una intención de orden sistemático, que organice la normativa aplicable, lo que se busca es profundizar el estudio de su funcionamiento y la interpretación del mismo, para que pueda acercarse de mejor manera a una realidad contractual y económica de esa imperaba en el siglo XIX. Dado que su ordenación en las normas civiles positivas no es exhaustiva, es que muchas de las problemáticas que se presentan deben ser solucionadas mediante la integración de otras materias que deben alcanzar las soluciones. En este sentido, no solo se puede examinar las leyes sustantivas y procesales chilenas, sino que, cuando sea necesario, recurrir a otras áreas, como el examen histórico o el uso de la argumentación jurídica. Asimismo, el ejercicio comparativo puede ser útil para examinar los caminos que han seguido los ordenamientos extranjeros, en el sentido de que se han corregido, a la vez, la viabilidad de una eventual aplicación en el país. Una perspectiva multidisciplinaria, flexibilizada por las nuevas tendencias doctrinales y jurisprudenciales, se encuentra en el Código Civil de Andrés Bello, cuidando siempre el respeto por la autoridad de sus mandatos. Como dice el profesor Carlos Pizarro Wilson en el prólogo de la obra: "El trabajo se basa en el derecho del trabajo", "Contamos en la doctrina local", "Es esencial para la comprensión contemporánea del derecho de los contratos", "Enmarca así en un movimiento lento, pero persistente que ha ido estructurando un derecho de los contratos acorde con el tráfico contractual actual".

The most famous and controversial novel from one of the greatest writers of the twentieth century tells the story of Humbert Humbert's obsessive, devouring, and doomed passion for the nymphet Dolores Haze. "The conjunction of a sense of humor with a sense of horror [results in] satire of a very special kind." —The New Yorker Awe and exhilaration—along with heartbreak and mordant wit—abound in *Lolita*, which tells the story of the aging Humbert Humbert's obsession for the nymphet Dolores Haze. *Lolita* is also the story of a hypercivilized European colliding with the cheerful barbarism of postwar America. Most of all, it is a meditation on love—love as outrage and hallucination, madness and transformation.

An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. *Memories, Dreams, Reflections* is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Jung continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961, making this a uniquely comprehensive reflection on a remarkable life. Fully corrected, this edition also includes Jung's VII Sermones ad Mortuos.

Living to Tell the Tale John Wiley & Sons

NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

Memories, Dreams, Reflections Vintage

The marriage of philosophy and fiction in the first third of Spain's twentieth century was a fertile one. It produced some truly notable offspring -- novels that cross genre boundaries to find innovative forms, and treatises that fuse literature and philosophy in new ways. In her illuminating interdisciplinary study of Spanish fiction of the "Silver Age," Roberta Johnson places this important body of Spanish literature in context through a synthesis of social, literary, and philosophical history. Her examination of the work of Miguel de Unamuno, Pio Baroja, Azorin, Ramon Perez de Ayala, Juan Ramon Jimenez, Gabriel Miro, Pedro Salinas, Rosa Chacel, and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period's most canonical novels. Johnson reformulates the traditional discussion of generations and "isms" by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another. Current narratological theories, including those of Todorov, Genette, Bakhtin, and Martinez Bonati, assist in teasing out the intertextual maneuvers and philosophical conflicts embedded in the novels of the period, while the sociological and biographical material bridges the philosophical and literary analyses. The result, solidly grounded in original archival research, is a convincingly complete picture of Spain's intellectual world in the first thirty years of this century. Crossfire should revolutionize thinking about the Generation of '98 and the Generation of '14 by identifying the heterogeneous philosophical sources of each and the writers' reactions to them in fiction.

Jean-Baptiste Tavernier (1605-89) was one of the most renowned travelers of 17th century Europe. The son of a French Protestant who had fled Antwerp to escape religious persecution, Tavernier was a jewel merchant who between 1632 and 1668 made six voyages to the East. The countries he visited (most more than once) included present-day Cyprus, Malta, Turkey, Syria, Iraq, Iran, Afghanistan, Pakistan, India, Sri Lanka, and Indonesia. In 1676 he published his two-volume *Les six voyages de Jean Baptiste Tavernier* (The six voyages of Jean Baptiste Tavernier). An abridged and very imperfect English translation of the book appeared in 1677. The first modern scholarly edition in English, presented here, was published in 1889, with translation, notes, and a biographical sketch of Tavernier by Dr. Valentine Ball (1843-95), a British civil servant with the Indian Geological Service. Among the most memorable chapters in the book are those that recount Tavernier's visits to the diamond mines of India and his inspection of the jewels of the Great Mogul. Tavernier was not a scholar or an educated linguist, and after his initial popularity in the 17th century his authority waned, as historians and others questioned the accuracy of his observations. In the 20th century, however, Tavernier's reputation rose, as such important historians as Lucien Febvre and Fernand Braudel used the detailed information he recorded about the prices and qualities of goods and about business and commercial practices in their pioneering studies of economic and social history. The book contains several appendices by Ball about famous diamonds (including the historic Koh-i-Noor Diamond now belonging to the British royal family), diamond mines in India and Borneo, ruby mines in Burma, and sapphire washings in Ceylon (Sri Lanka). A fold-out map shows Tavernier's voyages in India and the mines he visited.

