“[Jack London was] a great gobbler-up of the world, physically and intellectually, the kind of writer who went to a place and wrote his dreams into it, the kind of writer who found an Idea and spun his psyche around it.”—E.L. Doctorow
Martin Eden (1909) is a novel by American writer Jack London. The book follows the tradition of the *Künstlerroman*, a narrative that traces the life and development of an artist, to tell the story of a young man not unlike London himself. Part fiction, part autobiography, Martin Eden examines the consequences of dreams and

achievements, successes and failures, for a young artist struggling with fame. The novel is heavily influenced by London’s socialist values, and dissects the interwoven nature of class and the arts while critiquing the individualist mentality promoted by such figures as Nietzsche. The young Martin Eden lives in Oakland where he struggles to rise above the circumstances of his birth. Despite his impoverished background, he has hopes of becoming a successful writer, and has spent years educating himself toward that goal. A dreamer, Eden is also driven to marry Ruth Morse, a woman he loves despite their vastly different

lives—he is a sailor, she comes from a bourgeois family. It soon becomes clear that his intentions to write and to marry are entirely intertwined. When he finds success, however, breaking through with publishers and with the elite literati of Oakland, he finds that Ruth's love is far from guaranteed, and that dreams rarely come to fruition. Martin Eden is a story of the American ideal, of class and identity, and of one man determined to make it, whatever the cost. With a beautifully designed cover and professionally typeset manuscript, this edition of Jack London's Martin Eden is a classic of American literature reimagined for modern readers.

THE DIFFERENCE

Simon and Schuster
From one of our most critically acclaimed and beloved storytellers comes a sweeping novel set on board the Morning Light, a Nova Scotian merchant ship sailing through the south pacific in 1912. Kay and Thea are half-sisters, separated in age by almost twenty years, but deeply

attached. When their stern father dies, Thea returns to Nova Scotia for her long-promised marriage to the captain of the Morning Light. But she cannot abandon her orphaned young sister, so Kay too embarks on a life-changing voyage to the other side of the world. At the heart of *The Difference* is a crystallizing moment in Micronesia: Thea, still mourning a miscarriage, forms a bond with a young boy from a remote island and takes him on board as her own son. Over time, the repercussions of this act force Kay, who considers the boy her brother, to examine her own assumptions-- which are increasingly at odds with those of society around her-- about what is

forgivable and what is right. Inspired by a true story, Endicott shows us a now-vanished world in all its wonder, and in its darkness, prejudice and difficulty, too. She also brilliantly illuminates our present time through Kay's examination of the idea of "difference"-- between people, classes, continents, cultures, customs and species. *The Difference* is a breathtaking novel by a writer with an astonishing ability to bring past worlds vividly to life while revealing the moral complexity of our own. The bold futurist and bestselling author of *The Singularity is Nearer* explores the limitless potential of reverse-engineering the human brain Ray Kurzweil is arguably today’s most influential—and often controversial—futurist. In *How to Create a Mind*, Kurzweil presents a provocative exploration of the most important project in human-machine civilization—reverse engineering the brain to understand precisely how it works and using that knowledge to create even more intelligent machines. Kurzweil discusses how the brain functions, how the mind emerges from the brain, and the

implications of vastly increasing the powers of our intelligence in addressing the world's problems. He thoughtfully examines emotional and moral intelligence and the origins of consciousness and envisions the radical possibilities of our merging with the intelligent technology we are creating. Certain to be one of the most widely discussed and debated science books of the year, *How to Create a Mind* is sure to take its place alongside Kurzweil's previous classics which include *Fantastic Voyage: Live Long Enough to Live Forever* and *The Age of Spiritual Machines*. Heckedy Peg Tor Books AT SEA is a collection that - at times introspective and confessional, at times perceptively aimed outward, toward a vertiginous world - sails the pathway between trauma and healing. Readers are taken aboard into a microcosm where wonder meets waterlogged torment and self-harm; where

grief, euphoria and longing coexist; where womanhood is as joyful and dizzying an experience as it is searing; where peeling the layers of cultural identity is like plunging into the most opaque and briny deep. While the act of remembering has solitary, melancholy tinges, Aïcha Martine Thiam's pen never wavers, nor does it stray far from the impulse to bear witness, to do justice, and to connect with kindred souls. PRAISE FOR AT SEA "AT SEA is Aïcha Martine Thiam's sublime siren's song of the emerging self. The verse drifts dexterously from treading water, "a fish in your sea" to the triumphant thrash of the "pirate mermaid" who navigates and narrates her own

