Ibrahim is a young Muslim guy walking from Cardiff to London. He has his own reasons, and his own mental and physical struggles to deal with along the way. What he hadn't counted on was a chance meeting with 75-year-old East Londoner Reenie before he's hardly started. With her life's luggage in a shopping

trolley, complete with an orange tent and her pet cockatiel, Reenie is also walking the M4, and not for charity. As they share a journey their paths stretch out before and behind them into the personal and political turns of European history in ways neither could have foreseen. An impressive and daringly human book from novelist David Llewellyn.

Pluriverse Human Rights Watch

From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy

was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalised era. This

was true not only in an economic sense—the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system—but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the

Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-

style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the

first modern theories of price, value and money, Cervantes was writing Don Quixote, Velázquez was painting Las Meninas, or Goya was exposing both the dark and bright sides of the European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when

we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much

longer span of time.

FREEDOM IN THE WORLD 2005

Tulika Books

Mexican drug trafficking organizations (DTOs) pose the greatest crime threat to the United States and have "the greatest drug trafficking influence," according to the annual U.S. Drug Enforcement Administration's (DEA's) National Drug Threat Assessment. These organizations work across the Western Hemisphere and globally. They are involved in extensive

money laundering, bribery, gun trafficking, and corruption, and they cause Mexico's homicide rates to spike. They produce and traffic illicit drugs into the United States, including heroin, methamphetamine, marijuana, and powerful synthetic opioids such as fentanyl, and they traffic South American cocaine. Over the past decade, Congress has held numerous hearings addressing violence in Mexico, U.S. counternarcotics assistance, and border

security issues. Mexican DTO activities significantly affect the security of both the United States and Mexico. As Mexico's DTOs expanded their control of the opioids market, U.S. overdoses rose sharply to a record level in 2017, with more than half of the 72,000 overdose deaths (47,000) involving opioids. Although preliminary 2018 data indicate a slight decline in overdose deaths, many analysts believe trafficking continues to evolve toward opioids. The major Mexican DTOs, also

referred to as transnational criminal organizations (TCOs), have continued to diversify into such crimes as human smuggling and oil theft while increasing their lucrative business in opioid supply. According to the Mexican government's latest estimates, illegally siphoned oil from Mexico's state-owned oil company costs the government about \$3 billion annually. Mexico's DTOs have been in constant flux. In 2006, four DTOs were dominant: the Tijuana/Arellano Felix

organization (AFO), the Sinaloa Cartel, the Juárez/Vicente Carrillo Fuentes Organization (CFO), and the Gulf Cartel. Government operations to eliminate DTO leadership sparked organizational changes, which increased instability among the groups and violence. Over the next dozen years, Mexico's large and comparatively more stable DTOs fragmented, creating at first seven major groups, and then nine, which are briefly described in this report. The DEA has identified

those nine organizations as Sinaloa, Los Zetas, Tijuana/AFO, Juárez/CFO, Beltrán Leyva, Gulf, La Familia Michoacana, the Knights Templar, and Cartel Jalisco-New Generation (CJNG). In mid-2019, leader of the long-dominant Sinaloa Cartel, Joaquin ("El Chapo") Guzmán, was sentenced to life in a maximum-security U.S. prison, spurring further fracturing of a once hegemonic DTO. By some accounts, a direct effect of this fragmentation has been escalated levels of

violence. Mexico's intentional homicide rate reached new records in 2017 and 2018. In 2019, Mexico's national public security system reported more than 17,000 homicides between January and June, setting a new record. In the last months of 2019, several fragments of formerly cohesive cartels conducted flagrant acts of violence. For some Members of Congress, this situation has increased concern about a policy of returning Central American migrants to

cities across the border in Mexico to await their U.S. asylum hearings in areas with some of Mexico's highest homicide rates. Mexican President Andrés Manuel López Obrador, elected in a landslide in July 2018, campaigned on fighting corruption and finding new ways to combat crime, including the drug trade. According to some analysts, challenges for López Obrador since his inauguration include a persistently ad hoc approach to security; the absence of strategic and

tactical intelligence concerning an increasingly fragmented, multipolar, and opaque criminal market; and endemic corruption of Mexico's judicial and law enforcement systems. In December 2019, Genero Garcia Luna, a former top security minister under the Felipe Calderón Administration (2006-2012), was arrested in the United States on charges he had taken enormous bribes from the Sinaloa Cartel. *The Black Diamond* Springer Science &

Business Media Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and

track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of

sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious

composition, or level of economic development. Freedom House is a nonprofit, nonpartisan organization that supports democratic change, monitors freedom, and advocates for democracy and human rights.