OBJETIVOS: El objetivo del presente proyecto ha sido describir las características epidemiológicas de una gran cohorte de pacientes representativos de la población española con enfermedades mediadas por mecanismos inmunes como son la Artritis Reumatoide (AR), la Artritis Psoriásica (Aps) y el Lupus Eritematoso Sistémico (LES). MATERIAL Y METODOS: Se trata de un estudio transversal, descriptivo, comparativo y multicéntrico en el que han participado más de 90 centros pertenecientes al Sistema Nacional de Salud (SNS). Los pacientes incluidos en el presente proyecto fueron seleccionados en el marco del Proyecto Científico-Tecnológico Singular y Estratégico del Plan Nacional de Biotecnología "Desarrollo de un kit diagnóstico para las enfermedades mediadas por mecanismos inmunes, IMID-Kit" (PSE-10000-2006-6/PSE-10000-2008-9). Como grupo control se incluyeron sujetos sanos hipernormales para las enfermedades IMID procedentes del Banco Nacional de ADN (Salamanca). Para la obtención de los datos se utilizó el cuestionario epidemiológico elaborado por el Banco Nacional de ADN en el que se registran entre otros, datos relativos a la edad, género, peso, altura, estilo de vida y nivel de estudios. RESULTADOS: En el presente trabajo se han incluido un total de 4.199 pacientes (AR n= 2.136; Aps n= 1.204; LES n=859) y 1.534 controles sanos. Entre los pacientes con AR y LES se observó un predominio del género femenino (77%; 92,8%) con un valor de la media de la edad de 60 y 45 años respectivamente. Se observó un predominio del género masculino (52,8%) entre los pacientes con Aps con un valor de la media de edad de 52 años. El IMC fue de 26,22, 30 y 25,28 entre los pacientes con AR, Aps y LES. El porcentaje de pacientes con estudios superiores fue del 11.7% en la AR, 15% en la Aps y 22,58% en LES. La mayoría de los pacientes con AR y LES eran amas de casa (43%; 35%) mientras que los pacientes con Aps eran trabajadores por cuenta ajena (29%). El valor de la media del consumo de café/te fue de 1,4±1,2/1,7±1,3/1,4±1,3 tazas al día en los pacientes con AR, Aps y LES respectivamente. El porcentaje de fumadores activos fue del 20,2%, 23,4% y 29,2% entre los pacientes con AR, Aps y LES. En los pacientes con AR el

valor medio del número de hijos era de 2,29 ± 1,15. En los pacientes con Aps, un valor medio de 2,09 ± 1,01 hijos y en los pacientes con LES 1,9± 0,9 hijos. En relación al análisis comparativo se observó que el valor de la media del IMC, consumo medio de café/te, consumo de alcohol y el porcentaje de pacientes que realizaba ejercicio de forma habitual era inferior entre los pacientes con AR en relación a los controles; En los pacientes con Aps y LES el porcentaje de pacientes que realizaban una actividad física, consumo de café/te, consumo de alcohol fue inferior de forma estadísticamente significativa en relación al grupo control. CONCLUSIONES: El presente estudio ha permitido describir las características epidemiológicas de una gran cohorte de pacientes con AR, Aps y LES representativa de la población española. Se han estudiado un elevado número de variables epidemiológicas, algunas de ellas no reportadas previamente en la literatura.

Emotional Intelligence Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. Working with Emotional Intelligence Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such as IQ or technical expertise in this inspiring sequel.

Coral Glynn La estética antigua

Para los antiguos griegos, el descubrimiento de la belleza coincidió con la intuición del universo. El mundo se mostró, ante sus ojos sorprendidos, en todo el esplendor de un kósmos, es decir, de un "orden bello", un sistema coherente de partes organizadas según un criterio teleológico, capaz de suscitar un sentimiento de admiración y de emulación al mismo tiempo; ese sentimiento que, como dirá posteriormente Aristóteles, da origen a la filosofía. La estética antigua creó los principales conceptos y abordó los problemas fundamentales que posteriormente nos permitieron comprender la imagen artística y poética, nuestra contemplación de la naturaleza, los afectos y las experiencias. Lombardo se ocupa de los autores que pusieron en pie el pensamiento estético: Platón, Aristóteles, los autores del período helenístico, Horacio, el Pseudo Longino y Plotino. Su claridad y su rigor son excepcionales, rasgos que permiten hablar de una obra imprescindible para el análisis de las cuestiones estudiadas: la mimesis y la belleza, la condición de la poesía, la índole de lo sublime, la idealidad de Lo Bello absoluto.
