OMB No. 4914302798267 edited by

TRISTIN GRANT

Securing Democracy University of Illinois Press

Democracy is venerated in US political culture, in part because it is our democracy. As a result, we assume that the government and institutions of the United States represent the true and right form of democracy, needed by all. This volume challenges this commonplace belief by putting US politics in the context of the Americas more broadly. Seeking to cultivate conversations among and between the hemispheres, this collection examines local political rhetorics across the Americas. The contributors—scholars of communication from both North and South America—recognize democratic ideals as irreducible to a single national perspective and reflect on the ways social minorities in the Western Hemisphere engage in unique political discourses. Essays consider current rhetorics in the United States on American exceptionalism, immigration, citizenship, and land rights alongside current cultural and political events in Latin America, such as corruption in Guatemala, women's activism in Ciudad Juárez, representation in Venezuela, and media bias in Brazil. Through a survey of these rhetorics, this volume provides a broad analysis of democracy. It highlights institutional and cultural differences in the Americas and presents a hemispheric democracy that is both more pluralistic and more agonistic than what is believed about the system in the United States. In addition to the editors, the contributors include José Cortez, Linsay M.

Cramer, Pamela Flores, Alberto González, Amy N. Heuman, Christa J. Olson, Carlos Piovezani, Clara Eugenia Rojas Blanco, Abraham Romney, René Agustín de los Santos, and Alejandra Vitale.

Sports and Resistance in United States Edward Elgar Publishing

Analysing the politics of the 2012 London Olympics, Stephen Wagg examines the framing of London's bid to host the Games, arguments about the Games' likely impact and the establishment of 'Fortress London' to protect the Games. The book asks who won, and who lost out, in this important event as well as exploring its media coverage and legacy.

The London Olympics of 2012 Brazil's Dance with the DevilThe World Cup, The Olympics, and the Struggle for Democracy

The Olympic Games is unquestionably the largest and most important sporting event in the world. Yet who exactly is accountable for its successes and failures? This book examines the legitimacy and accountability of the International Olympic Committee (IOC). This non-governmental organisation wields extraordinary power, but there is no democratic basis for its authority. This study questions the supremacy of the IOC, arguing that there is a significant accountability deficit. Investigating the conduct of the IOC from an international legal perspective, the book moves beyond a critique of the IOC to explore potential avenues for reform, means of improving democratic procedures and increasing accountability. If the Olympics are to continue to be our most celebrated sporting event, those who organise them must be answerable to the citizens that they can potentially harm as well as benefit. Full of original insights into the inner workings of the

IOC, this book is essential reading for all those interested in the Olympics, sport policy, sport management, sport mega-events, and the law.

Uncertainty, Debates and Controversy University of Toronto Press

In *Whats My Name, Fool?* sports writer Dave Zirin shows how sports express the worst - and at times the most creative, exciting, and political - features of our society. Zirins sharp and insightful commentary on the personalities, politics, and history of American sports is unlike any sports writing being done today. Zirin explores how NBA brawls highlight tensions beyond the arena, how the bold stances taken by sports unions can chart a path for the entire labor movement, and the unexplored political stirrings of a new generation of athletes who are no longer content to just "play one game at a time." *Whats My Name, Fool?* draws on original interviews with former heavyweight champ George Foreman, Olympic athlete John Carlos, NBA player and anti-death penalty activist Etan Thomas, antiwar womens college hoopster Toni Smith, Olympic Project for Human Rights leader Lee Evans and many others. It also unearths a history of athletes ranging from Jackie Robinson to Muhammad Ali to Billie Jean King, who charted a new course through their athletic ability and their outspoken views.

Cinderella Man Haymarket Books

On the eve of the 2014 World Cup, New York Times sports columnist George Vecsey offers a personal perspective on the beautiful game Blending witty travelogue with action on the field—and shady dealings in back rooms—George Vecsey offers an eye-opening, globe-trotting account of the

last eight World Cups. He immerses himself in the great national leagues, historic clubs, and devoted fans and provides his up-close impressions of charismatic stars like Sócrates, Maradona, Baggio, and Zidane, while also chronicling the rise of the U.S. men's and women's teams. Vecsey shows how each host nation has made the World Cup its own, from the all-night street parties in Spain in 1982 to the roar of vuvuzelas in South Africa in 2010, as the game in the stadium is backed up by the game in the street. But the joy is sometimes undermined by those who style themselves the game's protectors. With his characteristic sharp reporting and eye for detail, Vecsey brings this global event to vivid life and has written a perfect companion for the upcoming 2014 World Cup in Brazil.

