Latin Literature The Death of VirgilDuring the last eighteen hours of his life, the Roman poet, Virgil, debates destroying the manuscript of his poem, the AeneidVirgil, Aeneid 11 (Pallas & Camilla), 1–224, 498–521, 532–96, 648–89, 725–835.Latin Text, Study Aids with Vocabulary, and Commentary Hermann Broch (1886-1951) is best known for his two major modernist works, *The Sleepwalkers* (3 vols., 1930-1932) and *The Death of Virgil* (1945), which frame a lifetime of ethical, cultural, political, and social thought. A textile manufacturer by trade, Broch entered the literary scene late in life with an experimental view of the novel that strove towards totality and vividly depicted Europe's cultural disintegration. As fascism took over and Broch, a Viennese Jew, was forced into exile, his view of literature as transformative was challenged, but his commitment to presenting an ethical view of the crises of his time was unwavering. An important mentor and interlocutor for contemporaries such as Arendt and Canetti as well as a continued inspiration for contemporary authors, Broch wrote to better understand and shape the political and cultural conditions for a postfascist world. This volume covers the major literary works and constitutes the first comprehensive introduction in English to Broch's political, cultural, aesthetic, and philosophical writings. Contributors: Graham Bartram, Brechtje Beuker, Gisela Brude-Firnau, Gwyneth Cliver, Jennifer Jenkins, Kathleen L. Komar, Paul Michael Lützeler, Gunther Martens, Sarah McGaughey, Judith Ryan, Judith Sidler, Galin Tihanov, Sebastian Wogenstein. Graham Bartram retired as Senior Lecturer in German Studies at the University of Lancaster, UK. Sarah McGaughey is Associate Professor of German at Dickinson College, USA. Galin Tihanov is the George Steiner Professor of Comparative Literature at Queen Mary University of London, UK.

HUGO VON HOFMANNSTHAL AND HIS TIME

Princeton University Press

The classic biography of the radical French philosopher with a new afterword by acclaimed Foucault scholar Stuart Elden. When he died of an AIDS-related condition in 1984, Michel Foucault had become the most influential French philosopher since the end of World War II. His powerful studies of

the creation of modern medicine, prisons, psychiatry, and other methods of classification have had a lasting impact on philosophers, historians, critics, and novelists the world over. But as public as he was in his militant campaigns on behalf of prisoners, dissidents, and homosexuals, he shrouded his personal life in mystery. In *The Lives of Michel Foucault* -- written with the full cooperation of Daniel Defert, Foucault's former lover -- David Macey gives the richest account to date of Foucault's life and work, informed as it is by the complex issues arising from his writings. In this new edition, Foucault scholar Stuart Elden has contributed a new afterword assessing the contribution of the biography in the light of more recent literature.

Decorum, Allusion, and Ideology Walter de Gruyter

This searching interpretation of past and present addresses fundamental questions about the fall of the Roman Empire. Why did ancient culture, once so strong and rich, come to an end? Was it destroyed by weaknesses inherent in its nature? Or were mistakes made that could have been avoided-- was there a point at which Greco-Roman society took a wrong turn? And in what ways is modern society different? Western history is split into two discontinuous eras, Aldo Schiavone tells us: the ancient world was fundamentally different from the modern one. He locates the essential difference in a series of economic factors: a slave-based economy, relative lack of mechanization and technology, the dominance of agriculture over urban industry. Also crucial are aspects of the ancient mentality: disdain for manual work, a preference for transcending (rather than transforming) nature, a basic belief in the permanence of limits. Schiavone's lively and provocative examination of the ancient world, "the eternal theater of history and power," offers a stimulating opportunity to view modern society in light of the experience of antiquity.

How is it possible for a poet to find his own individual voice, when he is writing in a tradition so venerable and so constrained by convention as Roman epic? How do poets working in related genres - particularly didactic - conceptualize their relationship to the main epic tradition? The eleven essays in this volume, by leading scholars in the field of Roman poetry and its post-Classical receptions, consider some of the strategies which writers from Lucretius onwards have employed in negotiating their relationship with their literary forebears, and staking out a place for their own work within a tradition stretching back to Hesiod and Homer.

