For CS1 courses in Python Programming (including majors and non-majors). A problem-solving approach to programming with Python. The Practice of Computing Using Python introduces CS1 students (majors and non-majors) to computational thinking using Python. With data-manipulation as a theme, students quickly see the value in what they're learning and leave the course with a set of immediately useful computational skills that can be applied to problems they encounter in future pursuits. The book takes an "object-use-first" approach-writing classes is covered only after students have mastered using objects. This edition is available with MyProgrammingLab, an innovative online homework and assessment tool. Through the power of practice and immediate personalized feedback, MyProgrammingLab helps

students fully grasp the logic, semantics, and syntax of programming. Note: If you are purchasing the standalone text or electronic version, MyProgrammingLab does not come automatically packaged with the text. To purchase MyProgrammingLab, please visit: myprogramminglab.com or you can purchase a package of the physical text + MyProgrammingLab by searching for ISBN 10: 0132992833 / ISBN 13: 9780132992831. MyProgrammingLab is not a self-paced technology and should only be purchased when required by an instructor

Level up your programming skills by understanding how Kotlin's data structure works Disha Publications

WANT A NON-CODING JOB AT A TECH COMPANY? Interested in product management, marketing, strategy, or business development? The tech industry is the place to be: nontechnical employees at tech companies outnumber their engineering counterparts almost 3 to 1 (Forbes, 2017). You might be worried that your lack of coding skills or tech industry knowledge will hold you back. But here's the secret: you don't need to learn how to

code to break into the tech industry. Written by three former Microsoft PMs, *Swipe to Unlock* gives you a breakdown of the concepts you need to know to crush your interviews, like software development, big data, and internet security. We'll explain how Google's ad targeting algorithm works, but Google probably won't ask you how to explain it in a non-technical interview. But they might ask you how you could increase ad revenue from a particular market segment. And if you know how Google's ad platform works, you'll be in a far stronger position to come up with good growth strategies. We'll show you how Robinhood, an app that lets you trade stocks without commission, makes money by earning interest on the unspent money that users keep in their accounts. No one will ask you to explain this. But if someone asks you to come up with a new monetization strategy for Venmo (which lets you send and receive money without fees), you could pull out the Robinhood anecdote to propose that Venmo earn interest off the money sitting in users' accounts. We'll talk about some business cases like why Microsoft acquired LinkedIn. Microsoft interviewers probably won't ask you about the motive of the purchase, but they might ask you for ideas to improve Microsoft Outlook. From our case study, you'll learn how the Microsoft and LinkedIn ecosystems could work together, which can help you craft creative, impactful answers. You could propose that Outlook use LinkedIn's social graph to give salespeople insights about clients before meeting them. Or you could suggest linking Outlook's organizational tree to LinkedIn to let HR managers analyze their company's hierarchy and figure out what kind of talent they need to add. (We'll further explore both ideas in the book.) Either way, you're sure to impress. Learn the must know concepts of tech from authors who have received job offers for Facebook's Rotational Product Manager, Google's Associate Product Marketing Manager, and Microsoft's Program Manager to get a competitive edge at your interviews!

Travelling at Home William Collins

Data structures and algorithms help you to understand computational complexity and write efficient code. Kotlin data structures and algorithms enable you to write code that runs faster which is important in the web and mobile world. This book takes you through the techniques that you can use in your regular production environment.

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

The Narrative of Arthur Gordon Pym of Nantucket Pearson Higher Ed

What does it take to successfully launch and scale a startup in Asia? While much of modern business literature covers Silicon Valley and its founders, building a company in Asia—a world

center of technology and innovation—is a vastly different journey, and not nearly as widely covered. This book aims to change that. *Asian Founders at Work* is an essential compilation of in-depth, incisive interviews with over 20 top technopreneurs from the region. Authors Ezra Ferraz and Gracy Fernandez have gathered their exclusive conversations with business leaders: Min-Liang Tan (Razer), Maria Ressa (Rappler), Chatri Sityodtong (ONE Championship), Patrick Grove (iflix), and Khailee Ng (500 Startups) are just a few. Questions about early difficulties, fundraising, business pivots, strategic partnerships, exits via acquisition or IPO, and more are answered in great detail to shine a light on the founders' unique experiences. Learn directly from game-changers in their own voice. By documenting these stories, the authors have created the largest and most comprehensive record of successes to date. Whether you are an aspiring entrepreneur yourself, a business student wanting to become well-versed in international practices, or an owner looking to expand to the area, this book provides a thorough guide to the startup culture in Asia from the most knowledgeable sources possible. What You Will Learn Gain business knowledge of practices that are localized to Asia Become familiar with essential startup topics, including product development, user acquisition, recruiting, and fundraising Study individual companies and founders, and an overview of startup culture Who This Book Is For Those in the tech ecosystem in East, Southeast, and South Asia, including aspiring founders or current founders who have started their entrepreneurial journey. This book is also for people outside of Asia who have an interest in the region. Entrepreneurs or businesspeople can refer to this book as they consider expansion into the area. Researchers and readers can pick up this book if they are curious about the business landscape of Asia and want to hear directly from game-changing founders.

