Best beginner DSLR cameras 2020: the 10 finest DSLRs for ... Buy a DSLR camera if: Professionalism is what you want from your photos. See our DSLR camera reviews if you're looking for first-class image quality. If you're interested in finding more out about how they compare with mirrorless cameras, read our guide on the differences between the two. What makes a good digital camera? Which Type Of Digital Camera Should You Choose? - Which? Sensor Size - DSLR cameras typically use one of two sensor sizes, APS-C or Full Frame. The more common APS-C size are smaller than 35mm film, which results in images which appear to have been taken with a longer focal length (typically 1.5 or 1.6x longer). This means that telephoto lenses appear to have more reach, a welcome bonus. DSLR Camera Guide | Blog | Park Cameras DSLR Buying Guide - DSLR cameras are ideal for photographers who require the best possible image quality and performance, as well as total creative control. DSLR cameras offer the ultimate flexibility of interchangeable lenses, flashguns and accessories, so you aren't limited to a single photographic genre - instead your creative options are limitless. DSLR Buying Guide - Jessops - Digital Cameras DSLR vs. mirrorless cameras. Most DSLR cameras take photos the same way. Light enters through the lens and bounces off a mirror to travel through a prism before ending up at the viewfinder. When you press the shutter button, the mirror flips up, allowing light to hit the camera's image sensor which creates the photo.
