A hurricane is building over the Gulf of Mexico, threatening the coastal town of Bois Sauvage, Mississippi, and Esch's father is growing concerned. He's a hard drinker, largely absent, and it isn't often he worries about the family. Esch and her three brothers are stocking up on food, but there isn't much to save. Lately, Esch can't keep down what food she gets; at fifteen, she

has just realized that she's pregnant. Her brother Skeetah is sneaking scraps for his prized pit bull's new litter, dying one by one. Meanwhile, brothers Randall and Junior try to stake their claim in a family long on child's play and short on parenting. As the twelve days that make up the novel's framework yield to a dramatic conclusion, this unforgettable family - motherless

children sacrificing for one another as they can, protecting and nurturing where love is scarce - pulls itself up to face another day.

The Great Fire is the winner of the 2003 National Book Award for Fiction. A great writer's sweeping story of men and women struggling to reclaim their lives in the aftermath of world conflict The Great Fire is Shirley Hazzard's first novel since *The Transit of Venus*, which won the National Book Critics Circle Award in 1981. The conflagration of her title is the Second World War. In war-torn Asia and stricken Europe, men and women, still young but veterans of harsh experience, must reinvent their lives and expectations, and learn, from their past, to dream again. Some will fulfill their destinies, others will falter. At the center of the story, Aldred Leith, a brave and brilliant soldier, finds that survival and worldly achievement are not enough. Helen Driscoll, a young girl living in occupied Japan and tending her dying brother, falls in love, and in the process discovers herself. In the looming shadow of world enmities resumed, and of Asia's coming centrality in world affairs, a man and a woman seek to recover self-reliance, balance, and tenderness, struggling to reclaim their humanity.

In *A Death in Harlem*, famed scholar Karla FC Holloway weaves a mystery in the bon vivant world of the Harlem Renaissance. Taking as her point of departure the tantalizingly ambiguous "death by misadventure" at the climax of Nella Larsen's *Passing*, Holloway accompanies readers to the sunlit boulevards and shaded sidestreets of Jazz Age New York. A murder there will test the mettle, resourcefulness, and intuition of Harlem's first "colored" policeman, Weldon Haynie Thomas. Clear glass towers

rising in Manhattan belie a city where people are often not what they seem. For some here, identity is a performance of passing—passing for another race, for another class, for someone safe to trust. Thomas's investigation illuminates the societies and secret societies, the intricate code of manners, the world of letters, and the broad social currents of 1920s Harlem. *A Death in Harlem* is an exquisitely crafted, briskly paced, and impeccably stylish journey back to a time still remembered as a peak of American glamour. It introduces Holloway as a fresh voice in storytelling, and Weldon Haynie Thomas as an endearing and unforgettable detective.

HEAD OFF & SPLIT

Northwestern University Press

'...And then we heard the rain falling, and that was the drops of blood falling; and when we came to get the crops, it was dead men that we reaped.' Harriet Tubman In five years, Jesmyn Ward lost five men in her life, to drugs, accidents, suicide, and the bad luck that can follow people who live in poverty, particularly black men. Dealing with these losses, one after another, made Jesmyn ask the question: why? And as she began to write about the experience of living through all the dying, she realized the truth—and it took her breath away. Her brother and her friends all died because of who they were and where they were from, because they lived with a history of racism and economic struggle that fostered drug addiction and the dissolution of family and relationships. Jesmyn says the answer was so obvious she felt stupid for not seeing it. But it nagged at her until she knew she had to write about her community, to write their stories and her own. Jesmyn grew up in poverty in rural Mississippi. She writes powerfully about the pressures this brings, on the men who can do no right and the women who stand in for family in a society where the men are often absent. She bravely tells her story, revisiting the agonizing losses of her only brother and her friends. As the sole member of her family to leave home and pursue high education, she writes about this parallel American universe with the objectivity distance provides and the intimacy of utter familiarity.

Contemporary African American and Black British Women Writers: Narrative, Race, Ethics brings together British and American scholars to explore how, in texts by contemporary black women writers in the U. S. and Britain, formal narrative techniques express new understandings of race or stimulate ethical thinking about race in a reader. Taken together, the essays also demonstrate that black women writers from both sides of the Atlantic borrow formal structures and literary techniques from one another to describe the workings of structural racism in the daily lives of black subjects and to provoke readers to think anew about race. Narratology has only recently begun to use race as a category of narrative theory. This collection seeks both to show the ethical effects of narrative form on individual readers and to foster reconceptualizations of narrative theory that account for the workings of race within literature and culture.

