Water Stress and Crop Plants Princeton University Press

Twenty-five-year-old Jinni lives in Mumbai, works in a hip animation studio and is perfectly happy with her carefree life. Until her bossy grandmother shows up and announces that it is Jinni's 'duty' to drop everything and come and contest the upcoming Lok Sabha elections from their sleepy hometown, Bittora. Jinni swears she won't but she soon ends up swathed in cotton saris and frumpy blouses, battling prickly heat, corruption and accusations of nymphomania as candidate Sarojini Pande, a daughter of the illustrious Pande dynasty of Pavit Pradesh. And if life isn't fun enough already, her main opposition turns out to be Bittora ex-royal, Zain Altaf Khan - an irritatingly idealistic though undeniably lustworthy individual with whom Jinni shares a complicated history.Enlivened by Chauhan's characteristic brand of wicked humour and sexy romanticism, this is a rollicking new tale of young India.

Tongue-Tied is an anthology that gives voice to millions of people who, on a daily basis, are denied the opportunity to speak in their own language. First-person accounts by Amy Tan, Sherman Alexie, bell hooks, Richard Rodriguez, Maxine Hong Kingston and many other authors open windows onto the lives of linguistic minority students and their experience in coping in school and beyond. Selections from these writers are presented along accessible, abridged scholarly articles that assess the impact of language policies on the experiences and life opportunities of minority-language students. Vivid and unforgettable, the readings in Tongue-Tied are ideal for teaching and learning about American education and for spurring

informed debate about the many factors that affect students and their lives. Visit our website for sample chapters!

CROP PRODUCTION AND GLOBAL ENVIRONMENTAL ISSUES

HarperCollins

Focusing on politics and society in India, this book explores new areas enmeshed in the complex social, economic and political processes in the country. Linking the structural characteristics with the broader sociological context, the book emphasizes the strong influence of sociological issues on politics, such as social milieu shaping and the articulation of the political in day-to-day events. Political events are connected with the ever-changing social, economic and political processes in order to provide an analytical framework to explain 'peculiarities' of Indian politics. Bidyut Chakrabarty argues that three major ideological influences of colonialism, nationalism and democracy have provided the foundational values of Indian politics. Structured thematically and chronologically, this work is a useful resource for students of political science, sociology and South Asian studies.

Those Pricey Thakur Girls Pearson Education

Updated and reorganized to offer the best collection of state-of-the-art readings on the role of critical theory in contemporary art, this second edition of Theory in Contemporary Art since 1985 brings together scholarly essays, artists' statements, and art reproductions to capture the vibrancy and dissonance that define today's art scene. Incorporates new and updated topics that have become central to art theory and practice over the past decade New and updated chapters cover such topics as: international biennials, historicizing of the term "contemporary art", aesthetics, art and politics, feminism and pornography, ecology and art, the Middle East and conflict studies, Eastern European art and politics, gender and war, and technology Features a thematic reconfiguration of sections and new introductions to make readings user-friendly Extensively illustrated throughout with an expanded color-plate section New contributions to this edition include those by Alexander Alberro, Claire Bishop, T.J. Demos, Anthony Downey, Liam Gillick, Marina Gr?iniæ, Mary Kelly, Chantal Mouffe, Beatriz Preciado, Jacques Ranciere, Blake Stimson, and Chin-Tao Wu.

In the Line of Fire HarperCollins

Explores cloud computing, breaking down the concepts, models, mechanisms, and architectures of this technology while allowing for the financial assessment of resources and how they compare to traditional storage systems.

Cast in Firelight HarperCollins

In a study of the vitality of Islam in late-nineteenth-century north India, Barbara Metcalf explains the response of Islamic religious scholars ('ulama) to the colonial dominance of the British and the collapse of Muslim political power. Originally published in 1982. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Springer

This is a single-volume guide to all the main analytical frameworks for gender-sensitive research and planning. It draws on the experience of trainers and practitioners, and includes step-by-step instructions for using the frameworks.

