SAGE ELLISON

Business and Government Relations in Africa Oxford University Press

Kiraitu Murungi easily fits into the category of 'Philosopher-King', a leader who, according to Plato, combines intellect, intelligence and wisdom in leadership. An alumnus of the University of Nairobi and the prestigious Harvard University, Kiraitu has applied these qualities to serve the society at constituency, county and national levels. In this candid interview with veteran journalist, Njeri Rugene, Kiraitu is blunt, brutal, frank and rational on politics and development issues. The first of its kind in the country, this lengthy interview is not only inspiring, but also an insightful and igniting expos of realpolitik in Kenya.

Support for Growth-oriented, Women Entrepreneurs in Ethiopia, Kenya, and Tanzania Springer Nature

Much of the time, when confronted with a crisis of national dimensions, businesses do exactly what we expect them to do: they look to their own survival. Occasionally, however, firms in some contexts go beyond this. Based on qualitative, country-based fieldwork in Eastern and Southern Africa, Antoinette Handley examines how African businesses can be key responders to wider social and political crises, often responding well in advance of the state. She reveals the surprising ways in which business responses can be focused, not on short-term profits, but instead on ways that assist society in resolving that crisis in the long term. Taking African businesses in Kenya, Uganda, Botswana and South Africa as case studies, this detailed exploration of the private sector response to crises, including HIV/AIDS and political violence crises, introduces the concept of relative business autonomy, exploring the conditions under which it can emerge and develop, when and how it may decline, and how it might contribute to a higher level of overall societal resilience.

Digital Kenya Routledge

This book endeavors to take the conceptualization of the relationship between business, government and development in African countries to a new level. In the twenty-first century, the interests and operations of government and business inevitably intersect all over the African continent. No government, federal or state, can afford to ignore the needs of business. But what are these needs, how does business express its needs to government and what institutions organize government-business relations in African countries? How should government regulate business, or should it choose to let the markets rule? Government and Business Relations in Africa brings together many of sub-Saharan African leading scholars to address these critical questions. Business and Government Relations in Africa examines the key players in the game—federal and state governments and business groups—and the processes that govern the relationships between them. It looks at the regulatory regimes that have an impact on business and provides a number of case studies of the relationships between government and economic development around the African continent, highlighting different processes and practices. It shows the latest state of knowledge on the topic and

will be of interest both to students at an advanced level, academics and reflective practitioners. It addresses the topics with regard to business-government relations and will be of interest to researchers, academics, policymakers, and students in the fields of African politics, comparative politics, public policy, business and politics, sustainable development and sustainability, economic development, and managerial economics.

ICIE 2015 3rd International Conference on Innovation and Entrepreneurship John Wiley & Sons

Covers the background information to the ILO-African Development Bank country-level studies on the subject and presents the findings and recommendations resulting from the application of the analytical integrated framework in the three countries.

OPERATIONS AND SERVICE MANAGEMENT: CONCEPTS, METHODOLOGIES, TOOLS, AND APPLICATIONS

This book is open access under a CC BY 4.0 license. Presenting rigorous and original research, this volume offers key insights into the historical, cultural, social, economic and political forces at play in the creation of world-class ICT innovations in Kenya. Following the arrival of fiber-optic cables in 2009, Digital Kenya examines why the initial entrepreneurial spirit and digital revolution has begun to falter despite support from motivated entrepreneurs, international investors, policy experts and others. Written by engaged scholars and professionals in the field, the book offers 15 eye-opening chapters and 14 one-on-one conversations with entrepreneurs and investors to ask why establishing ICT start-ups on a continental and global scale remains a challenge on the "Silicon Savannah". The authors present evidence-based recommendations to help Kenya to continue producing globally impactful ICT innovations that improve the lives of those still waiting on the side-lines, and to inspire other nations to do the same.

Micro and Small Enterprises in Kenya Academic Conferences Limited

Information and communication technologies (ICTs) offer unprecedented opportunities to transform agriculture in Africa. ICT innovations are opening up exciting opportunities for young entrepreneurs to engage at various stages of the agricultural value chain, from developing solutions that make the agri-food sector more productive to setting up services that facilitate market access for smallholder producers. The stories told here show that ICTs are enabling farmers to access information about everything from the weather to market prices, from agricultural best practice to controlling pests and diseases. Mobile platforms are also helping farmers to gain access to credit and therefore the means to improve their productivity and incomes. In short, ICTs are helping to make agriculture more profitable and sustainable. *The History of Business in Africa* Temple University Press
According to a 2018 World Bank report, Africa is the only region with more women than men choosing to become entrepreneurs – a phenomenon that is not the subject of adequate discussion. This book reveals the latest research-based understanding of the

entrepreneurial activities of women in sub-Saharan Africa.