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about

the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private

choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more

successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. “A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically

rigorous and learned, practical and commonsensical.” -- William J. Bennett, author of *The Book of Virtues* “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- *The Wall Street Journal* www.broadwaybooks.com

COUNTRY REPORTS ON HUMAN RIGHTS PRACTICES FOR 2005

Verso Books
Winner of the 2012 Hillman Prize in Book Journalism. In its heyday,

the United Farm Workers was an embodiment of its slogan “Yes, we can”—in the form “¡Sí, Se Puede!”—winning many labor victories, securing collective bargaining rights for farm workers, and becoming a major voice for the Latino community. Today, it is a mere shadow of its former self. *Trampling Out the Vintage* is the authoritative and award-winning account of the rise and fall of the United Farm Workers and its most famous and controversial leader,

Cesar Chavez. Based on interviews conducted over many years—with farm workers, organizers, and the opponents and friends of the UFW—the book tells a story of collective action and empowerment rich in evocative detail and stirring human interest. Beginning with the influence of the ideas of Saul Alinsky and Catholic Social Action at the union's founding, through the UFW's thrilling triumphs in the California fields, the drama concludes with the debilitating internal

struggles that effectively crippled the union. A vivid rendering of farm work and the world of the farm worker, *Trampling Out the Vintage* is a dramatic reappraisal of the political trajectory of Cesar Chavez and the United Farm Workers and an essential re-evaluation of their most tumultuous years.

THE DEATH-BOUND-SUBJECT

Harvard University Press
What induced the British to adopt foreign coffee-drinking customs in the seventeenth century?

Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer

revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own

invention.

Reports of Cases Argued and Determined in the Court of Claims of the State of Illinois Orion

This pathbreaking study examines the radical Left in Puerto Rico from the final years of Spanish colonial rule into the 1920s. Positioning Puerto Rico within the context of a regional anarchist network that stretched from Puerto Rico and Cuba to Tampa, Florida, and New York City, Kirwin R. Shaffer illustrates how anarchists linked their

struggle to the broader international anarchist struggles against religion, governments, and industrial capitalism. Their groups, speeches, and press accounts--as well as the newspapers that they published--were central in helping to develop an anarchist vision for Puerto Ricans at a time when the island was a political no-man's-land, neither an official U.S. colony or state nor an independent country. Exploring the rise of artisan and worker-based centers to develop class consciousness,

Shaffer follows the island's anarchists as they cautiously joined the AFL-linked Federación Libre de Trabajadores, the largest labor organization in Puerto Rico. Critiquing the union from within, anarchists worked with reformers while continuing to pursue a more radical agenda achieved by direct action rather than parliamentary politics. Shaffer also traces anarchists' alliances with freethinkers seeking to reform education, progressive factions engaged in

attacking the Church and organized religion, and the emerging Socialist movement on the island in the 1910s. The most successful anarchist organization to emerge in Puerto Rico, the Bayamón bloc founded El Comunista, the longest-running, most financially successful anarchist newspaper in the island's history. Stridently attacking U.S. militarism and interventionism in the Caribbean Basin, the newspaper found growing distribution throughout and financial backing from

Spanish-speaking anarchist groups in the United States. Shaffer demonstrates how the U.S. government targeted the Bayamón anarchists during the Red Scare and forced the closure of their newspaper in 1921, effectively unraveling the anarchist movement on the island.

 This is a collection of over

a hundred essays on alternatives to the dominant processes of globalized development, including its structural roots in modernity, capitalism, state domination, and masculinist values. The book presents views and practices from around the world in a collective search for an ecologically and socially just world.

Annual Report Yale University Press

In 1968, ten thousand students marched in protest over the terrible conditions prevalent in

the high schools of East Los Angeles, the largest Mexican community in the United States. Chanting Chicano Power, the young insurgents not only demanded change but heralded a new racial politics. Frustrated with the previous generation's efforts to win equal treatment by portraying themselves as racially white, the Chicano protesters demanded justice as proud members of a brown race. The legacy of this fundamental shift continues to this day. Ian