Ava, a teenage girl living aboard the male-dominated deep space merchant ship *Parastrata*, faces betrayal, banishment, and death. Taking her fate into her own hands, she flees to the *Gyre*, a floating continent of garbage and scrap in the Pacific Ocean, in this thrilling, surprising, and thought-provoking debut novel that will appeal to fans of *Across the Universe*, by Beth Revis, and *The Handmaid's Tale*, by Margaret Atwood. Internationally bestselling author Stephanie Perkins called it "brilliant, feminist science

fiction." Ava is the captain's daughter. This allows her limited freedom and a certain status in the *Parastrata*'s rigid society—but it doesn't mean she can read or write or even withstand the forces of gravity. When Ava learns she is to be traded in marriage to another merchant ship, she hopes for the best. After all, she is the captain's daughter. But instead, betrayal, banishment, and a brush with love and death are her destiny, and Ava stows away on a mail sloop bound for Earth in order to escape both her past and her future. The gravity almost kills her. Gradually recuperating in a stranger's floating cabin on the *Gyre*, a huge mass of scrap and garbage in the Pacific Ocean, Ava begins to learn the true meaning of family and home and trust—and she begins to nourish her own strength and soul. This sweeping and harrowing novel explores themes of choice, agency, rebellion, and family, and after a tidal wave destroys the *Gyre* and all those who live there, ultimately sends its main character on a thrilling journey to Mumbai, the beating heart of Alexandra Duncan's post-climate change Earth. An Andre Norton Award nominee.

"Nikky Finney has been a fine poet much too long to say that this latest treasure is her promise coming into being. She exploded with so much talent with *On Wings Made of Gauze* and beautifully matured with *Rice*, yet *Head Off & Split* takes the promise of youth with the control of adulthood to bring her greatest exploration. Honest, searing, searching. We all, especially now, need this book of poems; we all, especially now, need this poet."--
-Nikki Giovanni, author of *Bicycles* "Beginning with the sweepingly inclusive and powerful 'Red Velvet,' a Middle Passage poem for our times, Nikky Finney takes the reader to a wonderfully alive world where the musical possibilities of language overflow with surprise and innovation. Finney has an ear to go along with the wildness of her imagination, which sweeps through history like a pair of wings. Her carefully modulated free verse is always purposeful in its desire to move the reader in a way that allows us intimate access to necessary observations about ourselves. These poems, in other words, have the power to save us."--Bruce Weigl, author of *What Saves Us* "In Nikky Finney's *Head Off & Split* the beauty of language soars and saves us even as we skirt the raw edge of terror. And something rare and precious is restored, a

light, a circling movement of the spirit. This is poetry to give thanks for."---Meena Alexander, author of *Quickly Changing River* "No one opens a vein on the page with a sharper and more nuanced gathered set of senses than Nikky Finney. In *Head Off & Split*, she takes aim at the heart of American wrong-headedness with a sense of purpose and integrity not only respectful of, but fueled by, her own brand of multiple kinships and remembrance, a grand struggle-swagger of powerful literary inheritance."--- Thomas Sayers Ellis, author of *Skin, Inc.* "With *Head Off & Split*, Nikky Finney establishes herself as one of the most eloquent,

urgent, fearless and necessary poets writing in America today. What makes this book as important as anything published in the last decade is the irresistible music, the formal dexterity and the imaginative leaps she makes with metaphor and language in these simply stunning poems. This is a very, very important achievement."---Kwame Dawes, author of *Hope's Hospice* *Madeleine Is Sleeping* Schwartz & Wade This book examines the ways in which the histories of racial violence, from slavery onwards, are manifest in representations of the body in twenty-first-century culture set in the US South. Christopher Lloyd focuses on corporeality in literature and film to

detail the workings of cultural memory in the present. Drawing on the fields of Southern Studies, Memory Studies and Black Studies, the book also engages psychoanalysis, Animal Studies and posthumanism to revitalize questions of the racialized body. Lloyd traces corporeal legacies in the US South through novels by Jesmyn Ward, Kathryn Stockett and others, alongside film and television such as *Beasts of the Southern Wild* and *The Walking Dead*. In all, the book explores the ways in which bodies in contemporary southern culture bear the traces of racial regulation and injury.
