A schoolteacher still reeling from the tragedies of the Great War

and the influenza epidemic travels to the Middle East in this memorable and passionate novel "Marvelous . . . a stirring story of personal awakening set against the background of a crucial moment in modern history."—The Washington Post Agnes Shanklin, a forty-year-old schoolteacher from Ohio, has come into a modest inheritance that allows her to take the trip of a lifetime to Egypt and the Holy Land. Arriving at the Semiramis Hotel just as the 1921 Cairo Peace Conference convenes, she is freed for the first time from her mother's withering influence and finds herself being wooed by a handsome, mysterious German. At the same time, Agnes—with her plainspoken American opinions—is drawn into the company of Winston Churchill, T. E. Lawrence, and Lady Gertrude Bell, who will, in the space of a few days, redraw the world map to create the modern Middle East. As they change history, Agnes too will find her own life transformed forever. With prose as graceful and effortless as a seductive float down the Nile, Mary Doria Russell illuminates the long, rich history of the Middle East with a story that brilliantly elucidates today's headlines.

Physics on Your Feet (2nd Edition) is a significantly expanded collection of physics problems covering the broad range of topics in classical and modern physics that were, or could have been, asked at oral PhD exams at University of California at Berkeley. The questions are easy to formulate, but some of them can only be answered using an outside-of-the box approach. Detailed solutions are provided, from which the reader is guaranteed to learn a lot about the physicists' way of thinking. The book is also packed full of cartoons and dry humor to help take the edge off the stress and anxiety surrounding exams. This is a helpful guide for students preparing for their exams, as well as a resource for university lecturers looking for good instructive problems. No exams are necessary to enjoy the book!

A sweet and funny ownvoices LGBTQ+ romance perfect for fans of Becky Albertalli and Julie Murphy, from the critically acclaimed author of *Georgia Peaches and Other Forbidden Fruit!* Piper Kitts is spending the summer living with her grandmother, training at the barn of a former Olympic horseback rider, and trying to get over her ex-girlfriend. Much to Piper's dismay, her grandmother is

making her face her fear of driving by taking lessons from a girl in town. Kat Pearson has always suspected that she likes girls but fears her North Carolina town is too small to color outside the lines. But when Piper's grandmother hires Kat to give her driving lessons, everything changes. Piper's not sure if she's ready to let go of her ex. Kat's navigating uncharted territory with her new crush. With the summer running out, will they be able to unlock a future together? "Piper and Kat are imperfect, but always trying their best—aren't we all?—and Brown had me rooting for them all the way through this sweet, slow burn romance. Their triumphs, their blunders, and the way they swing between confidence and self-doubt are utterly relatable."—Misa Sigura, award-winning author of *It's Not Like It's a Secret* Financial Statement Analysis & Valuation She Writes Press Comprehensive and truly accessible, Technical Communication guides students through planning, drafting, and designing the documents that will matter in their professional lives. Le Prix d'Amour, a vibrant Paris cabaret, is caught in the crossfire of the occupation. Everyone is being watched, and some of *Le Prix's* colourful performers are hiding dangerous secrets. Monsieur Maurice manages *Le Prix d'Amour*, a successful Parisian cabaret, which boasts glitzy performers and sassy showgirls. But with the German occupation in June 1940, Maurice treads a fine line between his German patrons, the French police and the Gestapo as he hides the dark secrets of his performers. Two of his lively showgirls, Lily and Poppy, soon join Maurice in the hunt for an informer who threatens to betray them. With the Allied landings, the tension builds and Maurice is pushed to his limits as his performers finally take the fight to the invader in their own flamboyant way. *Secrets and Showgirls* portrays an occupied Paris in which exotic cabarets existed uneasily under the heel of the invader. It follows the antics of Maurice, Lily and a glittering array of characters, but never loses sight of the battle to survive that characterised the life of the everyday Parisian.