The John Carlos Story University of Arkansas Press

This book looks at the 1968 Summer Olympic Games as a complex nation-building project. Sports mega-events have been mostly studied as homogenous government-led strategies, but more work is needed around the diverse reception and performances. The preparation period for the Olympics in Mexico and especially the year 1968 highlight the multiplicity of voices behind these exercises. Beyond the government and associated networks, the citizenry also used this mega-event to present an idea of Mexico to the world and thus reshape citizenship and nationhood. This study takes a bottom-up approach to look at the citizenry's experiences of the 1968 Olympic Games, both the shared nationalistic values and the areas of conflict.

OLYMPIC MYTHS, HARD REALITIES

Cambridge University Press

A clear-eyed, critical examination of the social, political, and economic costs of hosting the 2016 summer Olympics. The selection of Rio de Janeiro as the site of the summer 2016 Olympic Games set off jubilant celebrations in Brazil—and created enormous expectations for economic development and the advancement of Brazil as a major player on the world stage. Although the games were held without major incident, the economic, environmental, political, and social outcomes for Brazil ranged from disappointing to devastating. Corruption scandals trimmed the fat profits that many local real estate developers had envisioned, and the local government was driven into bankruptcy. At the other end of the economic spectrum, some 77,000 residents of Rio's poorest neighborhoods—the favelas—were evicted and forced to move, in many cases as far as 20 or 30 miles to the west. Hosting the games ultimately cost Brazil \$20 billion, with little positive to show for the investment. Rio 2016 assembles the views of leading experts on Brazil and the Olympics into a clear-eyed assessment of the impact of the games on Brazil in general and on the lives of Cariocas, as Rio's residents are known. Edited by sports economist Andrew Zimbalist, the other contributors include Juliana Barbassa, Jules Boykoff, Jamil Chade, Stephen Essex, Renata Latuf, and Theresa Williamson.

GAME OVER

Haymarket Books

In 2019, award-winning journalist Glenn Greenwald writes in this gripping new book, "a series of events commenced that once again placed me at the heart of a sustained and explosive journalistic controversy." New reporting by Greenwald and his team of Brazilian journalists brought to light stunning information about grave corruption, deceit, and wrongdoing by the most powerful political actors in Brazil, his home since 2005. These stories, based on a massive trove of previously undisclosed telephone calls, audio, and text shared by an anonymous source, came to light only months after the January 2019 inauguration of Brazil's far-right president, Jair Bolsonaro, an ally of President Trump. The revelations "had an explosive impact on Brazilian politics" (The Guardian) and prompted serious rancor, including direct attacks by President Bolsonaro himself, and ultimately an attempt by the government to criminally prosecute Greenwald for his reporting. "A wave of death threats—in a country where political violence is commonplace—have poured in, preventing me from ever leaving my house for any reason without armed guards and an armored vehicle," Greenwald writes. Securing Democracy takes readers on a fascinating ride through Brazilian politics as Greenwald, his husband, the left-wing Congressman David Miranda, and a powerful opposition movement courageously challenge political corruption, homophobia, and tyranny. While coming at serious personal costs for himself and his family, Greenwald writes, "I have no doubt at all that the revelations we were able to bring to the public strengthened Brazilian democracy in an enduring and fundamental way. I believe we righted wrongs, reversed injustices, and exposed grave corruption." The story, he concludes, "highlights the power of transparency and

the reason why a free press remains the essential linchpin for securing democracy."

Citizenship and Nation Building, 1963-1968 Oxford University Press

This edition explores issues related to the Olympics. It covers benefits and harms from hosting the Olympics. It examines the issues of drugs and doping in the Olympics. Readers will learn about often unseen sides to the massive event, including the environmental, political, and sex trafficking issues as they relate to the Olympics.

