NEW YORK TIMES BEST SELLER • From the best-selling author of *The Smitten Kitchen Cookbook*—this everyday cookbook is “filled with fun and easy ... recipes that will have you actually looking forward to hitting the kitchen at the end of a long work day” (*Bustle*). A happy discovery in the kitchen has the ability to completely change the course of your day. Whether we’re cooking for ourselves, for a date night in, for a Sunday supper with friends, or for family on a busy weeknight, we all want recipes that are unfussy to make with triumphant results. Deb Perelman, award-winning blogger, thinks that cooking should be an escape from drudgery. *Smitten Kitchen Every Day: Triumphant and Unfussy New Favorites* presents more than one hundred impossible-to-resist recipes—almost all of them brand-new, plus a few favorites from her website—that will make you want to stop what you’re doing right now and cook. These are real recipes for real people—people with busy lives who don’t want to sacrifice flavor or quality to eat meals they’re really excited about. You’ll want to put these recipes in your Forever Files: *Sticky Toffee Waffles* (sticky toffee pudding you can eat for breakfast), *Everything Drop Biscuits with Cream Cheese*, and *Magical Two-Ingredient Oat Brittle* (a happy accident). There’s a (hopelessly, unapologetically inauthentic) *Kale Caesar with Broken Eggs and Crushed Croutons*, a *Mango Apple Ceviche with Sunflower Seeds*, and a *Grandma-Style Chicken Noodle Soup* that fixes everything. You can make *Leek, Feta, and Greens Spiral Pie*, *crunchy Brussels and Three Cheese Pasta Bake* that tastes better with brussels sprouts than without, *Beefsteak Skirt Steak Salad*, and *Bacony Baked Pintos with the Works* (as in, giant bowls of beans that you can dip into like nachos). And, of course, no meal is complete without cake (and cookies and pies and puddings): *Chocolate Peanut Butter*

Icebox Cake (the icebox cake to end all icebox cakes), *Pretzel Linzers with Salted Caramel*, *Strawberry Cloud Cookies*, *Bake Sale Winning-est Gooney Oat Bars*, as well as the ultimate *Party Cake Builder*—four one-bowl cakes for all occasions with mix-and-match frostings (bonus: less time spent doing dishes means everybody wins). Written with Deb’s trademark humor and gorgeously illustrated with her own photographs, *Smitten Kitchen Every Day* is filled with what are sure to be your new favorite things to cook.

How To Find Your One True Love Knopf

This is the inside story of private equity dealmaking. Over the last 40 years, LBO fund managers have demonstrated that they are good at making money for themselves and their investors. But when one looks beneath the surface of the transactions they engineer, it is apparent that these deals can, at times, go spectacularly wrong. Through 14 business stories, all emanating from the noughties' credit bubble and including headline-grabbing names like Caesars, Debenhams, EMI, Hertz, Seat Pagine Gialle and TXU, *The Debt Trap* shows how, via controversial practices like quick flips, repeat

dividend recaps, heavy cost-cutting and asset-stripping, leveraged buyouts changed, for better or for worse, the way private companies are financed and managed today. From technological disruption in the worlds of music recording and business-directory publishing to economic turbulence in the gambling, real estate and energy sectors, highly levered corporations are often incapable of handling market corrections when debt commitments start piling up. Behind the historical events and the financial empires erected by some of the elite private equity specialists, these 14 in-depth case studies examine how value-maximising techniques and a short-cut mentality can impact investment returns and portfolio assets. Whether you are a PE practitioner, investor, business manager, academic or business student, you will find The Debt Trap to be an authoritative and fascinating account.

A tour-de-force by rising indy comics star Gene Yang, American Born Chinese tells the story of three apparently unrelated characters: Jin Wang, who moves to a new neighborhood with his family only to discover that he's the only Chinese-American student at his new school; the powerful Monkey King, subject of one of the oldest and greatest Chinese fables; and Chin-Kee, a personification of the ultimate negative Chinese stereotype, who is ruining his cousin Danny's life with his yearly visits. Their lives and stories come together with an unexpected twist in this action-packed modern fable. American Born Chinese is an amazing ride, all the way up to the astonishing climax. American Born Chinese is a 2006 National Book Award Finalist for Young People's Literature, the winner of the 2007 Eisner Award for Best Graphic Album: New, an Eisner Award nominee for Best Coloring and a 2007 Bank Street - Best Children's Book of the Year. It is commonplace to say that criminals pay their debt to society by spending time in prison, but what is a "debt to society"? How is crime understood as a debt? How has time become the equivalent for crime? And how does criminal debt relate to the kind of debt held by consumers and university students? In *Debt to Society*, Miranda Joseph explores modes of accounting as they are used to create, sustain, or transform social relations.

Envisioning accounting broadly to include financial accounting, managerial accounting of costs and performance, and the calculation of "debts to society" owed by criminals, Joseph argues that accounting technologies have a powerful effect on social dynamics by attributing credits and debts. From sovereign bonds and securitized credit card debt to student debt and mortgages, there is no doubt that debt and accounting structure our lives. Exploring central components of neoliberalism (and neoliberalism in crisis) from incarceration to personal finance and university management, *Debt to Society* exposes the uneven distribution of accountability within our society. Joseph demonstrates how ubiquitous the forces of accounting have become in shaping all aspects of our lives, proposing that we appropriate accounting and offer alternative accounts to turn the present toward a more widely shared well-being.

Learn from Kids, Peers, and the World to Transform Professional Learning What can kids teach us about educational practices? It turns out, plenty. PD is evolving into professional learning (PL), where personalized experiences focus on goals and outcomes, rather than seat time. In *Evolving Learner*, successful PL is framed through three critical sources: learning from kids, from peers, and from the world. Woven throughout the book are tangible connections to cycles of inquiry where a harmonious balance is the ultimate goal when students are engaged in inquiry for deeper learning and teachers are engaged in a parallel process to improve their practice. The authors' unique framework shifts away from factory model "PD" and transforms it into experiences tailored to kids' and adult learners' specific needs. Clear strategies for accomplishing PL are presented through A framework where both students and teachers are active agents of learning Cycles of inquiry to empower students to become the owners of learning Techniques to make thinking visible for teachers and students Cutting edge coverage of applying technology to professional learning including the use of social media, gamification, and digital badges The time is right to reclaim ownership of your professional learning: *Evolving Learner* is an essential guide for embarking on this journey.
