## **WORLDS OF WORK**

University of Toronto Press

Using a progressive approach to political economy, contributors propose alternative policies and practices that might secure more decent livelihoods for workers and their families.

## **WORK, INDUSTRY AND CANADIAN SOCIETY [SOUND RECORDING]**

University of Toronto Press

This study offers a comprehensive review of all major classical and contemporary social and economic theories and the way they aid our understanding of work.

Canadian Society in the Twenty-First Century, Fourth Edition

Routledge

Work, Industry and Canadian Society, Sixth Edition studies the social ramifications of work. With a Canadian focus, the author team examines how individual, societal, national, and global issues shape this central human activity. The world of work continues to change rapidly, and this edition covers the most recent trends and statistics. The authors are well regarded for their teaching and research, and their years of experience are evident in this comprehensive volume on the past, present and future of work in Canada.

## **HEALTHY WORK**

Scarborough, ON : Thomson Nelso

The aim of this Handbook is to produce an interdisciplinary and international benchmark text for anyone wanting to understand job quality. Job quality matters and has long and continually done so, even if the terminology used to describe it has, and continues,

to vary. Debate about the future of work and job quality in the twenty-first century centres on the impact of the new digital technologies of the putative fourth industrial revolution. This debate compounds existing concerns about the restructuring of employment and, importantly, a worrying proliferation of poor-quality jobs, often within the context of neo-liberal political-economic hegemony since the early 1980s or the economic crisis that followed the Global Financial Crisis of the late 2000s. Job quality is offered as a solution to challenges such as health, welfare, productivity, innovation, economic competitiveness, democracy and democratic participation, Bildung/cultivation, societal equality, individual and collective quality of life, and environmental sustainability. As job quality is a key factor in addressing these and the other challenges, it needs to be understood in all its complexity in terms of what it affects as well as what affects it. This Handbook draws together into a single volume: first, an explicit focus on job quality both as a significant factor in and of itself and as producing instrumental effects on a range of other processes and outcomes; second, a catalogue of the diverse range of multiple contributions and applications related to job quality; and third, the complexity and multiple interpretations of the concept of job quality. Each chapter provides distinct responses to the question of why job quality matters, coupled to a contention about for whom or for what job quality matters most. As the chapters with their respective answers and arguments attest, there are a range of ways in which job quality is relevant to an equally broad range of social, economic, and political concerns.

McGill-Queen's Press - MQUP

The Canadian population is aging, bringing with it an increasing number of social and economic challenges. With the aging of the workforce, the reconceptualization of older workers and retirement, the increasing share of women in the labour force, the elimination of mandatory retirement, the fluctuating economy, and the changes to the pension system, barriers to employment for older workers, such as ageism, need to be of central concern. *Ageism at Work* examines the subjective experiences of older workers in Canada and explores how they negotiate ageism and manage their interactions in the employment setting. Further, this book looks at the intersection between age and gender and the pervasiveness of gendered ageism in the labour market. Finally, this book examines employers' attitudes towards older workers quantitatively, while also exploring their first-hand accounts about them through qualitative inquiry. Understanding how ageism plays out in the labour market, how it intersects with sexism, and its consequences on a personal level are critical to moving the discussion on discrimination and human rights forward in Canada.

### **CHALLENGING THE MARKET**

Fernwood Publishing

Examines the controversial Japanese model of lean production and its impact on work and workers in the global auto industry. *The Oxford Handbook of Job Quality* McGill-Queen's Press - MQUP  
Young people about to leave high school argue that they are determining their own destinies. Scholarly debates also suggest that the influence of structural factors such as social class on an individual's life course is decreasing. Wolfgang Lehmann

challenges this view and offers a detailed comparative analysis of the inter-relationships between social class, institutional structures, and individual educational and career choices. Through a qualitative study of academic-track high school students and participants in youth apprenticeships in Germany and Canada, Lehmann shows how the range of available school-work transition options are defined by both gender and social class. Highlighting the importance of the institutional context in understanding school-work transitions, particularly in relation to Germany's celebrated apprenticeship system, which rests on highly streamed secondary schooling and a stratified labour market, Lehmann argues that social inequalities are maintained in part by the choices made by young people, rather than simply by structural forces. *Choosing to Labour?* concludes with an exploration of how public policy can meet the dual challenge of providing young people with meaningful and equitable educational experiences, while simultaneously fulfilling the need for a skilled workforce.

Transitional Development and Attitudinal Changes in Society  
Presses Université Laval

This book explicitly addresses racism in the paid workplace, showing how racism, and by corollary sexism, are systemic to society. Based on extensive research on workers in both the Health Care sector and in the Garment Manufacturing sector, the author succeeds in capturing the daily lived realities in the workplace.

**Working Women in Canada** UBC Press

Canada's future prosperity is of utmost concern to citizens, industry leaders and policy makers. Using original public opinion

research from EKOS, *Redesigning Work* argues that improving people's jobs and workplaces can unlock the potential to strengthen Canada's economy and improve the well-being of Canadians. Graham Lowe and Frank Graves are two of Canada's leading experts on work and public opinion. In *Redesigning Work* the authors provide a blueprint for the future of work in Canada by identifying practical ways to make work more motivating, rewarding and productive. The authors provide fuel for employers, workers, policy makers, HR professionals, and NGOs to combat the negative trends many Canadians associate with their future economic prospects. The book paints an optimistic picture of the future of work by addressing job stress, work-life balance, skill use and engagement.

