The Elements of Style William Strunk
 concentrated on specific questions of
 usage—and the cultivation of good
 writing—with the recommendation "Make
 every word tell"; hence the 17th principle
 of composition is the simple instruction:
 "Omit needless words." The book was also
 listed as one of the 100 best and most
 influential books written in English since
 1923 by Time in its 2011 list.

 Fourth Genre offers the most
 comprehensive, teachable, and current
 introduction available today to the cutting-
 edge, evolving genre of creative
 nonfiction. While acknowledging the
 literary impulse of nonfiction to be a fourth

genre equivalent to poetry, fiction, and drama, this text focuses on subgenres of the nonfiction form, including memoir, nature writing, personal essays, literary journalism, cultural criticism, and travel writing. This anthology was the first to draw on the common ground of the practicing writer and the practical scholar and to make the pedagogical connections between creative writing practice and composition theory, bridging some of the gaps between the teaching of composition, creative writing, and literature in English departments.

Tik-Tok of Oz is the eighth Land of Oz book written by L. Frank Baum, published on June 19, 1914. The book actually has little to do with Tik-Tok and is primarily the quest of the Shaggy Man (introduced in *The Road to Oz*) to rescue his brother, and his resulting conflict with the Nome King. *Sixth course* Good Press

Gaby LeFevre is a suburban, Midwestern firecracker, growing up in the 80s and 90s and saving the world one homeless person, centenarian, and orphan at a time. With her crew of twin sister, Annie, smitten Mikhail, and frenemy Mel, she's a pamphlet-wielding humanitarian, tackling a broken world full of heroes and heroines, villains and magical seeds, and Northwyth stories. Beginning with a roadkill-burying nine-year-old and a gas-leak explosion, it follows Gaby as she traverses childhood and young adulthood with characteristic intensity and a penchant for disaster. Meanwhile, the large cast of compelling characters entertains and the Northwyth legends draw you into their magic.

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Was it his willingness to always try to do the right thing that has him staring at the barrel of a gun? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to change. Ruben made a choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. Being married doesn't keep her from wanting to pursue Ruben as well as being pursued by him. Getting involved with Bianca changes Ruben's life in ways he never could have imagined. Choices are a gift constantly given to everyone. The choices made lead to different paths. We all have to choose this day what we're going to do with our own lives not knowing what the end result will be. What kind of impact will Ruben's choices have on his life?

Living Beyond the Waves is a poetry collection unlike any other It contains poems that are part memoir and part

journey towards acceptance. They are Wolf's attempt to find a life beyond disease or disability. The poems contained within deal with Wolf accepting all part of himself, even those he has no control over. They are a testament to the strength of the human spirit. The poems show us that whatever life throws at us, with courage anything is possible. With unflinching honesty, Wolf talks about disease, sexuality, physical disability and the healing power of love.

After his almost fatal experience on the exoplanet Erid-34, Dr. Neil Jackson wakes up out of a 10-year coma and finds himself in a strange room on Earth. He has very little memory of what happened to him on Erid-34, but he desperately wants to remember. The doctor overseeing his condition, Dr. Sigmund Kline, tries to help him fill in those blanks in his memory. But when NASA officials demand a conference with Neil at NASA Headquarters in Washington D.C., things take a turn for the worst. This sets Neil out on an adventure where he must discover the truth about what happened to him. It is a truth he could have never foreseen.

The Convert is about the British Suffrage movement, which the author knew well. Part witty and scathing commentary on the upper classes, part political rhetoric quoted directly from open-air meetings, and part muck-raking realism, it moves back and forth between the personal and the political until the two can no longer be distinguished. *The Convert* uses as its frame the political "conversion" of Vida Levering, a beautiful, upper middle-class woman. We follow Vida's growing discontent with "country weekend" society and her increasing awareness of the common lot of women. Forthright and direct, Elizabeth Robins discusses issues that must have been shocking in 1907: unwed motherhood, the effects of the inequality of women, and the essential disrespect that underlies chivalry. Reminiscent of Jane Austen and foreshadowing the work of Virginia Woolf, *The Convert* is a fascinating novel. It provides us with a sense of history and a feeling of pride in what women could and

did accomplish. It is also disturbing because far too many of the issues are still relevant.

LITERARY ANNUAL

This was one of the 6 science fiction stories published in the first issue (April 1926) of the first magazine devoted to science fiction, *Amazing Stories*, edited and published by Hugo Gernsback, now considered to be the father of the science fiction genre. He described this story in an inset panel: "In 'Alice in the Looking Glass',

the beautiful play of fancy which gave immortal fame to a logician and mathematician, we read of the mysterious change in size of the heroine, the charming little Alice. It tells how she grew large and small according to what she ate. But here we have increase in size pushed to its utmost limit. Here we have treated the growth of a man to cosmic dimensions. And we are told of his strange sensation and are led up to a sudden startling and impressive conclusion, and are taken through the picture of his emotions and despair." The reader with even the most basic knowledge of science will find this story flawed, incredible, perhaps ludicrous. But, after all, it's fiction, more fantasy than science. Suspend your disbelief and let the story carry you where it will, across space and time, to love.
