The longtime knitter and vintage fashion expert puts a contemporary twist on classic knit babywear in this beautifully photographed pattern book.

While working as a vintage clothing dealer, combing through estate sales and eBay listings, longtime knitter Kristen Rengren amassed hundreds of knitting pattern booklets from 1920 through 1960. Now a knitwear designer, Rengren brings us the result of her combined passions in *Vintage Baby Knits*, a charming collection of more than 40 contemporary updates of timeless baby patterns. Projects range from small, quick-to-knit items like hats,

booties, and shrugs to larger, more challenging designs for sweaters, onesies, and dresses, including a lace christening gown. Beautiful photographs capture a bevy of adorable babies and toddlers wearing these knitted treasures. Also included are sidebars on baby fashion and knitting culture in this bygone era, and a complete reference section. Destined to be a classic itself, *Vintage Baby Knits* promises family heirlooms for 21st-century babies.

In late-1990s Britain, the salwaar-kameez or 'Punjabi suit' emerged as a high-fashion garment. Popular both on the catwalk and on the street, it made front-page news when worn by Diana, Princess of Wales and by Cherie Booth, the wife of UK Prime Minister Tony Blair. In her ethnography of the local and global design economies established by Asian women fashion entrepreneurs, Parminder Bhachu focuses on the transformation of the salwaar-kameez from negatively coded 'ethnic clothing' to a global garment fashionable both on the margins and in the mainstream. Exploring the design and sewing businesses, shops and street fashions in which this revolution has taken place, she shows how the salwaar-kameez is today at the heart of new economic micro-markets which themselves represent complex, powerfully coded means of cultural dialogue and racial politics. The innovative designs of second-generation British Asian women are drawn from characteristically improvisational migrant cultural codes. Through their hybrid designs and creation of new aesthetics, these women cross cultural boundaries, battling with racism and redefining both Asian and British identities. At the same time, their border-crossing commercial entrepreneurship produces new diaspora economies which give them control over many economic, aesthetic, cultural and technological resources. In this way, the processes of global capitalism are gendered, racialized and localized through the interventions of diasporic women from the margins.

[A Memoir](#) Random House

This is a story of a girl's construction of her identity, and of her family's search for a place in the world, for the Heimat that is so resonant for those of German background. We follow Helga through an adventurous childhood in Iran, whose vast open spaces her mother called 'my spiritual home'. Her engineer father worked on a grand scale, designing and laying roads and railways, and tunnelling through mountain ranges. Then came the invasions of World War II, and the family, half-German, half-Austrian, found themselves on a long voyage to Australia, designated enemy aliens. They were interned for nearly five years in the dusty Victorian countryside. On their release at the end of the War, stranded in Melbourne, they sought another home. The children were dispatched to convents, and at the Academy of Mary Immaculate, Helga found a temporary homeland, in faith. Everyday life in the Australia of the late 1940s and early 1950s is freshly seen by this feisty, loving migrant family. Through their eyes, we encounter a strange place, Australia, as if for the first time. Helga's development from a thoughtful, sensitive child to a self-possessed young woman, wrestling with her faith and with how to live a decent life, is vividly recounted.

He is surrounded by larger than life figures whose exploits and adventures Holden follows—ex-Corporal Frank 'Bloodnut' McBee, the scrap dealer who woos his mother; his uncle Vern, a shortsighted proofreader who likes facts and eating newspaper with his breakfast cereal; and the crippled artist Harriet, whose twists and curves appeal to Holden as he holds to his own unswervingly straight lines.

The bestselling author of the acclaimed *House of Cards* and *The Last Tycoons* turns his spotlight on to Goldman Sachs and the controversy behind its success. From the outside, Goldman Sachs is a perfect company. The Goldman PR machine loudly declares it to be smarter, more ethical, and more profitable than all of its competitors. Behind closed doors, however, the firm constantly straddles the line between conflict of interest and legitimate deal making, wields significant influence over all levels of government, and upholds a culture of power struggles and toxic paranoia. And its clever bet against the mortgage market in 2007—unknown to its clients—may have made the financial ruin of the Great Recession worse. Money and Power reveals the internal schemes that have guided the bank from its founding through its remarkable windfall during the 2008 financial crisis. Through extensive research and interviews with the inside players, including current CEO Lloyd Blankfein, William Cohan constructs a nuanced, timely portrait of Goldman Sachs, the company that was too big—and too ruthless—to fail.