RESEARCH ADMINISTRATION AND MANAGEMENT

John Wiley & Sons

Climate change affects virtually every aspect of the U.S. energy system. As climatic effects such as rising seas and extreme weather continue to appear across many geographies, U.S. energy infrastructure is increasingly at risk. The U.S. Gulf Coast--which is home to 44 percent of total U.S. oil refining capacity and several major ports--is highly vulnerable to flooding events and dangerous ocean surges during severe storms and hurricanes. The link between water availability and energy and electricity production creates another layer of risk to U.S. energy security. Climate risk could manifest not only in physical damages, but also in financial market failures. Climate change-related challenges could impede energy firms' access to capital markets or private insurance markets. Already, climate-related risks have created severe financial problems at a handful of U.S. energy firms, forcing them to interrupt their sales of energy to consumers in particular locations. Over time, climatic disruptions to domestic energy supply could entail huge economic losses and potentially require sizable domestic military mobilizations. The United States is ill prepared for this national security challenge, and public debate about emergency preparedness is virtually nonexistent. To explore the challenges of climate risk to the U.S. energy system and national security, the Council on Foreign Relations organized a two-day workshop in New York, on March 18 and 19, 2019. The gathering of fifty participants included current and former state and federal government officials and regulators, entrepreneurs, scientists, investors, financial- and corporate-sector leaders, credit agencies, insurers, nongovernmental organizations, and energy policy experts. During their deliberations, workshop participants explored how climate-related risks to U.S. energy infrastructure, financial markets, and national security could be measured, managed, and mitigated. Impact of Climate Risk on the Energy System summarizes the insights from this workshop and includes contributions from seven expert authors delving into related topics.

INDIAN POLITICS AND SOCIETY SINCE INDEPENDENCE

Jones & Bartlett Learning

The digital economy is a new direction in which the modern global economic system is now heading. This book seeks to adapt the digital economy concept to the priorities of humanity, including the implementation of global development goals. The authors develop and substantiate scientific and methodological criteria for assessing the sustainability of the modern digital economy, and offer several concrete recommendations for improving the concept of the digital economy by incorporating global development goals.

Cinema at the End of Empire Springer

When the younger players in India's cricket team find out that advertising executive Zoya Singh Solanki was born at the very moment India won the World Cup back in 1983, they are intrigued. When having breakfast with her is followed by victories on the field, they are impressed. And when not eating with her results in defeat, they decide she's a lucky charm. The nation goes a step further. Amazed at the ragtag team's sudden spurt of victories, it declares her a Goddess. So when the eccentric IBCC president and his mesmeric, always-exquisitely-attired Swamiji invite Zoya to accompany the team to the tenth ICC World Cup, she has no choice but to agree. Pursued by international cricket boards on the one hand, wooed by Cola majors on the other, Zoya struggles to stay grounded in the thick of the world cup action. And it doesn't help that she keeps clashing with the erratically brilliant new skipper who tells her flatly that he doesn't believe in luck...

AGITATION TO LEGISLATION

Council on Foreign Relations Press

Plants are subjected to a variety of abiotic stresses such as drought, temperature, salinity, air pollution, heavy metals, UV radiations, etc. To survive under these harsh conditions plants are equipped with different resistance mechanisms which vary from species to species. Due to the environmental fluctuations agricultural and horticultural crops are often exposed to different environmental stresses leading to decreased yield and problems in the growth and development of the crops. Drought stress has been found to decrease the yield to an alarming rate of some important crops throughout the globe. During last few decades, lots of physiological and molecular works have been conducted under water stress in crop plants. Water Stress and Crop Plants: A Sustainable Approach presents an up-to-date in-depth coverage of drought and flooding stress in plants, including the types, causes and consequences on plant growth and development. It discusses the physiobiochemical, molecular and omic approaches, and responses of crop plants towards water stress. Topics include nutritional stress, oxidative stress, hormonal regulation, transgenic approaches, mitigation of water stress, approaches to sustainability, and modern tools and techniques to alleviate the water stress on crop yields. This practical book offers pragmatic guidance for scientists and researchers in plant biology, and agribusinesses and biotechnology companies dealing with agronomy and environment, to mitigate the negative effects of stress and improve yield under stress. The broad coverage also makes this a valuable guide enabling students to understand the physiological, biochemical, and molecular mechanisms of environmental stress in plants.