In the sweeping, poignant sequel to *The Vintner's Daughter*, the Lemieux family's ambition to establish an American winemaking dynasty takes Sara and Philippe from pastoral Napa to the Paris World's Fair and into the colorful heart of early 20th-century San Francisco. It is 1897, and Sara and Philippe Lemieux, newly married and full of hope for the future, are determined to make Eagle's Run, their Napa vineyard, into a world-renowned winemaking operation. But the swift arrival of the 20th century brings a host of obstacles they never dreamed of: price wars and the twin threats of phylloxera and Prohibition endanger the success of their business, and the fiercely independent Sara is reluctant to leave the fields behind for the new and strange role of wife and mother. An invitation to the World's Fair in 1900 comes just in time to revive the vineyard's prospects, and amid

the jewel-colored wonders of Belle Époque Paris, Sara and Philippe's passion is rekindled as well. But then family tragedy strikes, and, upon their return to California, a secret from Philippe's past threatens to derail their hard-won happiness in one stroke. Sara gains an ally when Marie Chevreau, her dear friend, arrives in San Francisco as the first female surgery student to be admitted to prestigious Cooper Medical College. Through Marie, Sara gets a glimpse of the glittering world of San Francisco's high society, and she also forges friendships with local women's rights advocates, inciting new tensions in her marriage. Philippe issues Sara an ultimatum: will she abandon the struggle for freedom to protect her family's winemaking business, or will she ignore Philippe and campaign for a woman's right to vote and earn a fair wage? Fate has other plans in store in the spring of 1906, which brings with it a challenge unlike any other that the Lemieux family or their fellow Northern Californians have ever faced. Will the shadow of history overwhelm Sara and Philippe's future, despite their love for each other? In *The California Wife*, Kristen Harnisch delivers a rich, romantic tale of wine, love, new beginnings, and a family's determination to fight for what really matters—sure to captivate fans of *The Vintner's Daughter* and new readers alike.

The Incendium Plot Wit Pr/Computational Mechanics

They are lovers on opposite sides of a brutal war, with everything at stake and no possibility of retreat. They can trust no one—especially not each other. Major Lord Peter Tremayne is the last man rebel bluestocking Kate Grey should fall in love with, but when the handsome British viscount commandeers her home, Kate throws caution to the wind and responds to his seduction. She is on the verge of surrender when a spy in her own household seizes the opportunity to steal the military dispatches Tremayne carries, ensuring his disgrace—and implicating Kate in high treason. Painfully awakened to the risks of war, Kate determines to put duty ahead of desire, and offers General Washington her services as an undercover agent in the City of Brotherly Love. Months later, having narrowly escaped court martial and hanging, Tremayne returns to decadent, British-occupied Philadelphia with no stomach for his current assignment—to capture the woman he believes betrayed him. Nor does he relish the glittering entertainments being held for General Howe's idle officers. Worse, the glamorous woman in the midst of this social whirl, the fiancée of his own dissolute cousin, is none other than Kate Grey

herself. And so begins their dangerous dance, between passion and patriotism, between certain death and the promise of a brave new future together. READERS GUIDE INCLUDED

'A fantastic tale of spies, deceit and murder in the Elizabethan age' S. D. Sykes 'Colourful and gripping' *The Times* England in 1572 is a powder keg of rumour, fanaticism, treachery and dissent. All it would take is a single spark . . . In the England of Elizabeth I, the fear of plague and invasion, and the threat of insurrection are constant. As the Earl of Leicester's chief intelligencer, lawyer Dr Christopher Radcliff is tasked with investigating rumours of treachery at home and the papist threat from abroad. And with heresy and religious unrest simmering beneath the surface of a country on the brink, Radcliff is under pressure to get results. Then two brutal and seemingly motiveless killings point alert Radcliff to the whisper of a new plot against the queen. There are few clues, and all he and his network of agents have to go on is a single word: incendium. But what does it mean - and who lies behind it? Christopher Radcliff must find out before it's too late . . . What readers are saying: ***** 'A fantastic and gripping tale of treachery, betrayal and intrigue' ***** 'Perfectly combines history and fiction . . . together they paint such a