Haney Lopez tells the compelling story of the Chicano movement in Los Angeles by following two criminal trials, including one arising from the student walkouts. He demonstrates how racial prejudice led to police brutality and judicial discrimination that in turn spurred Chicano militancy. He also shows that legal violence helped to convince Chicano activists that they were nonwhite, thereby encouraging their use of racial ideas to redefine their aspirations, culture,

and selves. In a groundbreaking advance that further connects legal racism and racial politics, Haney Lopez describes how race functions as common sense, a set of ideas that we take for granted in our daily lives. This racial common sense, Haney Lopez argues, largely explains why racism and racial affiliation persist today. By tracing the fluid position of Mexican Americans on the divide between white and nonwhite, describing the role of legal violence in

producing racial identities, and detailing the commonsense nature of race, Haney Lopez offers a much needed, potentially liberating way to rethink race in the United States. Prime Witness Duke University Press
A legal thriller from the New York Times bestselling author of the Paul Madriani series. It started with a series of bizarre double murders. It led to the arrest of one prime suspect. And it sparked the most explosive trial in a

lawyer's career. Paul Madriani knows that the man he's persecuting is guilty. But one disturbing fact could destroy the case . . . He may not be the only killer.

Millvy the cat travels to Fiji to find the iguana who stole his tail.

The Area of Freedom, Security and Justice Ten Years on Seren

This book celebrates the tenth anniversary of the Area of Freedom, Security

and Justice (AFSJ) by bringing together the views of key practitioners and policy-makers who have played an outstanding role in thinking about and shaping EU policies on freedom, security and justice. Ten years ago, the member states transferred competences to the EU for law and policy-making in the fields of immigration, asylum and border controls, and began the transfer process for criminal justice and policing. This decade of European

cooperation on AFSJ policies has experienced very dynamic convergence, the enactment of a large body of European law and the setting-up of numerous EU agencies working in these domains. Such dynamism in policy-making has not been without challenges and vulnerabilities, however. As this collective volume shows, the main dilemmas that lie ahead relate to an effective (while more plural) institutional framework under the Treaty of

Lisbon, stronger judicial scrutiny through a greater role for national courts and the Court of Justice in Luxembourg, better mechanisms for evaluating and monitoring the implementation of EU AFSJ law and a more solid fundamental rights strategy. The contributions in this volume address the progress achieved so far in these policy areas, identify the challenges for future European cooperation in the AFSJ and put forward possible paths for making more

progress in the next generation of the EU's AFSJ. Book jacket.

THE HIGH HISTORY OF THE HOLY GRAAL

BoD - Books on Demand
The inside story of Hugo Chavez's rule and complex legacy Few leaders in our time have been as divisive and enigmatic as the late Hugo Chavez. In Comandante, acclaimed journalist Rory Carroll tells the inside story of Chavez's life, his time as Venezuela's president, and his legacy. Based on

interviews with ministers, aides, courtiers, and citizens, this intimate piece of reportage chronicles a unique experiment in power that veers among enlightenment, tyranny, comedy, and farce. Carroll also investigates the almost religious devotion of millions of Venezuelans who regarded Chavez as a savior and the loathing of those who branded him as a dictator. In beautiful prose that blends the lyricism and strangeness of magical realism with the brutal, ugly truth of

authoritarianism, Comandante offers a cautionary tale for our times.

Corrupt Illinois Penguin Publisher's description: In a trial in California, Navajo defendants argue that using the hallucinogen peyote to achieve spiritual exaltation is protected by the Constitution's free exercise of religion clause, trumping the states' right to regulate them. An Ibo man from Nigeria sues Pan American World Airways for transporting his mother's corpse in a cloth

sack. Her arrival for the funeral face down in a burlap bag signifies death by suicide according to the customs of her Ibo kin, and brings great shame to the son. In Los Angeles, two Cambodian men are prosecuted for attempting to eat a four month-old puppy. The immigrants' lawyers argue that the men were following their own "national customs" and do not realize their conduct is offensive to "American sensibilities." What is the just decision in each case? When cultural

practices come into conflict with the law is it legitimate to take culture into account? Is there room in modern legal systems for a cultural defense? In this remarkable book, Alison Dundes Renteln amasses hundreds of cases from the U.S. and around the world in which cultural issues take center stage- from the mundane to the bizarre, from drugs to death. Though cultural practices vary dramatically, Renteln demonstrates that there are discernible patterns to

the cultural arguments used in the courtroom. The regularities she uncovers offer judges a starting point for creating a body of law that takes culture into account. Renteln contends that a systematic treatment of culture in law is not only possible, but ultimately more equitable. A just pluralistic society requires a legal system that can assess diverse motivations and can recognize the key role that culture plays in influencing human behavior. The inclusion of

evidence of cultural background is necessary for the fair hearing of a case.