Specially invited subject experts present salient dimensions of entrepreneurship by African women, from environmental factors to motivations and influencers as well as financial and non-financial constraints, and highlight the significant role of cultural differences. This book provides a mixture of theoretical, conceptual, and empirical research, and fills the knowledge gap by presenting a wide range of opportunities and challenges faced by sub-Saharan African women entrepreneurs. This book will help policy makers and academic researchers in understanding the role of institutions and entrepreneurship policy in building a thriving entrepreneurial ecosystem in the region.

Multi-Ethnic Coalitions in Africa East African Educational Publishers

The Kenyan economy performed comparatively well in 2015, even in the face of global economic headwinds. According to the World Bank, GDP growth is expected to reach 5.4% for the year, aided in large part by sustained public sector capital spending. The country has a strong private sector and received encouraging signs of new oil, gas and water reserves, which if harnessed appropriately bode well for future growth. The country's medium-to long-term economic outlook is robust. With over 40% of the population under the age of 15, Kenya stands to benefit from a significant demographic dividend, provided that sufficient jobs can be found when this population enters the workforce. The country has a reasonably sized industrial base, competitive infrastructure and a large agricultural sector, all of which offer opportunities for capital-intensive investment.

Research Handbook on Entrepreneurial Teams Cambridge University Press

This book reinforces the value and importance of entrepreneurial teams within the entrepreneurship literature. The expert group of contributors identifies and develops various key areas of research on entrepreneurship teams and suggests the way ahead for future research in the area. The contributors expand on the existing literature on entrepreneurial teams by first revisiting the most recent framework applied to entrepreneurial teams (that is the Inputs-Mediators-Outputs-Inputs model) and then advancing our understanding of issues such as formation, structuring, deep-level diversity and emergent states. The book additionally considers different contexts of application with reference to their commonalities and specificities and investigates under-researched areas such as entrepreneurial teams within indigenous communities, ethnically diverse groups and women entrepreneurs. The contributors present practice-relevant research and offer researchers a platform from which they can explore new insights into the phenomenon of entrepreneurial teams.

Spontaneous Shelter Routledge

Drawing on the author's four decades of experience as a practitioner and academician working with private equity investors, entrepreneurs, and policymakers in over 100 developing countries around the world, this book uses anecdotes and case studies to illustrate and reinforce the key arguments for private equity investment in emerging economies.

Sandra Fielden and Marilyn Davidson, already well known for their contributions to gender issues in management, have brought together an absorbing collection of articles that serve to enhance our understanding of a complex area within organisation studies. . . this particular Handbook is not a mere glossary. The editors provide a forum for scholarly works in a specialised area of small business and entrepreneurship research. And the International Handbook of Women and Small Business Entrepreneurship provides a rich resource collectively, the papers serve to summarise and re-examine much of the relevant research to date. . . an accessible book that follows a logical and coherent pattern. . . the range of this book is significant, and the accomplishment considerable. . . the International Handbook of Women and Small Business Entrepreneurship is a serious contribution to a niche area of entrepreneurship scholarship. The editors and authors have established a place for women in the literature, confirming that gender issues cannot be dismissed as a mere adjunct to the broader field of entrepreneurship study. This collection offers the reader intelligent engagement with the range of research and ways of knowing about women and entrepreneurship. Established scholars will find much of interest, and we would also confidently recommend the Handbook to interested newcomers. Robyn Walker and Kate Lewis, Women in Management Review Sandra L. Fielden and Marilyn J. Davidson have put a great deal of work into producing this compilation of scientific studies on women and small business entrepreneurship. In this book, the editors have managed to put together an excellent compilation of studies that look at topics that have aroused the highest interest in this field in recent years. . . It offers a good balance between theory and practice-oriented studies and presents an academic viewpoint that comes extremely close to the real, current situation of this phenomenon. This book therefore provides a useful tool both for the academic community in general and for students, particularly at a postgraduate or doctorate level, who wish to gain a state-of-the-art overview of this business phenomenon. It may also be put to good use by women in management and entrepreneurship as well as policymakers and small service providers, given its high empirical content, supported by a sound empirical framework, which deals with real-life issues for women who wish to start up and manage their own businesses. María Ángeles Escribá Moreno, Entrepreneurship Management . . . a truly international, unique and impressive contribution to our knowledge and understanding of issues for females starting, running and growing businesses. . . an important read for anyone with an interest in female entrepreneurship, including researchers, support agents and policymakers. Moreover, this book may be of interest to those concerned with the theoretical development of the study of entrepreneurship. Laura Galloway, International Journal of Entrepreneurship and Innovation . . . this book can be recommended as an insightful and interesting work on women s entrepreneurship from a broad perspective. Wing Lam, International Small Business Journal This truly international Handbook makes a significant contribution to the field of women s entrepreneurship by broadening the scope of the conversation, hearing voices that are often unheard, and providing a framework that organizes the current body of knowledge but also presents pathways for future research and practice. Patricia G. Greene, Babson College, US This Handbook is a breakthrough collection. Women worldwide are now starting small businesses and

