With tender prices rising slightly, looking at price lists is not enough - you need SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2011 to get a competitive edge.SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for

#### WHO OWNS WHOM

CRC Press

Building Beehives For Dummies (9781119544388) was previously published as Building Beehives For Dummies (9781118312940). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The easy way to build your own beehives and beekeeping equipment Building Beehives For Dummies is the follow-up book to the bestselling Beekeeping For Dummies. It provides everything you need to learn how to build some of the world's most popular hives and beekeeping accessories. For each design the book includes a detailed materials list (what lumber, hardware and fasteners you'll need), step-by-step building instructions, and illustrative drawings that show how the components all fit together. There are over a dozen plans in all, including the traditional Langstroth hive, the eight frame garden hive, designs for elevated hive stands, the Warre hive, screened bottom board, the Kenya top-bar hive, four-frame observation hive, hive top feeders, and more. The book contains introductory chapters that teach you the basic carpentry skills necessary to build any of the plans in the book. Whether you are a new beekeeper or a seasoned ol'timer,

Building Beehives for Dummies provides you with the information you need to plan and succeed at building beehives (and other cool accessories). You'll discover what type of hive to build, hints on how to maintain your equipment, what bees need to stay happy and healthy, where to locate your hive, and much more. Covers "bee space," the critical technical measurement within a beehive that's crucial for easy inspection of your colonies Offers guidance on keeping both urban and suburban neighbors happy, getting proper permissions, and understanding regional laws and regulations Provides creative ideas for dressing up hives for fun and profit In today's world of self-sufficiency, back-to-basics and sustainability, building beehives is a fun hobby that both you and your bees will appreciate and benefit from.

*Major and Small Works* Elsevier

A range of factors are all combining to propel input cost inflation. Higher international logistics costs, returning demand from industry workload, and higher global metals prices are some of the ingredients to quicker building cost inflation. Whilst some EU materials exporters to the UK are adjusting to Brexit, other EU exporters — initially smaller or specialist firms hit proportionally harder — are now deciding not to supply the UK at all, because the additional red tape involved makes it not commercially viable. If this trend replicates across the whole EU to UK supply chain, visible disruption and higher prices are likely until other sources of supply begin to increase in volume and step in to address these supply issues. Among other exporters continuing to supply the UK, significant price increases are being applied to cover the permanent Brexit non-tariff barriers and additional administrative processes. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2022, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year (2015 = 100), gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with an ebook of this 2022 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2022. As well as an overhaul of prices, 145 new items have been added including: Two new Cost Models for school refurbishment Primary Healthcare Fit-Out Plus, expanded range of cast iron rainwater goods

expanded range of matwells expanded range of vinyl floor finishes Ecotherm insulation Along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses Updates, free of charge, twice a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk)

Laxton's gives you access to the most reliable and current data. All 250,000 price elements have been individually checked and updated for the 2002 edition so that your estimates are always accurate and cost competitive. Laxton's makes analytical estimating simple and straightforward by displaying a complete breakdown for all measured items under 10 separate headings, all on a single page. This shows you a complete price build-up at a glance - and gives you the option to make price adjustments wherever necessary. You can find the sections you need quickly and easily, via the special marker system on the front cover and page edges. The free CD with this price book contains Masterbill's ESTIMATOR software and fully resourced data on all the price elements in Laxton's. Not only does the CD offer fast and efficient pricing at the touch of a button, it gives details of all the resources required to do the job. Laxton's approximate estimating section gives all in pricing for quick reference on the cost of composite items such as floors helping you calculate the cost implications of using plywood sheeting rather than softwood boarding, for example. Laxton's Basic Price section gives you a quick price on hundreds of items - from concrete work to roofing materials - to save you going through hundreds of lists from suppliers, manufacturers and building merchants. Laxton's Brand and Trade Names section lists over 12,000 brands and trade names and company addresses to help you locate specific items. Latest wage rates, fees and allowances All 250,000 price elements checked and updated

With tender prices rising slightly, looking at price lists is not enough - you need SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2011 to get a competitive edge. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for the UK. Its unique Tender Index, updated through the year, provides an ongoing reality check and adjustment for changing market conditions. This is the only price book which sets out a detailed cost base for major works contracts exceeding £3,500,000 in value, as well as minor works. Major changes have been made to this 136th edition: Overheads and profits have been kept low and in line with actual levels. Preliminaries have also been dropped to 11%, on a lower cost base. And labour rates have been adjusted to reflect today's fragile market. As well as an overhaul of prices, Spon's Architects' and Builders' Price Book 2011 includes: new Measured Works items including bio diverse roofs; Clayboard void formers; fire resisting glass blocks; UPVC window options (coloured, Secured by Design); glazing (curve cutting, drill holes); insulating panels (Kooltherm, Thermafloor, Thermaline); more internal door options; blister tactile paving; Metsec SFS framing; Ecosil paint new Approximate Estimating items: lift pits; Corium brick tiles; solar hot water; photovoltaic cells; and polished plaster extra elemental building cost models on land remediation; school refurbishment; and office refurbishment. Buyers of this 2011 edition can make a free internet download of SPON'S ARCHITECTS' AND BUILDERS' price data, which will run to the end of 2011 and: Access Spon's new Approximate Estimates rate data, as well as the Measured Works data Produce estimate and tender documents Generate priced or unpriced schedules Adjust rates and data and enter rogue items Export schedules into Excel Carry out an index search. This year, for the first time, the resources include a versatile and powerful ebook.

