Huxley's story shows a futuristic World State where all emotion, love, art, and human individuality have been replaced by social stability. An ominous warning to the world's population, this literary classic is a must-read. *Brave New World* Penguin UK  
Three brothers and their

relations in 19th century Russia provide the base for a sweeping epic overview of human striving, folly and hope. First published in 1880, *The Brothers Karamazov* is a landmark work in every respect. Revolving around shiftless father Fyodor Pavlovich Karamazov are the fates of his three sons, each of whom has fortunes entwined with the others. The eldest son, Dimitri, seeks an inheritance from his father and becomes his rival in love. Ivan, the second son, is so at odds

with the world that he is driven near to madness, while the youngest, Alexi, is a man of faith and a natural optimist. These personalities are drawn out and tested in a crucible of conflict and emotion as the author forces upon them fundamental questions of morality, faith, reason and responsibility. This charged situation is pushed to its limit by the addition of the unthinkable, murder and possible patricide. Using shifting viewpoints and delving into the minds of

his characters, Dostoevsky adopted fresh techniques to tell his wide-reaching story with power and startling effectiveness. The Brothers Karamazov remains one of the most respected and celebrated novels in all literature and continues to reward readers beyond expectation. With an eye-catching new cover, and professionally typeset manuscript, this edition of The Brothers Karamazov is both modern and readable.

The astonishing novel

Brave New World, originally published in 1932, presents Aldous Huxley's vision of the future -- of a world utterly transformed. Through the most efficient scientific and psychological engineering, people are genetically designed to be passive and therefore consistently useful to the ruling class. This powerful work of speculative fiction sheds a blazing critical light on the present and is considered to be Aldous Huxley's most enduring masterpiece. The nonfiction work Brave

New World Revisited, first published in 1958, is a fascinating work in which Huxley uses his tremendous knowledge of human relations to compare the modern-day world with his prophetic fantasy envisioned in Brave New World, including the threats to humanity, such as overpopulation, propaganda, and chemical persuasion.

A gripping biography by the author of Brave New World The life of Father Joseph, Cardinal Richelieu's aide, was a shocking paradox. After spending his days directing operations on the battlefield, Father Joseph would pass the night in prayer, or in composing spiritual guidance for the nuns in his care. He was an aspirant to sainthood and a practising mystic, yet

his ruthless exercise of power succeeded in prolonging the unspeakable horrors of the Thirty Years' War. In his masterful biography, Huxley explores how an intensely religious man could lead such a life and how he reconciled the seemingly opposing moral systems of religion and politics.

*South Africa's Brave New World* Cambridge English  
'I beg as soon as you get Fielding's Joseph Andrews, I fear in Ridicule of your Pamela and of Virtue in the Notion of Don

Quixote's Manner, you would send it to me by the very first Coach.' (George Cheyne in a letter to Samuel Richardson, February 1742) Both Joseph Andrews (1742) and Shamela (1741) were prompted by the success of Richardson's Pamela (1740), of which Shamela is a splendidly bawdy parody. But in Shamela Fielding also demonstrates his concern for the corruption of contemporary society, politics, religion, morality, and taste. The same themes - together with a

presentation of love as charity, as friendship, and in its sexual taste - are present in Joseph Andrews, Fielding's first novel. It is a work of considerable literary sophistication and satirical verve, but its appeal lies also in its spirit of comic affirmation, epitomized in the celebrated character of Parson Adams. This revised and expanded edition follows the text of Joseph Andrews established by Martin C. Battestin for the definitive Wesleyan Edition of

