LAYLAH DUDLEY

A Sociolinguistic History of British English Lexicography London : Library Association Pub.

This book provides an edition, translation and commentary of the three apocryphal gospels of Mary written in Old English.

A Newspaper of British and Foreign Literature Routledge
Tsarist Russia's commercial class is today receiving serious attention from both Russian and non-Russian historians. This book is a contribution to that literature. *Commerce in Russian Urban Culture, 1861-1914* examines the relation between the entrepreneurial world, especially business and banking, and the cultural milieu of Russia. Going beyond the commercial-cultural connection of charitable activity, the contributors to this collaborative project also study cultural activity undertaken by enterprises for their own purposes, notably bank and commercial architecture. "Culture and commerce" encompasses two areas in this volume. The first is the business milieu itself as a social and cultural phenomenon. Class and social stratification, types of entrepreneurs, and their mentality, religious affiliations, and charitable activities and donations are covered. The second is their impact on the form of cities, including not only Moscow and St. Petersburg but Odessa and Nizhnii Novgorod. Banks,

insurance companies, and large commercial firms reshaped Russian cities with the construction of buildings for their own operations and retail shops, stock exchanges, mansions, and public buildings. This book is based on a project of the Kennan Institute for Advanced Russian Studies at the Woodrow Wilson International Center for Scholars.

The Anglo-American Paper War OUP Oxford

A one volume encyclopedic reference work on Iran (Persia) concerning the history, society, culture, religion, government structure, geography, and climate of the nation and its people.

Debates about the New Republic, 1800-1825 Private and Civil Law in the Russian Federation

Across the Borders explores the transnational history of railway economics in the nineteenth and twentieth centuries. It is the first systematic historical investigation into the world-wide system of railway financing, providing a wide introduction to how financiers, governments and entrepreneurs in Europe managed to face the challenges of constructing and maintaining a railway network that met national and international needs. With contributions from authors from 19 countries, the volume is truly an international work that will be of interest to academic researchers, museum staff, archivists, and anyone who has an interest in the history and development of railways.

Dictionary of London 1897-1898 (nineteenth Years) Ashgate Publishing, Ltd.

All languages are characterized by the regular cooccurrence of certain words; for example, we say in English, tall building but high mountain. These recurrent combinations or collocations are peculiar to each individual language and cannot be predicted by a learner of that language. There are thousands of striking collocational differences between English and Russian, which are of vital importance to language learners and translators. The REDVC lists Russian verbal collocations and translates them into English. Whenever possible, corresponding English collocations are used in the translations. The REDVC lists grammatical collocations (verb + prep., verb + specific case(s)), lexical collocations (verb + adverb) and various types of miscellaneous verbal phrases, including important idioms and figurative expressions. The REDVC makes every effort to describe contemporary Russian, and a large number of illustrative examples were taken from the current Russian press. However, to provide an adequate description of the Russian used during the Soviet era, some obsolete political expressions are included as well. This dictionary is intended for English-speaking learners of Russian and Russian-speaking learners of English, both at intermediate and advanced level. It will also prove indispensable to translators of both languages.

Bibliographic Guide to Slavic, Baltic, and Eurasian Studies
Leamington Spa, Warwickshire : Berg

The Russo-Japanese War was fought for 19 months (8 February 1904– 5 September 1905) between the empires of Japan and the Russia over the southern part of Manchuria and the Korean Peninsula. While essentially a colonial conflict, the war became a major engagement both in scale and innovation unseen until then. In recent years there has been a growing awareness that this event marks a historical juncture far more important than it was usually taken to be. This second edition of the Historical Dictionary of the Russo-Japanese War offers a major revision of the highly praised first edition, which, by all accounts, has been the standard work on this conflict in any language during the last decade. The book contains a chronology, an introduction, appendixes, and an extensive bibliography. Moreover, the dictionary section has some 800 new or fully revised cross-referenced entries on the battles, weaponry, and major personalities of the war, as well as various international events and conflicts, agreements, schemes, and projects that led to the war. This book is an excellent resource for students, researchers, and anyone wanting to know more about the Russo-Japanese War.

CATALOG OF THE WESTERN LANGUAGE COLLECTIONS

LIT Verlag Münster

A Victorian guidebook which captures the atmosphere of London. The churches, railway stations, banks, theatres and sporting facilities are all detailed. Tips on social behaviour are also provided, including advice on hiring servants and how to cope with milk contaminated with diphtheria and typhoid.

THE NATIONAL UNION CATALOG, PRE-1956 IMPRINTS

Scarecrow Press

This glossary draws from over 300 languages to provide a glimpse into how ancient as well as current place names have originated. Perfect for the student of geography as well as the casual etymologist, the International Glossary of Place Name Elements supplies the reader with comprehensive entries that cite examples of the use of many elements, as well as the language of origin and the English equivalent. From Afrikaans to Zuni, this reference work has been painstakingly researched and will prove an invaluable tool to everyone from the high school geography teacher to advance onomasticians.