divine depths." -Kristin Garth, author of *Girlarium* and Editor-in-Chief of *Pink Plastic House* "A heartfelt, humorous, open-ended discussion about what it means to be a Black woman in the world today. I felt so seen within the pages of *AT SEA*, that I oftentimes had to look through the pages to see if Thiam had dedicated this book to me. Wonderful. Just wonderful." - Katherine D. Morgan, Assistant Features Editor for *The Rumpus* and author of *No Self-Respecting Woman* "Aïcha Martine rejects the cultural expectations that dictate what her story as a Black girl should be. In *AT SEA*, she tells her own coming-of-age story, unraveling trauma and exploring healing with all their

nuance and complexity. AT SEA grapples with grief, disillusionment, and being forced to grow up too quickly and reaches for moments of childlike wonder. Aïcha Martine creates her own mythology complete with Bluebeard and mermaids and sailors. She fluidly slips between poetry and prose as she rewrites her story, imagining all the ways it could be. You can hear the rhythm and musicality of her poetry as lines echo into refrains, as she returns to a familiar line, only to twist it and imbue it with new meaning. Aïcha Martine finds liberty in her voice in AT SEA." -Carolina VonKampen, Publisher and Editor in Chief of Capsule Stories

"Dizzying, perplexing, delightful lines, brimming with glimpses from a nimble mind. I can't read these poems quickly. Can I take my time? I love, and I understand, how this poet leaps at us, arms wide ("Always, I get operatic."), and then retreats, self-doubting ("How can I trust the triteness of my senses?"). She's like your smartest, funniest, oddest friend, the one you always want more of, the one whose place you long to visit (too often? You'll bring wine), and sigh into her couch and ask her, again, "Will you show me what you're writing?" -Ellen Parker, founder and Editor-in-Chief of FRiGG: A Magazine of Fiction and Poetry

'A thrilling historical novel.' David Nicholls 'In this gripping tale of true feminine courage, strength and spirit of adventure, Nikki Marmery gives voice to a woman who, like so many others, has been written out of history.' Martine McDonagh 'On Wilder Seas is a gripping adventure story of an extraordinary journey half way around the world by a woman who was almost completely written out of history. Nikki Marmery brings Macaia (Maria) vividly to life along with a tremendous crew of compelling and believable characters, including Drake himself.' Mandy Haggith 'This is a lively, spirited account of the epic voyage made by Maria, a woman who was a mysterious

passenger on Francis Drake's Golden Hind...thoroughly researched and vividly written, with a host of colourful characters. The brutality, horror and discomfort of life on board a 16th century galleon and the wonders and dangers that the crew experiences are skilfully evoked. 'Sally O'Reilly April 1579: When two ships meet off the Pacific coast of New Spain, an enslaved woman seizes the chance to escape. But Maria has unwittingly joined Francis Drake's circumnavigation voyage as he sets sail on a secret detour into the far north. Sailing into the unknown on the Golden Hind, a lone woman among eighty men, Maria will be tested to the very

limits of her endurance. It will take all her wits to survive – and courage to cut the ties that bind her to Drake to pursue her own journey. How far will Maria go to be truly free? Inspired by a true story, this is the tale of one woman's uncharted voyage to freedom.

DEBBIE LEARNS TO COOK

Houghton Mifflin Harcourt
The story of an uncovered voyage as colorful and momentous as any on record for the Age of Discovery--and of the Black mariner whose stunning accomplishment has been until now lost to history. It began with a secret mission, no expenses spared. Spain, plotting to break

Portugal's monopoly trade with the fabled Orient, set sail from a hidden Mexican port to cross the Pacific--and then, critically, to attempt the never-before-accomplished return, the *vuelta*. Four ships set out from Navidad, each one carrying a dream team of navigators. The smallest ship, guided by seaman Lope Martín, a mulatto who had risen through the ranks to become one of the most qualified pilots of the era, soon pulled far ahead and became mysteriously lost from the fleet. It was the beginning of a voyage of epic scope, featuring mutiny, murderous encounters with Pacific islanders,

astonishing physical hardships--and at last a triumphant return to the New World. But the pilot of the fleet's flagship, the Augustine friar mariner Andrés de Urdaneta, later caught up with Martín to achieve the *vuelta* as well. It was he who now basked in glory, while Lope Martín was secretly sentenced to be hanged by the Spanish crown as repayment for his services. Acclaimed historian Andrés Reséndez, through brilliant scholarship and riveting storytelling--including an astonishing outcome for the resilient Lope Martín--sets the record straight.