This volume is the first English language presentation of the innovative approaches developed in the aesthetics of religion. The chapters present diverse material and detailed analysis on descriptive, methodological and theoretical concepts that together explore the potential of an aesthetic approach for investigating religion as a sensory and mediated practice. In dialogue with, yet different from, other major movements in the field (material culture, anthropology of the senses, for instance), it is the specific intent of this approach to create a framework for understanding the interplay between sensory, cognitive and socio-cultural aspects of world-construction. The volume demonstrates that aesthetics, as a theory of sensory knowledge, offers an elaborate repertoire of concepts that can help to understand religious traditions. These approaches take into account contemporary developments in scientific theories of perception, neuro-aesthetics and cultural studies, highlighting the socio-cultural and political context informing how humans perceive themselves and the world around them. Developing since the 1990s, the aesthetic approach has responded to debates in the study of religion, in particular striving to overcome biased categories that confined religion either to texts and abstract beliefs, or to an indisputable sui generis mode of experience. This volume documents what has been achieved to date, its significance for the study of religion and for interdisciplinary scholarship.

More than just a price book, Spon's Civil Engineering and Highway Works Price Book 2006 is a comprehensive work manual that all those in the civil engineering, surveying and construction business will find it hard to work without. It gives costs for general and civil engineering works, highway works, and shows a full breakdown of labour, plant and material elements. Thoroughly comprehensive and structured to comply with CESMM3 and MMHW, the book includes prices and rates covering everything from rock bolts to runways, from staircases to step irons. In a time when it is essential to gain 'competitive advantage' in an increasingly congested market, this book provides instant-access cost information and is a one-stop reference containing tables, formulae, technical information and professional advice. This twentieth edition, in its easy-to-read format, incorporates a general review throughout, with special emphasis on the tender and estimating process. Plus the standard features you have come to expect from Spon's Civil Engineering and Highway Works Price Book: for budgeting: estimating principles, on-cost advice, method-related charges for resource costings: labour costs, plant costs, material prices for rapid cost information: approximate estimates, dayworks, cost indices for plant and labour allowances: production rates, outputs, man hour constants for detailed pricing: unit costs with full breakdown, or specialist prices, with advice on item coverage, waste allowances and comparative costs for incidental advice: tables and formulae, technical information, professional advice updated, free of charge, every three months - see enclosed card to register. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) With FREE CD-ROM containing Spon's Civil Engineering and Highway Works price data.

The International Corporate 1000 represents a joint venture between Monitor Publishing Company of Washington, DC, and Graham & Trotman Limited of London. Monitor Publishing Company is well known as the publisher of The Federal Yellow Book, The Congressional Yellow Book, and The Corporate 1000. Graham & Trotman's annual directories providing data on the major companies in many parts of the world are equally established. The two publishing companies have pooled their expertise in this joint venture to research, compile and publish The International Corporate 1000, A Directory of/Who Runs The World's 1000 Leading Corporations. The directory was designed to help you identify and contact the senior executives who lead and manage these companies.

Accordingly, you will find extensive, valuable detail about who does what, and how to reach them, but you will find little financial or statistical data. We have designed the book in this way because we believe there is a great need for an accurate and current executive directory, whereas a wealth of financial data is already available from many different sources. The organization of the directory is by key geographical region, then by major country within each region, and then alphabetically by company within each country.

**The West Indies and Caribbean Year Book** John Wiley & Sons

In the first decade of the new millennium, Tanzania's gross domestic product doubled in real terms, making it one of the handful of sub-Saharan economies that have shown strong and sustained growth in recent years. This growth was, moreover, broad based, with manufacturing output growing slightly faster than the economy as a whole. To maintain this rate of growth over the next decade, Tanzania's industrial capabilities will need to advance in a quite substantial way. The foundations for this advance lie in the current capabilities of Tanzania's industrial companies. The purpose of this volume is to set out a detailed description, industry by industry, of those capabilities. Along the way, we explore a series of questions. Where did Tanzania's current industrial capabilities originate? To what extent are Tanzanian firms held back by problems of access to land? Will it be possible to successfully integrate Tanzanian companies into the supply chains of the oil and gas sector? This is the third volume in John Sutton's "Enterprise Map" series, which profiles the industrial capabilities of selected countries in sub-Saharan Africa. Volumes on

Ethiopia and Ghana have already appeared. The forthcoming fourth volume will be on Zambia.