A Sociolinguistic History of British English Lexicography traces the evolution of British English dictionaries from their earliest roots to the end of the 20th century by adopting both sociolinguistic and lexicographical perspectives. It attempts to break out of the limits of the dictionary-ontology paradigm and set British English dictionary-making and research against a broader background of socio-cultural observations, thus relating the development of English lexicography to changes in English, accomplishments in English linguistics, social and cultural progress, and advances in science and technology. It unfolds a vivid, coherent and complete picture of how English dictionary-making develops from its archetype to the prescriptive, the historical, the descriptive and finally to the cognitive model, how it interrelates to the course of the development of a nation's culture and the historical growth of its lexicographical culture, as well as how English lexicography spreads from British English to other major regional varieties through inheritance, innovation and self-perfection. This volume will be of interest to students and academics of English lexicography, English linguistics and world English lexicography.

Oxford Dictionary of National Biography: Cranfield-Dalwood

Woodrow Wilson Center Press

A Russian-English dictionary intended to supplement existing bilingual dictionaries. It includes words not included in standard works, as well as additional (usually new) meanings for existing words.

HISTORICAL DICTIONARY OF THE RUSSO-JAPANESE WAR

Rowman & Littlefield

In this thoroughly researched account, Mansour Bonakdarian provides an in-depth exploration of the substantial British support for the Iranian constitutional and national struggle of 1906-1911, illuminating the opposition in Britain to Anglo-Russian imperialist intervention in Iran. In painstaking and compelling detail Bonakdarian analyzes, in particular, the role of the Persia Committee, a lobbying group founded in 1908 for the sole purpose of changing Britain's policy toward Iran. This book's strength lies in its coverage of how Sir Edward Grey's policy toward Iran was shaped and the extent to which this policy was affected by sustained criticism from a number of disparate groups including dissenters, radicals, socialists, liberal imperialists, and conservatives. The volume and breadth of primary archival materials used is extensive. Not only have all the standard collections been examined, such as the Foreign Office files and the Cabinet and Grey papers, but also numerous private archives in international libraries have been consulted. Bonakdarian's deep understanding of the Iranian issues yields a rich and balanced approach to the literature in the field. With clear and systematic arguments, he offers an account of diplomatic history that is accessible and persuasive. His scholarship is certain to reinvigorate dialogue on the subject of

Anglo-Iranian relations.

Includes entries for maps and atlases.

World guide to terminological activities Lulu.com

The Paper War and the Development of Anglo-American Nationalisms, 1800-1825 offers fresh insight into the evolution of British and American nationalisms, the maturation of apologetics for slavery, and the early development of anti-Americanism, from approximately 1800 to 1830.

The Apocryphal Gospels of Mary in Anglo-Saxon England
Routledge

Russia's "Economic Constitution" - its Civil Code - establishes crucial rules for post-Soviet society: freedom of contract and from arbitrary state interference are only two examples. In this volume, distinguished Russian and foreign scholars and practitioners examine post-Soviet changes in Russian private law and their impact upon law and society.

INTERNATIONAL BANKING IN THE 19TH AND 20TH CENTURIES

Walter de Gruyter

Based on American rather than British English, this is among the first Russian dictionaries revised for the post-Soviet era. Includes new political terminology, new Russian institutions, new countries and republics and new city names. Contains 26,000 entries in the English-Russian section and 40,000 words in the Russian-English section. Irregularities in Russian declensions and conjugations appear at the beginning of each entry.

Coast Banker Wiley

These substantial volumes present the fullest account yet published of the lexicography of English from its origins in

medieval glosses, through its rapid development in the eighteenth century, to a fully-established high-tech industry that is as reliant as ever on learning and scholarship. The history covers dictionaries of English and its national varieties, including American English, with numerous references to developments in Europe and elsewhere which have influenced the course of English lexicography. Part one of Volume I explores the early development of glosses and bilingual and multilingual dictionaries and examines their influence on lexicographical methods and ideas. Part two presents a systematic history of monolingual dictionaries of English and includes extensive chapters on Johnson, Webster and his successors in the USA, and the OED. It also contains descriptions of the development of dictionaries of national and regional varieties, and of Old and Middle English, and concludes with an account of the computerization of the OED. The specialized dictionaries described in Volume II include dictionaries of science, dialects, synonyms, etymology, pronunciation, slang and cant, quotations, phraseology, and personal and place names. This volume also includes an account of the inception and development of dictionaries developed for particular users, especially foreign learners of English. The Oxford History of English Lexicography unites scholarship with readability. It provides a unique and accessible reference for scholars and professional lexicographers and offers a series of fascinating encounters with the men and women involved over the centuries in the making of works of profound national and linguistic importance.

Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion Cambridge University Press
55,000 biographies of people who shaped the history of the British Isles and beyond, from the earliest times to the year 2002.