365 Daily Devotions by Teen Girls for Teen Girls Disha Publications

A New York Times, USA Today, and Wall Street Journal bestseller In this iconic bestseller, popular business blogger and bestselling author Seth Godin proves that winners are really just the best quitters. Godin shows that winners quit fast, quit often, and quit without guilt—until they commit to beating the right Dip. Every new project (or job, or hobby, or company) starts out fun...then gets really hard, and not much fun at all. You might be in a Dip—a temporary setback that will get better if you keep pushing. But maybe it's really a Cul-de-Sac—a total dead end. What really sets superstars apart is the ability to tell the two apart. Winners seek out the Dip. They realize that the bigger the barrier, the bigger the reward for getting past it. If you can beat the Dip to be the best, you'll earn profits, glory, and long-term security. Whether you're an intern or a CEO, this fun little book will help you figure out if you're in a Dip that's worthy of your time, effort, and talents. The old saying is wrong—winners do quit, and quitters do win.

Swipe to Unlock Away Publications

Follows the story of Arthur Gordon Pym, who stows away on the whaling ship, *Grampus*. Unfortunately for him he finds himself stuck in an adventure that includes mutiny, butchery, and cannibalism, premature burial, a ghost ship, gigantic polar bears, and uncharted islands peopled by barbarian hordes. That'll teach him not to try and get a free ride in the future. If he has one.

Forever Young, Forever Healthy Certybox Education General Knowledge & Awareness 2018 for RRB Railway Recruitment Exams (NTPC/ ALP/ ASM/ Technical) is the one step solution for General Knowledge & Awareness for the Railway exams aspirants. Fintech is challenging banks and squeezing all our financial transactions onto a mobile screen! Should we be worried? We make payments via PayPal or Paytm, shop on Amazon or Flipkart, book accommodation on Airbnb or Oyo and call a cab using Uber or Ola apps. The big tech companies are taking care of all our finances virtually while new technologies such as artificial intelligence (AI), internet of things (IoT), blockchain, big data, 5G and quantum computing promise to raise a new storm in the future of finance. Fintech Future is the story of technology disrupting finance—from coin to bitcoin, banknote to cloud and stodgy old banks to AI—viewed from the perspective of whether it helps make the world a better place.

Asian Founders at Work KHANNA PUBLISHING HOUSE

NEW YORK TIMES, USA TODAY, and PUBLISHERS WEEKLY BESTSELLER "Full of valuable insights to guide you."—WILL SMITH "Thoughtful and life-affirming . . . a must-read."—TONY ROBBINS "This book will put you back in charge of your own

life.”—TOM BRADY A new perspective on the overused and misunderstood concept of “karma” that offers the key to happiness and enlightenment, from the world-renowned spiritual master Sadhguru. What is karma? Most people understand karma as a balance sheet of good and bad deeds, virtues and sins. The mechanism that decrees that we cannot evade the consequences of our own actions. In reality, karma has nothing to do with reward and punishment. Karma simply means action: your action, your responsibility. It isn't some external system of crime and punishment, but an internal cycle generated by you.

Accumulation of karma is determined only by your intention and the way you respond to what is happening to you. Over time, it's possible to become ensnared by your own unconscious patterns of behavior. In Karma, Sadhguru seeks to put you back in the driver's seat, turning you from a terror-struck passenger to a confident driver navigating the course of your own destiny. By living consciously and fully inhabiting each moment, you can free yourself from the cycle. Karma is an exploration and a manual, restoring our understanding of karma to its original potential for freedom and empowerment instead of a source of entanglement. Through Sadhguru's teachings, you will learn how to live intelligently and joyfully in a challenging world.

The Thing Beneath the Bed Disha Publications

Book Type - Practice Sets / Solved Papers About Exam: The State Bank of India (SBI) conducts PO Recruitment in a 3 stage process i.e Prelims, Mains, and interviews. The prelims stage is merely for shortlisting candidates for the mains exam and the merit list will depend on the score in the mains and interview stages. So, candidates must focus on the mains exam preparation as this is where their fate will be sealed. Again candidates must also focus

on group exercise activities and interview skills after the SBI PO Main exam is over as they have sufficient time after the exam and they can improve their final rank by a small effort in this stage of the exam. The Descriptive Test will be conducted right after the completion of the Objective Test on the same day. Candidates should type descriptive answers on the computer. The Objective Test has separate timings for every section. SBI PO Descriptive Test section tests your English writing skills as it contains two questions - Letter Writing and Essay for a total of 50 marks. The duration of the Descriptive Test is 30 minutes.

Subjects Covered- Reasoning & Computer Aptitude, Data Analysis & Interpretation, General/ Economy/ Banking Awareness, English Language Exam Patterns - SBI PO Mains has two parts - Objective and Descriptive. The Objective Test is of 200 marks and the Descriptive section carries 50 marks. The SBI PO Mains Objective Test is of 3 hours duration and consists of 4 sections carrying a total of 200 marks Negative Marking - 0.25 Conducting Body- State Bank of India(SBI)