Hosting the Olympic Games John Wiley & Sons

In *Dispossession as Delivery*, Zachary Levenson explains why post-Apartheid South Africa continues to evict land occupations. Levenson shows that the government does this in the name of preserving the order they imagine is necessary to deliver housing to its citizens. Based upon a decade of participant observation in two land occupations in Cape Town, this book provides a novel, relational understanding about group formation and how collective actions interact with the state.

The Away Game: The Epic Search for Soccer's Next Superstars Springer

Brazil's "comfortable racial contradiction" -- "Good" appearances : race, language, and citizenship - Investing in whiteness: middle-class practices of linguistic discipline -- Fears of racial contact : crime, violence, and the struggle over urban space -- Avoiding blackness : the flip side of *boa aparência* -- Making the *mano* : the uncomfortable visibility of blackness in politically conscious Brazilian hip hop -- Conclusion : "seeing" race.

The Pain, Politics and Promise of Sports Brookings Institution Press

This book examines how Gilberto Freyre's notion of *mestiçagem* (race mixing) became the overwhelmingly dominant narrative of national identity in twentieth-century Brazil. It will be of interest to scholars and students interested in Brazil, Latin America, race, nationalism, national identity, and popular culture.

RIO DE JANEIRO ON THE BRINK

John Wiley & Sons

This state-of-the-art Research Handbook provides a challenging and critical examination of the complex issues surrounding sports in contemporary societies. Featuring contributions from world-leading scholars, it focuses upon the impact of their research, together with significant social issues and controversies in sport.

Research Handbook on Sports and Society Routledge

A sports reporter investigates the training of girls as professional gymnasts and figure skaters, arguing that the pressure to succeed and to look beautiful results in mental and physical harm, from eating disorders to psychological trauma.

Nationalism, Regionalism, and Globalism on the Center Stage of World Sports Springer

This book evaluates why cities choose to bid for the Olympics, why Olympic bids fail, and whether cities can benefit from failed bids. Attention is shifted away from host cities (or winners), to consider the impact of the bidding process on urban development in losing cities. Oliver and Lauermaann show that bidding is often a politically strategic exercise, as planning ideas are recycled from one bid project to the next. As Olympic bids become more deeply embedded in urban development and bid teams engage in legacy planning, Oliver and Lauermaann demonstrate that bid failure is rarely definitive and is often a desirable result. This volume adds a new and innovative perspective to Olympic Studies and mega-events more broadly, with appeal to a variety of other disciplines including geography, urban planning, spatial politics and sport and civic policy.

My Journey through the Beauty and Dark Side of Soccer Times Books

New York Times Bestseller: This true Depression-era story of a down-and-out fighter's dramatic comeback is "a delight" (David Halberstam). James J. Braddock was a once promising light heavyweight. But a string of losses in the ring and a broken right hand happened to coincide with the Great Crash of 1929—and Braddock was forced to labor on the docks of Hoboken. Only his manager, Joe Gould, still believed in him. Gould looked out for the burly, quiet Irishman, finding matches for Braddock to help him feed his wife and children. Together, they were about to stage the greatest comeback in fighting history. Within twelve months, Braddock went from being on the relief rolls to facing heavyweight champion Max Baer, renowned for having allegedly killed two men in the ring. A brash Jewish boxer from the West Coast, Baer was heavily favored—but Braddock carried the hopes and dreams of the working class on his shoulders, and when he emerged victorious against all odds, the shock was palpable—and the cheers were deafening. In the wake of his surprise win, Damon Runyon dubbed him "Cinderella Man." Against the gritty

backdrop of the 1930s, Cinderella Man brings this dramatic all-American story to life, telling a classic David and Goliath tale that transcends the sport. "A punchy read with touches of humor." —The New York Times "A wonderful, thrilling boxing story, and simultaneously a meticulous look at Depression life." —Jimmy Breslin

