VIOLENCE AND POWER IN THE THOUGHT OF HANNAH ARENDT

Penguin

This volume on Hannah Arendt's and Leo Strauss' impact on American political science after 1933 contains essays presented at an international conference held at the University of Colorado at Boulder in 1991. The book explores the influence that Arendt's and Strauss' experiences of inter-war Germany had on their perception of democracy and their judgment of American liberal democracy. Although they represented different political attitudes, both thinkers interpreted the modern American political system as a response to totalitarianism. The contributors analyse how their émigré experience both influenced their American work and also had an impact on the formation of the discipline of political science in postwar Germany. Arendt's and Strauss' experiences thus aptly illustrate the transfer and transformation

of political ideas in the World War II era.

The Politics Book Cornell University Press

Each of the books that Hannah Arendt published in her lifetime was unique, and to this day each continues to provoke fresh thought and interpretations. This was never more true than for *Eichmann in Jerusalem*, her account of the trial of Adolf Eichmann, where she first used the phrase “the banality of evil.” Her consternation over how a man who was neither a monster nor a demon could nevertheless be an agent of the most extreme evil evoked derision, outrage, and misunderstanding. The firestorm of controversy prompted Arendt to readdress fundamental questions and concerns about the nature of evil and the making of moral choices. Responsibility and Judgment gathers together unpublished writings from the last decade of Arendt’s life, as she struggled to explicate the meaning of *Eichmann in Jerusalem*. At the heart of this book is a profound ethical investigation, “Some Questions of Moral Philosophy”; in it Arendt confronts the inadequacy of traditional moral “truths” as standards to judge what we are capable of doing, and she examines anew our ability to distinguish good from evil and right from wrong. We see how Arendt comes to understand that

alongside the radical evil she had addressed in earlier analyses of totalitarianism, there exists a more pernicious evil, independent of political ideology, whose execution is limitless when the perpetrator feels no remorse and can forget his acts as soon as they are committed. Responsibility and Judgment is an essential work for understanding Arendt's conception of morality; it is also an indispensable investigation into some of the most troubling and important issues of our time.

Between Past and Future University of Washington Press

This book addresses the theoretical underpinnings of the field of transitional justice, something that has hitherto been lacking both in study and practice. With the common goal of clarifying some of the theoretical profiles of transitional justice strategies, the study is organized along crucial intersections evaluating aspects connected to the genealogy, the nature, the scope and the most appropriate methodology for the study of transitional justice. The chapters also take up normative and political considerations pertaining to specific transitional instruments such as war crime tribunals, truth commissions, administrative purges, reparations, and historical commissions. Bringing together some of the most original writings from established experts as well as from promising young scholars in the field, the collection will be an essential resource for researchers, academics and policy-makers in Law, Philosophy, Politics, and Sociology.

Men in Dark Times Schocken

This book looks at contemporary political violence, in the form of jihadism, through the lens of a philosophical polemic between Hannah Arendt and Frantz Fanon: intellectual representatives of the global north and global south. It explores the relationship of

Arendt's thought, mostly as expressed in *On Violence* (1969), to Fanon's *The Wretched of the Earth* (1961) and the transposition of that relationship to the contemporary phenomenon of violent Islamic extremism. The book reveals a greater commonality between Fanon and Arendt as well as the universal function of jihadism that satisfies the conditions for political violence, as categorized by Fanon in the global south and Arendt in the global north. Read in tandem, Arendt and Fanon help uncover the fundamental problems of our European, American, Middle Eastern and African political systems as well as north-south relations. By studying political theory, the book finds global political commonalities in a postcolonial reality. Written in an accessible style, this book will be of great interest to undergraduates and graduates in philosophy, political sciences and international relations (IR), sociology and Middle Eastern studies as well as scholars and professionals interested in radicalization; violent extremism; and the foreign policies of European, Middle Eastern and African countries.

