Dealmaking, the popular, award-winning "self-defense" book for everyone working in the film and television industry, is now expanded (with more than 120 additional pages) and updated to include the latest legal rulings and entertainment technology

developments. Addressing a general, non-attorney readership, it is a fascinating, highly accessible guide to current entertainment law's peculiarities, "creative" practices, and practical applications. Armed with *Dealmaking*, filmmakers can save themselves thousands of dollars in legal fees as they navigate the shark-infested waters of the entertainment business. Whether you're a producer, writer, director, or actor, Mark Litwak will help you make the most of your business dealings while steering you clear of the many contractual traps that may await you.

Global Production is the first book to provide a fully comprehensive overview of the complicated issues facing multinational companies and their global sourcing strategies. Few international trade transactions today are based on the exchange of finished goods; rather, the majority of transactions are dominated by sales of individual components and intermediary services. Many firms organize global production around offshoring parts, components, and services to producers in distant countries, and contracts are drawn up specific to the parties and distinct legal systems involved. Pol Antràs examines the contractual frictions that arise in the international system of production and how these frictions influence the world economy. Antràs discusses the inevitable complications that develop in contract negotiation and execution. He provides a unified framework that sheds light on the factors helping global firms determine production locations and other organizational choices. Antràs also implements a series of systematic empirical tests, based on recent data from the U.S. Customs and Census Offices, which demonstrate the relevance of contractual factors in global production decisions. Using an integrated approach, *Global Production* is an excellent resource for researchers, graduate students, and advanced undergraduates interested in the inner workings of international economics and trade.

The *Model Rules of Professional Conduct* provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The project, made a careful study of current and projected module design and the available means (both manual and automatic) of manufacturing these modules. The objectives were: (1) Define current module designs and establish future design trends; (2) List the equipment currently available for setting up facilities for mechanized fabrication and assembly of electronic modules; (3) Perform a cost analysis at various levels of production for manufacturing facilities with different degrees of mechanization; (4) Design an N/C work center with complete specifications, equipment, layout, and block flow diagrams. Low, medium, and high production levels were treated for a balanced line operator; (5) Generate military specification information to allow assembly by mechanized equipment; (6) Develop a set of design guidelines for use by MICOM electronic module suppliers; (7) Establish process problem areas of present module systems; (8) Forecast the direction of technological advance and the problem areas that might be encountered; (9) Prepare a set of manufacturing process and workmanship guidelines covering the production of planar printed wiring modules. John W. Cones, whose real goal is to stimulate a long-term film
industry reform movement, shows how the financial control of the
film industry in the hands of the major studios and distributors
actually translates into creative control of the industry. Cones
discusses the pros and cons of the debate relating to the
industry's so-called net profit problem and the way in which the
distribution deal plays an integral part in that problem. He then

breaks down five major film finance/distribution scenarios,
explaining various distribution deals and suggesting ways of
negotiating distribution. Critically examining the specific terms of
the distribution deal itself, Cones covers gross receipts
exclusions, distributor fees, and distribution expenses. He also
investigates the various forms of interest, issues of production
costs, matters of creative control, and general contractual
provisions. For handy reference, Cones includes an extensive
checklist for negotiating any feature film distribution deal. The list
deals with distribution fees, distribution expenses, interest,
production costs, creative control issues, general contractual
provisions, distributor commitments, and the limits of negotiating.
His nine appendixes present a "Motion Picture Industry Overview,"
"Profit Participation Audit Firms," "ADI (Top 50) Market Rankings,"
an "AFMA Member List, 1992-1993," a "Production-
Financing/Distribution Agreement," a "Negative Pickup
Distribution Agreement," a "Distribution Rights Acquisition
Agreement," a "Distribution Agreement (Rent-a-Distributor Deal),"
and a "Foreign Distribution Agreement." Cones wrote this book for

independent producers, executive and associate producers and
their representatives, directors, actors, screenwriters, members of
talent guilds, distributors, and entertainment, antitrust, and
securities attorneys. Securities issuers and dealers, investment
bankers, and money finders, investors, and financiers of every
sort also will be interested. In addition, Cones suggests and hopes
that the book will interest "Congress, their research staff,
government regulators at the Internal Revenue Service, the
Securities and Exchange Commission, the Federal Trade
Commission, and law enforcement officials such as the Los
Angeles District Attorney and the U.S. Justice Department."