**Work, Industry & Canadian Society** Cengage Learning

Explodes the dual myths that working-class adults have inferior learning capacities and that talented youths naturally leave blue-collar careers, and documents the genuine learning practices of working-class people, using accounts of prior school experiences; current adult education course participation; and a wide array of learning resources in paid workplaces, households, and community settings. The authors criticize dominant theories of learning and work and develop an alternative explanation of working-class adult learning.

Covering Canadian Crime John Wiley & Sons

*Contingent Work, Disrupted Lives* examines the repercussions of economic globalization on several manufacturing-dependent rural communities in Canada. Foregrounding a distinct interest in the 'grassroots' effects of such contemporary corporate strategies as plant closures and downsizing, authors Anthony Winson and

Belinda Leach consider the impact of this restructuring on the residents of various communities. The authors argue that the new rural economy involves a fundamental shift in the stability and security of people's lives and, ultimately, it causes wrenching change and an arduous struggle as rural dwellers struggle to rebuild their lives in the new economic terrain. Beginning with broader theoretical and empirical literature on global changes in the economy and the effects of these changes on labour, the text then focuses exploration on manufacturing in Ontario with an analysis of five community case studies. Winson and Leach give considerable attention to the testimony of numerous residents; they report on in-depth interviews with key respondents and blue-collar workers in five separate communities, ranging from diverse manufacturing towns to single-industry settlements. The result is an intimate contextual knowledge of the workers' lives and their attempts to adapt to the tumultuous economic terrain of 1990s rural Canada. Winner of the John Porter Prize for 2003, awarded by the Canadian Sociology and Anthropology Association.

Hidden Knowledge Routledge

This book catalogues an exhibition of textbooks by authors from the University of Alberta. Each finished textbook contains its own story of challenges and victories. And each has its own power as a record of knowledge, a teaching tool, and an object of permanence and beauty.

### **INSIDE CAPITALISM; AN INTRODUCTION TO POLITICAL ECONOMY**

Canadian Scholars' Press

In this multidisciplinary collection of essays, forty-eight social scientists from seven countries examine changes in the organization of work and their impact on people at various stages of the life course.

The Sociology of Work (RLE: Organizations) Oxford University Press

Ideologies in Educational Administration and Leadership explores ideological dimensions of educational administration in a number of Western and Central European contexts as they influence or shape the understanding, analysis, and practice in the field covering a broad range of topics, such as ethics, governance, diversity, and power. The first section, Philosophical and Theoretical Foundations, includes a range of sociological, political and linguistic approaches to examining ideology in an educational context. The second section, Ideologies of Research and Teaching, includes examinations of neoliberal and technological effects on research and teaching, as well as ideological shifts and challenges, in the West and in Eastern Europe. The last section, Contemporary and International Issues, includes critiques of social media, neoliberal impact on schooling, managerial leadership, university ideologies in Finland, the rationalisation of universities, and the impact of administrative ideologies on school systems. The book will appeal to researchers, practitioners, policy-makers, academics, as well as post-graduates in educational administration theory, and related courses in the ethics and politics of education, educational leadership, and organisational studies.

**Redesigning Work** M.D. Publications Pvt. Ltd.

Alexandria -- a town of about 3,500 people in Glengarry County in

Eastern Ontario -- conforms in some respects to the stereotype of small towns as friendly communities without the strains of city life. Although David Rayside found Alexandria to be a pleasant town, in this penetrating study he reveals that this community, which includes an almost equal mix of anglophones and francophones, is also marked by social inequalities and divisions that parallel those in urban centres.

*Working in a Global Era* University of Toronto Press

Work, Industry, and Canadian Society Cengage Learning

Restructuring Work and the Life Course University of Alberta

This book provides a glimpse of Aboriginal women in Northern Ontario and it reflects primarily the impact of the European churches and systems on Aboriginal peoples' way of life. The words of the Aboriginal women are gentle, but these words convey the displacement of their way of life in the most powerful way. The power of this book is not only in the stories and history that are told, but also in how all women in Northern Ontario share a respectful life together in a way that I have not witnessed or felt anywhere else. — Susan Hare, Ojibwe lawyer, who practices out of the West Bay First Nation, Manitoulin Island.

**Repenser Les Institutions Pour Le Travail Et L'emploi**

Wayne State University Press

Crime reporting, in one form or another, is as old as crime itself. Almost all young reporters have spent some time on this beat, and their work affects all of us. *Covering Canadian Crime* offers a

deep and detailed look at perennial issues in crime reporting and how changes in technology, business practices, and professional ethics are affecting today's crime coverage. Social media in the courtroom, the stigmatization of mental illness, the influence of police media units, the practice of knocking on victims' doors, the culture of masculinity in the newsroom: these are among the topics of discussion, explored from various disciplinary perspectives and combined with poignant interviews and thought-provoking introspection from seasoned journalists such as Christie Blatchford, Timothy Appleby, Linden MacIntyre, Kim Bolan, and Peter Edwards. A critical account of the challenges involved in crime reporting in ethical, informed, and powerful ways, *Covering Canadian Crime* poses the questions that reporters, journalism students, and the public at large need to ask and to answer.

*Female Well-Being* Oxford University Press, USA

The attitude concept is the widely acclaimed means of sociologists and psychologists for the analysis of empirical research used in the analysis of related theories and generalizations. Rapid changes in attitudes have been taking place in the recent decades due to the fast pace of economic development.

*Canadian Labour Policy and Politics* Dundurn

This is an ideal text for courses in the sociology of work and labour and will also be of interest to instructors and students in labour studies and industrial relations programs."--Pub. desc.