Learn about how the world of government and power works in *The Politics Book*. Part of the fascinating Big Ideas series, this book tackles tricky topics and themes in a simple and easy to follow format. Learn about Politics in this overview guide to the subject, great for novices looking to find out more and experts wishing to refresh their knowledge alike! *The Politics Book* brings a fresh and vibrant take on the topic through eye-catching graphics and diagrams to immerse yourself in. This captivating book will broaden your understanding of Politics, with: - More

than 100 groundbreaking ideas in the history of political thought - Packed with facts, charts, timelines and graphs to help explain core concepts - A visual approach to big subjects with striking illustrations and graphics throughout - Easy to follow text makes topics accessible for people at any level of understanding The Politics Book is a captivating introduction to the world's greatest thinkers and their political big ideas that continue to shape our lives today, aimed at adults with an interest in the subject and students wanting to gain more of an overview. Delve into the development of long-running themes, like attitudes to democracy and violence, developed by thinkers from Confucius in ancient China to Mahatma Gandhi in 20th-century India, all through exciting text and bold graphics. Your Politics Questions, Simply Explained This engaging overview explores the big political ideas such as capitalism, communism, and fascism, exploring their beginnings and social contexts - and the political thinkers who have made significant contributions. If you thought it was difficult to learn about governing bodies and affairs, The Politics Book presents key information in a clear layout. Learn about the ideas of ancient and medieval philosophers and statesmen, as well as the key personalities of the 16th to the 21st centuries that have shaped political thinking, policy, and statecraft. The Big Ideas Series With millions of copies sold worldwide, The Politics Book is part of the award-winning Big Ideas series from DK. The series uses striking graphics along with engaging writing, making big topics easy to understand.

Theorizing Transitional Justice Routledge

In *Inconceivable Effects*, Martin Blumenthal-Barby reads theoretical, literary and cinematic works that appear noteworthy

for the ethical questions they raise. Via critical analysis of writers and filmmakers whose projects have changed our ways of viewing the modern world-including Hannah Arendt, Franz Kafka, Walter Benjamin, the directors of Germany in Autumn, and Heiner Mueller-these essays furnish a cultural base for contemporary discussions of totalitarian domination, lying and politics, the relation between law and body, the relation between law and justice, the question of violence, and our ways of conceptualizing "the human." A consideration of ethics is central to the book, but ethics in a general, philosophical sense is not the primary subject here; instead, Blumenthal-Barby suggests that whatever understanding of the ethical one has is always contingent upon a particular mode of presentation (*Darstellung*), on particular aesthetic qualities and features of media. Whatever there is to be said about ethics, it is always bound to certain forms of saying, certain ways of telling, certain modes of narration. That modes of presentation differ across genres and media goes without saying; that such differences are intimately linked with the question of the ethical emerges with heightened urgency in this book.

ON REVOLUTION

Springer

A unique and fascinating look at violent political change by one of the most profound thinkers of the twentieth century and the author of *Eichmann in Jerusalem* and *The Origins of Totalitarianism* Hannah Arendt's penetrating observations on the modern world, based on a profound knowledge of the past, have been fundamental to our understanding of our political landscape. *On Revolution* is her classic exploration of a

phenomenon that has reshaped the globe. From the eighteenth-century rebellions in America and France to the explosive changes of the twentieth century, Arendt traces the changing face of revolution and its relationship to war while underscoring the crucial role such events will play in the future. Illuminating and prescient, this timeless work will fascinate anyone who seeks to decipher the forces that shape our tumultuous age.

THINKING WITHOUT A BANISTER

Penguin Group

A systemic analysis of anti-Black racism in the work of political philosopher Hannah Arendt. While acknowledging Hannah Arendt's keen philosophical and political insights, Kathryn T. Gines claims that there are some problematic assertions and oversights regarding Arendt's treatment of the "Negro question." Gines focuses on Arendt's reaction to the desegregation of Little Rock schools, to laws making mixed marriages illegal, and to the growing civil rights movement in the south. Reading them alongside Arendt's writings on revolution, the human condition, violence, and responses to the Eichmann war crimes trial, Gines provides a systematic analysis of anti-black racism in Arendt's work. "Hannah Arendt: political progressive and committed anti-racist theorist? Think again. As Kathryn Gines makes inescapably clear, for Arendt the "Negro" was the problem, whether in the form of savage "primitives" inseparable from Heart-of-Darkness Africa, social climbers trying to get their kids into white schools, or unqualified black university students dragging down academic standards. [Gines's] boldly revisionist text reassesses the German thinker's categories and

frameworks." —Charles W. Mills, Northwestern University "Takes on a major thinker, Hannah Arendt, on an important issue—race and racism—and challenges her on specific points while raising philosophical and methodological shortcomings." —Richard King, Nottingham University "Gines carefully moves through Arendt scholarship and Arendt's texts to argue persuasively that explicit discussions of the "Negro question" point up the limitations of her thinking." —Kelly Oliver, Vanderbilt University "Gines has delivered an intellectually challenging book, that presents one of the most important figures in Western philosophy of the 2nd half of the 20th century in a different and, perhaps, somewhat less favorable perspective." —Philosophia "Offers a wealth of research that will be valuable to scholars and graduate students interested in how racial bias operates in Arendt's major works. Gines's writing style is lucid and to the point, and her engagement with secondary sources is comprehensive." —Hypatia

THE LIFE OF THE MIND

Indiana University Press

Collection of essays which present portraits of individuals ranging from Rosa Luxemburg to Pope John XXIII who the author believes have illuminated "dark times."