Organization and Operations Greenhaven Publishing LLC

From prizewinning journalist and Brazilian native Juliana Barbassa comes a deeply reported and beautifully written account of the seductive and chaotic city of Rio de Janeiro as it struggles with poverty and corruption on the brink of the 2016 Olympic Games. Juliana Barbassa moved a great deal throughout her life, but Rio was always home. After twenty-one years abroad, she returned to find her native city—once ravaged by inflation, drug wars, corrupt leaders, and dying neighborhoods—undergoing a major change. Rio has always aspired to the pantheon of global capitals, and under the spotlight of the 2014 World Cup and the 2016 Olympic Games it seems that its moment has come. But in order to prepare itself for the world stage, Rio must vanquish the entrenched problems that Barbassa recalls from her childhood. Turning this beautiful but deeply flawed place into a pristine showcase of the best that Brazil has to offer in just a few years is a tall order—and with the whole world watching, the stakes couldn't be higher. Library Journal called *Dancing with the Devil in the City of God* "akin to Charlie LeDuff's *Detroit*"—a book that "combines history and personal interviews in an informative and engaging work." This kaleidoscopic portrait of Rio introduces the reader to the people who make up this city of extremes, revealing their aspirations and their grit, their violence, their hungers, and their splendor, and shedding light on the future of this city they are building together. *Dancing with the Devil in the City of God* is an insider perspective from a native daughter and "a fascinating look at the people who live in and aspire to change one of the world's most impressive cities" (Booklist, starred review).

The International Olympic Committee, Law, and Accountability Routledge

How did the Olympics evolve into a multi-national phenomenon? How can the Olympics help us to understand the relationship between sport and society? What will be the impact and legacy of the Olympics after Tokyo in 2020? Understanding the Olympics answers all these questions by exploring the social, cultural, political, historical and economic context of the Games. This thoroughly revised and updated edition discusses recent attempts at future proofing by the International Olympic Committee (IOC) in the face of growing global anti-Olympic activism, the changing geo-political context within which the Olympics take place, and the Olympic histories of the next three cities to host the Games – Tokyo (2020), Paris (2024) and Los Angeles (2028) – as well as the legacy of the London (2012) Olympics. For the first time, this new edition introduces the reader to the emergence of 'other Games' associated with the IOC – the Winter Olympics, the Paralympics, and the Youth Olympics. It also features a full Olympic history timeline, many new photographs, refreshed suggestions for further reading, and revised illustrations. The most up-to-date and authoritative textbook available on the Olympic Games, Understanding the Olympics is essential reading for anybody with an interest in the Olympics or the wider relationship between sport and society.

My Fight for Press Freedom and Justice in Bolsonaro's Brazil Berrett-Koehler Publishers

This volume is built around three assumptions - first, that for huge numbers people around the world, including many sport lovers, there are more important things in life than sport; second, that the governance of sport is in many ways problematic and needs to be confronted; and, third, that contrary to the still-popular belief that sport and politics don't mix, sport often provides an ideal theatre for the enacting of political protest. The book contains studies of a range of protests, stretching back to the death of suffragist Emily Davison at the Derby of 1913 and encompassing subsequent protests against the exclusion of women from the sporting arena; the Berlin Olympics of 1936; Western imperialism; the Mexico Olympics, 1968; the state racism of apartheid in South Africa; the effect of the global golf industry on ecosystems; Israeli government policy; resistance to the various attempts to bring the Olympic Games to Canadian and American cities; the cutting of welfare benefits for disabled British citizens; class privilege in the UK; Russian anti-gay laws; and high public spending on sport mega-events in Brazil. The collection will be of interest to scholars and students with an interest in Sports Studies, History, Politics, Geography, Cultural Studies and Sociology.

MEXICO CITY'S OLYMPIC GAMES

W. W. Norton & Company

Once nobody noticed Santa Rosa's Thunder. They were a ragtag team of girls who wanted to play

soccer, and no one took them seriously. Their male coach expected little from his "ladies," and their mediocre performance convinced them he was right. Then a kind of miracle happened. Emiria Salzmann, Thunder's new coach, a top player herself, knew what it took to win--discipline,

relentless drills, thigh-burning sprints, and an inspired passing game. The girls hated it, but their coach never let up. Tough and determined, she showed them what it felt like to be winners--and they loved it. As the momentum grew with a string of victories, the girls thrived on the competition, believing they had the right stuff to become champions. They were right! With spirits

soaring, Thunder won its league on the last day of the season and headed for the state cup, emerging not just as powerful athletes but as strong, confident, emotionally healthy human beings--champions in the game of soccer, and in the game of life.