entrepreneurial ventures at a faster rate than men. Though small in size, these initiatives represent a significant factor in economic growth, highlighting their importance. This collection sheds light on the motivations, personality and behaviors of women entrepreneurs, the constrai

This book provides a comprehensive overview of role of entrepreneurship, technology commercialisation and innovation policy for the achievement of economic development and prosperity in African societies. It adopts a broad innovation systems approach. The book examines entrepreneurship, innovation, and technology commercialisation alongside context-specific factors associated with them. It also provides an interdisciplinary perspective, by discussing the above disciplines in a connected way. This book is presented in three distinct parts. It starts by discussing entrepreneurship and the state of the entrepreneurial ecosystem in Africa. It then moves on to present technology commercialisation in Africa, before finally discussing the future directions for entrepreneurship, technology commercialisation and innovation policy. This broad picture provided in the book enables the reader to grasp the relevant messages, whilst the detailed analysis applies world-class theories and frameworks to deepen the readers understanding of key concepts and issues examined.

THE AFRICAN BOOK PUBLISHING RECORD

International Labour Organization

On January 20, 2009, Barack Hussein Obama made history as the first African-American president of the United States of America since its founding in 1776. Around the world, people celebrated his election as if he were one of their own and held exceedingly high expectations of his presidency. When, as senator of Illinois, he visited his fathers village in Nyangoma Kogelo in Kenya, he was struck by the ecstatic reception that the people accorded him. He was deeply touched by the abject poverty and fullness of spirit of the people. The level of need and the challenges that he witnessed in the poor neighbourhoods of Chicago in the US, in Indonesia and Kenya may have significantly contributed to his spirited drive to the White House. In this book, the author re-traces the life of Barack Obama Senior and how his character, vision and intellect influenced his sons drive to the most powerful office in the land. In so doing, the author revisits the events in pre- and post-colonial Kenya and how these, too, had a bearing on the life of Obama Senior. The book also relates the history of his people the Luo from their original settlements along the Nile in Egypt and the Sudan to their present homelands in East Africa and the Great Lakes region. It details the often tragic and ultimately triumphant struggle of a people in pursuit of a just, peaceful and progressive society.

A Profile of Kenyan Entrepreneurs profiles a dozen of Kenya's most successful entrepreneurs across a variety of industries - manufacturing, pharmaceuticals, agriculture, ICT, retail, media and entertainment to name a few. It is a collection that proves that when there is money to be made, you cannot beat a good entrepreneur no matter how deprived his or her background. Be inspired by stories that illustrate the triumph of hope over means and the resilience of the human spirit in the face of seemingly insurmountable odds. Find out how they got to where they are, the pitfalls and challenges along the way and how they made and lost millions. Through their eyes you will get a fascinating glimpse into Kenya's history and the events that shaped business in the colonial, pre- and post-independence periods. In this first book of its kind, Kenyan entrepreneurs tell it all - the good, the bad and the ugly. From the building of the Kenya-Uganda railway, the state of emergency in 1952 and the crackdown on Mau Mau fighters, the coffee boom and policy of Africanisation in the 1970s, to the political corruption in the 1980s, the decline of the Kenyan economy in the 1990s and the modicum of hope in 2000s. And best of all, a section on tips for aspiring entrepreneurs where they tell you how to achieve their level of success.