HANNAH ARENDT AND THE MEANING OF POLITICS

Houghton Mifflin Harcourt

Hannah Arendt's approach to politics focuses on action and conduct, rather than institutions, constitutions, and states. In light of Arendtian conceptions of politics, essays in this book challenge conventional IR theories.

On Violence Houghton Mifflin Harcourt

This book proposes a philosophy of care in a global age. It discusses the distinguishing and opposing pathologies produced by globalization: unlimited individualism or self-obsession, manifested as (Promethean) omnipotence and (narcissistic) indifference, and endogamous communitarianism or an 'us'-obsession that results in conflict and violence. The polarization between a lack and an excess of pathos is reflected in the distorted forms taken on by fear. The book advocates a metamorphosis of fear, which may restore in the subject an awareness of vulnerability and become the precondition for moral action. Such awareness and the recognition of the condition of contamination caused by the other's unavoidable presence teach us to fear for rather than be afraid of. Fear for the world means care of the world, and care, understood as concern and solicitude, is a new notion of responsibility, in which the stress is shifted to a relational subject capable of responding to and taking care of the other. From a global perspective, the proposed vision of care also compels us to explore a new paradigm of justice.

A Human Condition National Geographic Books

In this stimulating collection of studies, Dr. Arendt, from the standpoint of a political philosopher, views the crises of the 1960s and early '70s as challenges to the American form of government. The book begins with "Lying in Politics," a penetrating analysis of the Pentagon Papers that deals with the role of image-making and public relations in politics. "Civil Disobedience" examines the various opposition movements from the Freedom Riders to the war resisters and the segregationists. "Thoughts on Politics and Revolution," cast in the form of an

interview, contains a commentary to the author's theses in "On Violence." Through the connected essays, Dr. Arendt examines, defines, and clarifies the concerns of the American citizen of the time.--From publisher description.

Violence and Power in the Thought of Hannah Arendt University of Pennsylvania Press

Hannah Arendt Duke University Press

Modernism in legal theory is no different from modernism in the arts: both respond to a cultural crisis, a sense that institutions and traditions have lost their validity. Some doubt the importance of the rule of law, others question the objectivity of legal reasoning. We have lost confidence in the justice of our legal institutions, and even in our very capacity to identify justice. Legal philosopher David Luban argues that we cannot escape the modernist predicament. Accusing contemporary legal theorists of evading rather than confronting the challenge of modernity, he offers important and original objections to pragmatism, traditionalism, and nihilism. He argues that only by weaving together the broken narrative and forgotten voices of history's victims can we come to appreciate the nature of justice in modern society. Calling a trial the embodiment of the law's self-criticism, Luban demonstrates the centrality of narrative by analyzing the trial of Martin Luther King, the Nuremberg trials, and trial scenes in Homer, Hesiod, and Aeschylus. With these examples, Luban explores several of the tensions that motivate much more contemporary legal theory: order versus justice, obedience versus resistance, statism versus communitarianism. ". . . an illuminating account of how contemporary legal theory

can be understood as an expression of 'the modernist predicament' by exploring the analogy between modernism in the arts and modernism in law, politics, and philosophy. . . . a valuable critical discussion of modern legal theory." --Choice
 David Luban is Morton and Sophia Macht Professor of Law at the University of Maryland and Research Scholar at the Institute for Philosophy and Public Policy. His other books include *Lawyers and Justice: An Ethical Study*.