The Bilingual Mind Walter de Gruyter GmbH & Co KG

The past few years have seen the street emerge as one of the most volatile and engaging sites of a politics in flux. Mass protests, widespread networks, and quick mobilization in the age of social media have instilled a new life in protests and agitations, engendering an entirely new brand of rights agenda in India today. Grassroots activism along with organized, collective action has influenced several landmark legislations, often resulting in progressive outcomes and policies. Agitation to Legislation finds that such a progression is not so sudden. It examines ways in which social mobilizations influence legislative trajectory, opening up modes of direct engagement between the state and its citizens, between the government and the governed. It simultaneously focuses on political actors and processes that help expand rights and accountability and at the same time resist any attempt to increase representation of under-represented groups. Positive outcomes have depended on political responses and party strategies, either appropriating or reinforcing or disregarding the scale and intensity of public protests and collective action.

Gorky Park Oxfam

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Hunted by the Sky Grand Central Publishing

Post-Mandal, the demand for reservations by various groups has become a consistent feature of Indian politics. Yet, the focus remains on caste, with little attention paid to the under-representation of religious minorities in India. The book takes up the case of relative disadvantage and interrogates the multiple and overlapping dimensions of deprivation. Hasan argues that, in view of the comparative evidence available, presently excluded and disadvantaged groups should also qualify for affirmative action. This book will interest students and scholars of Indian politics, sociology, and history.

NOT FOR PROFIT

Farrar, Straus and Giroux (BYR)

The "gripping, romantic, and dazzlingly original" (Cosmopolitan) Arkady Renko book that started it all: the #1 bestseller Gorky Park, an espionage classic that begins the series, by Martin Cruz Smith, "the master of the international thriller" (The New York Times). It begins with a triple murder in a Moscow amusement center: three corpses found frozen in the snow, faces and fingers missing. Chief homicide investigator Arkady Renko is brilliant, sensitive, honest, and cynical about everything except his profession. To identify the victims and uncover the truth, he must battle the KGB, FBI, and the New York City police as he pursues a rich, ruthless, and well-connected American fur dealer. Meanwhile, Renko is falling in love with a beautiful, headstrong dissident for whom he may risk everything. "Brilliant...there are enough enigmas within enigmas within enigmas to reel the mind" (The New Yorker) in this wonderfully textured, vivid look behind the Iron Curtain. "Once one gets going, one doesn't want to stop...The action is gritty, the plot complicated, and the overriding quality is intelligence" (The Washington Post). The first in a classic series, Gorky Park "reminds you just how satisfying a smoothly turned thriller can be" (The New York Times Book Review).

Politics of Inclusion Routledge

"Adraa and Jatin are royal heirs of their respective kingdoms, masterful with magic, and their arranged marriage will unite two of Wickery's most powerful territories--except, they don't get along. Now, with the criminal underbelly suddenly making a move for control, the pair must learn to put their trust in the other if either is to uncover the real threat"--

Chosen Ones Delacorte Press

'Why do they call you Baaz?' 'It means falcon,' he replies solemnly. 'Or bird of prey. Because I swoop down on the enemy planes just like a Baaz

would.' Then he grins. The grey eyes sparkle. 'It's also short for bastard.'1971. The USSR-backed India-Mukti Bahini alliance is on the brink of war against the America-aided Pakistani forces. As the Cold War threatens to turn red hot, handsome, laughing Ishaan Faujdaar, a farm boy from Chakkahera, Haryana, is elated to be in the IAF, flying the Gnat, a tiny fighter plane nicknamed 'Sabre Slayer' for the devastation it has wreaked in

the ranks of Pakistan's F-86 Sabre Squadrons. Flanked by his buddies Raks, a MiG-21 Fighter, Maddy, a transport pilot who flies a Caribou, and fellow Gnatties Jana, Gana and Mana, Shaanu has nothing on his mind but glory and adventure - until he encounters Tehmina Dadyseth, famed bathing beauty and sister of a dead fauji, who makes him question the very concept of nationalism and whose eyes fill with disillusioned scorn whenever people wax eloquent about patriotism and war...Pulsating with love, laughter and courage, Baaz is Anuja Chauhan's tribute to our men in uniform.