'I've waited for this moment so long, dreamed of it, prepared for it, I can barely believe it's finally here. But it is. And it is nothing like I expected.' There was a short time in Australia's European history when two women wielded extraordinary power and influence behind the scenes of the fledgling colony. One was Elizabeth Macquarie, the wife of the new governor Lachlan Macquarie, nudging him towards social reform and magnificent buildings and town planning. The other was Elizabeth Macarthur, credited with creating Australia's wool industry and married to John Macarthur, a dangerous enemy of the establishment. These women came from strikingly different backgrounds with husbands who held sharply conflicting views. They should have been bitter foes. Elizabeth & Elizabeth is about two courageous women thrown together in impossible times. Borne out of an overriding admiration for the women of early colonial Australian history, Sue Williams has written a novel of enduring fascination. 'An extraordinary story of female leadership at a time when such a quality was frowned on, and female friendship forged against the odds. Sue Williams' Elizabeth & Elizabeth brings us a nuanced and vivid portrait of the early days of colonisation. More importantly, it delivers a fascinating look into the relationship between two remarkable women.' - Meg Keneally, bestselling author of *The Wreck* 'A fascinating and evocative story of an enduring friendship between two women who played such an important role in colonial Australia's history.' - Caroline Beecham, author of *Finding Eadie*

Humans are part of an ecosystem, and understanding our relationship with the environment and with other organisms is a prerequisite to living together sustainably. Zoonotic diseases, which are spread between animals and humans, are an important issue as they reflect our relationship with other animals in a common environment. Zoonoses are still presented with high occurrence rates, especially in rural communities, with direct and indirect consequences for people. In several cases, zoonosis could cause severe clinical manifestations and is difficult to control and treat. Moreover, the persistent use of drugs for infection control enhances the potential of drug resistance and impacts on ecosystem balance and food production. This book demonstrates the importance of understanding zoonosis in terms of how it allows ecosystems to transform, adapt, and evolve.

Ecohealth/One Health approaches recognize the interconnections among people, other organisms, and their shared developing environment. Moreover, these holistic approaches encourage stakeholders of various disciplines to collaborate in order to solve problems related to zoonosis. The reality of climate change necessitates considering new variables in studying diseases, particularly to predict how these changes in the ecosystems can affect human health and how to recognize the boundaries between medicine, veterinary care, and environmental and social changes towards healthy and sustainable development.

This book highlights the significance of using sustainable energy to prevent the deterioration of our planet using heat pumps.

Energy sustainability can be achieved through improved energy efficiency. In this regard, heat pumps offer an energy-efficient alternative for heating and cooling. To drive the adoption of heat pumps as a key component of sustainable buildings, the authors focus on examining sustainable practices in heat pump operations and innovative system design. In view of the growing desire to use sustainable energy to meet heating and cooling demands and improve indoor air quality, this book offers a valuable reference guide to the available options in HVAC (heating, ventilation, and air-conditioning) system design. To begin with, the authors define sustainable energy and discuss the trend of "thinking green" in building design. They then discuss sustainable practices and heat pump applications in mapping out HVAC systems. In turn, they examine the use of green operations to promote sustainable practices and, in order to highlight the importance of innovative design, discuss the configuration options and precision control aspects. In closing, the authors illustrate innovative sustainable design on the basis of several energy-efficient cases. The book's main goal is to drive the adoption of sustainable energy solutions. Heat pumps, it argues, represent the most efficient system for meeting commercial/recreational/residential heating and cooling demands. The book not only examines industrial practices in heat pump application, but also discusses advanced heat pump technologies and innovative heat pump designs.

IF YOU DON'T KNOW SIMON SCARROW, YOU DON'T KNOW ROME! THE LEGION is the action-packed tenth novel in Simon Scarrow's bestselling *Eagles of the Empire* series. Perfect for fans of Bernard Cornwell and Conn Iggulden. 'Scarrow's [novels] rank with the best' Independent Egypt, AD 49. Cato, one of the youngest Prefects of the Roman army, and Centurion Macro have a tough posting: to track down and destroy a gang of former gladiators who have turned to piracy. Driven by vengeance, these hardened brutes have been defiling temples, sinking Roman ships, and slaughtering men, women and children. What's worse is that they are doing it all under the name of Macro and Cato, in an attempt to stir up a rebellion against the occupying forces. And it's working. If Macro and Cato don't stop the pirates in time, it could be the beginning of the end for the Roman Empire...