Du mensonge à la violence Penguin

The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

The Anthem Companion to Hannah Arendt Cambridge University Press

This anthology brings together classic perspectives on violence, putting into productive conversation the thought of well-known theorists and activists, including Hannah Arendt, Karl Marx, G. W. F. Hegel, Osama bin Laden, Sigmund Freud, Frantz Fanon, Thomas Hobbes, and Pierre Bourdieu. The volume proceeds from the editors' contention that violence is always historically

contingent; it must be contextualized to be understood. They argue that violence is a process rather than a discrete product. It is intrinsic to the human condition, an inescapable fact of life that can be channeled and reckoned with but never completely suppressed. Above all, they seek to illuminate the relationship between action and knowledge about violence, and to examine how one might speak about violence without replicating or perpetuating it. *On Violence* is divided into five sections. Underscoring the connection between violence and economic world orders, the first section explores the dialectical relationship between domination and subordination. The second section brings together pieces by political actors who spoke about the tension between violence and nonviolence—Gandhi, Hitler, and Malcolm X—and by critics who have commented on that tension. The third grouping examines institutional faces of violence—familial, legal, and religious—while the fourth reflects on state violence. With a focus on issues of representation, the final section includes pieces on the relationship between violence and art, stories, and the media. The editors' introduction to each section highlights the significant theoretical points raised and the interconnections between the essays. Brief introductions to individual selections provide information about the authors and their particular contributions to theories of violence. With selections by: Hannah Arendt, Walter Benjamin, Osama bin Laden, Pierre Bourdieu, André Breton, James Cone, Robert M. Cover, Gilles Deleuze, Friedrich Engels, Frantz Fanon, Michel Foucault, Sigmund Freud, Mohandas Gandhi, René Girard, Linda Gordon, Antonio Gramsci, Félix Guattari, G. W. F. Hegel, Adolf Hitler, Thomas Hobbes, Bruce B. Lawrence, Elliott Leyton,

Catharine MacKinnon, Malcolm X, Dorothy Martin, Karl Marx, Chandra Muzaffar, James C. Scott, Kristine Stiles, Michael Taussig, Leon Trotsky, Simone Weil, Sharon Welch, Raymond Williams
Power, Judgment and Political Evil Random House

Few thinkers have addressed the political horrors and ethical complexities of the twentieth century with the insight and passionate intellectual integrity of Hannah Arendt. She was irresistibly drawn to the activity of understanding, in an effort to endow historic, political, and cultural events with meaning. *Essays in Understanding* assembles many of Arendt's writings from the 1930s, 1940s, and into the 1950s. Included here are illuminating discussions of St. Augustine, existentialism, Kafka, and Kierkegaard: relatively early examinations of Nazism, responsibility and guilt, and the place of religion in the modern world: and her later investigations into the nature of totalitarianism that Arendt set down after *The Origins of Totalitarianism* was published in 1951. The body of work gathered in this volume gives us a remarkable portrait of Arendt's developments as a thinker—and confirms why her ideas and judgments remain as provocative and seminal today as they were when she first set them down.

INCONCEIVABLE EFFECTS

Penguin

The author's final work, presented in a one-volume edition, is a rich, challenging analysis of man's mental activity, considered in terms of thinking, willing, and judging. Edited by Mary McCarthy; Indices.

Reflections on Literature and Culture Schocken

An account of the origins of violence, its consequences, its uses, and the relationship between violence and democracy.

The Force of Nonviolence Cambridge University Press

Politics affects us all and the same questions reverberate across history. Who should rule? Is property theft? What's mightier - the bullet or the ballot? Discover 80 of the world's greatest thinkers and their political big ideas that continue to shape our lives today. Humankind has always asked profound questions about how we can best govern ourselves and how rulers should behave. The *Politics Book* charts the development of long-running themes, such as attitudes to democracy and violence, developed by thinkers from Confucius in ancient China to Mahatma Gandhi in 20th-century India. Justice goes hand in hand with politics, and in this comprehensive guide, you can explore the championing of people's rights from the Magna Carta to Thomas Jefferson's Bill of Rights and Malcolm X's call to arms. Ideologies inevitably clash and *The Politics Book* takes you through the big ideas such as capitalism, communism, and fascism exploring their beginnings and social contexts in step-by-step diagrams and illustrations, with clear explanations that cut through the jargon. Filled with thought-provoking quotes from great thinkers such as Nietzsche, Karl Marx, and Mao Zedong, *The Politics Book* is a thought-provoking and unmissable read for both students and everyone interested in how the world of government and power works. Series Overview: *Big Ideas Simply Explained* series uses creative design and innovative graphics along with straightforward and engaging writing to make complex subjects easier to understand. With over 7 million copies worldwide sold to date, these award-winning books provide just the information needed for students,

families, or anyone interested in concise, thought-provoking refreshers on a single subject.