Fielding's works. The text of Shamela is based on the first edition, and two substantial appendices reprint the preliminary matter from Conyers Middleton's Life of Cicero and the second edition of Richardson's Pamela (both closely parodied in Shamela). A new introduction by Thomas Keymer situates Fielding's works in their critical and historical contexts. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around

the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

When Aldous Huxley's

Brave New World first appeared in 1932, it presented in terms of purest fantasy a society bent on self-destruction. Few of its outraged critics anticipated the onset of another world war with its Holocaust and atomic ruin. In 1948, seeing that the probable shape of his anti-utopia had been altered inevitably by the facts of history, Huxley wrote Ape and Essence. In this savage novel, using the form of a film scenario, he transports us to the year 2108. The setting is Los Angeles

where a "rediscovery expedition" from New Zealand is trying to make sense of what is left. From chief botanist Alfred Poole we learn, to our dismay, about the twenty-second-century way of life. "It was inevitable that Mr. Huxley should have written this book: one could almost have seen it since Hiroshima is the necessary sequel to Brave New World."—Alfred Kazin. "The book has a certain awesome impressiveness; its sheer intractable bitterness cannot but affect the

reader."—Time.

Yevgeny Zamyatin's *We* is set in an urban glass city called OneState, regulated by spies and secret police. Citizens of the tyrannical OneState wear identical clothing and are distinguished only by the number assigned to them at birth. The story follows a man called D-503, who dangerously begins to veer from the 'norms' of society after meeting I-330, a woman who defies the rules. D-503 soon finds himself caught up in a secret plan to destroy OneState and liberate the city. The

failed utopia of *We* has been compared to the works of H.G. Wells, George Orwell, and Aldous Huxley. It was the first novel banned by the Soviets in 1921, and was finally published in its home country over a half-century later. *We* is a part of Momentum's Classic Science Fiction series.  Aldous Huxley's prophetic novel of ideas warned of a

terrible future then 600 years away. Though *Brave New World* was published less than a century ago in 1932, many elements of the novel's dystopic future now seem an eerily familiar part of life in the 21st century. These essays analyze the influence of *Brave New World* as a literary and philosophical document and describe how Huxley forecast the problems of late capitalism. Topics include the anti-utopian ideals represented by the rigid caste system depicted, the novel's

influence on the philosophy of “culture industry” philosophers Max Horkheimer and Theodor Adorno, the Nietzschean birth of tragedy in the novel’s penultimate scene, and the relationship of the novel to other dystopian works.

Could drugs offer a new way of seeing the world? In 1953, in the presence of an investigator, Aldous Huxley took four-tenths of a gramme of mescaline, sat down and waited to see what would happen. When he opened his eyes everything, from the flowers in a vase to the

creases in his trousers, was transformed. His account of his experience, and his vision for all that psychedelics could offer to mankind, has influenced writers, artists and thinkers around the world. What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read Amusing Ourselves to Death, but his ascent would not have surprised Postman." -CNN

Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism,

education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, The Washington Post Book World

Amanda Leduc's brilliant new novel, woven with fairy tales of her own devising and replete with both catastrophe and magic, is a vision of what happens when we ignore the natural world and the darker parts of our own natures. Heather is sleeping peacefully after the birth of her twin daughters when the sound of the world ending jolts her awake. Stumbling outside with her babies and her new husband, Brendan, she finds that their city has been destroyed by falling

meteors and that her little family are among only a few who survived. But the mountain that looms over the city is still green-- somehow it has been spared the destruction that has brought humanity to the brink of extinction. Heather is one of the few who know the mountain, a place city-dwellers have always been forbidden to go. Her dad took her up the mountain when she was a child on a misguided quest to heal her legs, damaged at birth. The tragedy that resulted has

shaped her life, bringing her both great sorrow and an undying connection to the deep magic of the mountain, made real by the beings she and her dad encountered that day: Estajfan, a centaur born of sorrow and of an ancient, impossible love, and his two siblings, marooned between the magical and the human world. Even as those in the city around her--led

by Tasha, a charismatic doctor who fled to the city from the coast with her wife and other refugees--struggle to keep everyone alive, Heather constantly looks to the mountain, drawn by love, by fear, by the desire for rescue. She is torn in two by her awareness of what unleashed the meteor shower and what is coming for the few

survivors, once the green and living earth makes a final reckoning of the usefulness of human life and finds it wanting. At times devastating, but ultimately redemptive, Amanda Leduc's fable for our uncertain times reminds us that the most important things in life aren't things at all, but rather the people we want by our side at the end of the world.
