Geography Flashcards

... Between Mackinder

And Spykman

Geopolitics

(from Greek γῆ gê

"earth, land" and

πολιτική politiké

"politics") is the study

of the effects of Earth's

geography (human and

physical) on politics

and international

relations. While geopolitics usually refers to countries and relations between them, it may also focus on two other kinds of states: de facto independent states with limited international recognition and ...Geopolitics - WikipediaNicholas John Spykman (pronounced "Speak-man", 13 October 1893 – 26 June 1943) was an American political scientist who was one of the founders of the classical realist school

in American foreign policy, transmitting Eastern European political thought to the United States. A Sterling Professor of International Relations, teaching as part of the Institute for International Studies at Yale ...Nicholas J. Spykman - WikipediaGeopolitics, analysis of the geographic influences on power relationships in international relations.The word geopolitics was originally coined by the Swedish political scientist Rudolf Kjellén about the turn of the 20th century, and its use spread throughout Europe in the period between World Wars I and II (1918–39) and came into worldwide use during the latter.Geopolitics | political science |