The European Imagination, 1860-1920 John Wiley & Sons

Hermann Broch (1886-1951) is remembered among English-speaking readers for his novels *The Sleepwalkers* and *The Death of Virgil*, and among German-speaking readers for his novels as well as his works on moral and political philosophy, his aesthetic theory, and his varied criticism. This study reveals Broch as a major historian as well, one who believes that true historical understanding requires the faculties of both poet and philosopher. Through an analysis of the changing thought and career of the Austrian poet, librettist, and essayist Hugo von Hofmannsthal (1874-1929), Broch attempts to define and analyze the major intellectual issues of the European fin de siècle, a period that he characterizes according to the Nietzschean concepts of the breakdown of rationality and the loss of a central value system. The result is a major examination of European thought as well as a comparative study of political systems and artistic styles.

J. J. White reexamines the use of myth in fiction in order to bring a new terminological precision into the field. While concentrating on the German novel (Mann, Broch, and Nossack), he discusses the work of Alberto Moravia, John Bowen, Michel Butor, and Macdonald Harris as well, in order to show the modern predilection for myth in whatever national literature. Throughout his discussion, Mr. White delineates carefully his specific subject: the novel in which mythological motifs are used to prefigure events and character—Joyce's *Ulysses* is, of course, the archetypal novel in this tradition. Setting forth his terms, and making clear his use of them, Mr. White then analyzes the wide appeal of the mythological novel for both twentieth-century novelists and critics: he distinguishes four ways in which modern novelists use myth and surveys the range of critical literature on the subject. His concluding chapters are discussions of specific texts in which he differentiates between novels which have a unilinear parallel between myth and plot, novels of "juxtaposition" in which chapters retelling myth parallel modern action, and novels of fusion in which the action of the modern account synthesizes more than one mythic prefiguration of mythological motif. A Commentary Cassell

Offering a testimony to his love of reading and the goal of sharing it with others, author Tibor Schatteles presents a collection of twelve essays that study a wide range of works of literature, including works of Philostratos of Lemnos, Sophocles, Cervantes (*Don Quixote*), Gogol, Chekhov, Balzac (*Gobseck*), Hermann Broch, Robert Musil, James Joyce, Franz Kafka, Marcel Proust and Aristotle's *Poetics*. In these essays, he presents the simple exercises of a reader reaching out to communicate with other readers, building on notes he made during first readings and gathered following his retirement from the Canadian Federal Civil Service. Taking a cue from Montaigne's essay on reading books, he asks nothing of his books but "the pleasure of an honest entertainment" and yet he also seeks to share his ideas with others and engage in discussion and analysis. In *The Mirror of Socrates*, Schatteles examines the seminal works of literature in scholarly details, sharing his thoughts, ideas, and interpretations of each author's writing and purpose.

The Death of Virgil

The Death of Virgil University of Michigan Press

First published in 1988, Peter Hughes explores the work of V. S. Naipaul, and the interplay of fictional and non-fictional patterns in what is his obsessive vision of human life. Hughes shows how Naipaul's narratives pair off histories and novels, travel-writing and psycho-biography, reinforcing one another and Naipaul's vision of 'a world undoing itself' - a world of disorder and fantasy. He includes a reading of Naipaul's texts, usually considered highly traditional, that shows their innovative side, and points out ways that they can be illuminated through modern literary theory. A detailed analysis, this companion to V. S. Naipaul's writing will interest students of modern literature and those with an interest in Naipaul's writing more generally.

Virgil's Homeric Lens reevaluates the traditional view of the *Aeneid's* relationship to Homer's *Iliad* and *Odyssey*. Almost since the death of Virgil, there has been an assumption that the *Aeneid* breaks into two discrete halves: Virgil's *Odyssey*, and Virgil's *Iliad*. Although modified in various ways over the centuries, this neat dichotomy has generally diminished the complexity and resonance of the connection between the two canonical epic poets. This work offers an alternate approach in which Virgil uses the transformative power of the *Odyssey* as a precise filter through which to read the *Iliadic* experience. By examining the ways in which Virgil bases his own epic project on the dynamic interaction between the two Homeric poems themselves, Edan Dekel proposes a system in which the *Aeneid* uses the *Odyssey* both as a conceptual model for writing an intertextual epic and as a powerful refracting lens for the specific interpretation of the *Iliad* and its consequences. The traditional view of the Homeric poems as static sources for the construction of distinct "Odyssean" and "Iliadic" halves of the *Aeneid* is supplanted by an analysis which emphasizes the active and persistent influence of the *Odyssey* as a guide to processing the major thematic concerns of the *Iliad* and exploring the multiple aftermaths of the Trojan war.
