Coming of Age in the 21st Century W. W. Norton & Company

The bestselling coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. The House on Mango Street is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes-sometimes heartbreaking, sometimes deeply joyous-Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers.

Growing Up Jung Vintage

The best-selling author of BRINGING UP BÉBÉ investigates life in her forties, and wonders whether her mind will ever catch up with her face. When Pamela Druckerman turns 40, waiters start calling her "Madame," and she detects a disturbing new message in mens' gazes: I would sleep with her, but only if doing so required no effort whatsoever. Yet forty isn't even technically middle-aged anymore. And after a lifetime of being clueless, Druckerman can finally grasp the subtext of conversations, maintain (somewhat) healthy relationships and spot narcissists before they ruin her life. What are the modern forties, and what do we know once we reach them? What makes someone a "grown-up" anyway? And why didn't anyone warn us that we'd get cellulite on our arms? Part frank memoir, part hilarious investigation of daily life, *There Are No Grown-Ups* diagnoses the in-between decade when...

- Everyone you meet looks a little bit familiar.
- You're matter-of-fact about chin hair.
- You can no longer wear anything ironically.
- There's at least one sport your doctor forbids you to play.
- You become impatient while scrolling down to your year of birth.
- Your parents have stopped trying to change you.
- You don't want to be with the cool people anymore; you want to be with your people.
- You realize that everyone is winging it, some just do it more confidently.
- You know that it's ok if you don't like jazz.

Internationally best-selling author and New York Times contributor Pamela Druckerman leads us on a quest for wisdom, self-knowledge and the right pair of pants. A witty dispatch from the front lines of the forties, *There Are*

No Grown-ups is a (midlife) coming-of-age story, and a book for anyone trying to find their place in the world.

The Lost Art of Delaying Adulthood Doubleday Canada

A wry and witty meditation on modernity's obsession with youth and its denigration of maturity In *Why Grow Up?* the philosopher Susan Neiman asks not just why one should grow up but how. In making her case she draws chiefly from the thought of Kant and Rousseau, who articulated very different theories on the proper way to "come of age." But these thinkers complement each other in seeking a "path between mindlessly accepting everything you're told and mindlessly rejecting it," and in learning to live without despair in a world marked by painful realities and uncertainties. Neiman challenges both those who dogmatically privilege innocence and those who see youth as weakness. Her chief opponents are those who equate maturity with cynicism. "In our day it is more common to meet people who are stuck in the mire of adolescence. The world turns out not to reflect the idea and ideals they had for it? So much the worse for ideals." To move beyond these immature positions, Neiman writes, is not simply to lapse into quiet resignation but to learn to take joy and satisfaction in what can be done and known, and to face rather than feel defeated by our inevitable limits.

From "one of the nation's foremost Chicano literary artists" comes a coming-of-age classic and the bestselling Chicano novel of all time that follows a young boy as he questions his faith and beliefs - now one of PBS's "100 Great American Reads" (Denver Post). Antonio Marez is six years old when Ultima comes to stay with his family in New Mexico. She is a curandera, one who cures with herbs and magic. Catholicism of Latin America. And at each life turn there is Ultima, who delivered Tony into the world... and will nurture the birth of his soul.

Coming of Age Farrar, Straus and Giroux

This book explores the ways in which a range of recent American novelists have handled the genre of the 'coming-of-age' novel, or the Bildungsroman. Novels of this genre characteristically dramatise the vicissitudes of growing up and the trials and tribulations of young adulthood, often presented through depictions of immediate family relationships and other social structures. This book considers a variety of different American cultures (in terms of race, class and gender) and a range of contemporary coming-of-age novels, so that aesthetic judgements about the fiction might be made in the context of the social history that fiction represents. A series of questions are asked:* Does the coming-of-age moment in these novels coincide with an interpretation of the 'fall' of America?* What kind of national commentary does it therefore facilitate?* Is the Bildungsroman a quintessentially American genre?* What can it usefully tell us about contemporary American culture? Although the focus is on the conte

Comedian Richard Herring has a major problem. He's about to turn 40 and hasn't seen it coming. He's not married, doesn't have a proper job or 2.4 children. But now, finally, it looks as if the world

expects him to be a grown up - and he's completely unprepared for it. As the momentous and terrifying event approaches (his birthday), Richard notices a steep decline in his own behaviour. Inexplicably he begins to behave more childishly - hanging out with 22-year-olds, developing an unhealthy addiction to Flumps and even getting into a ludicrous fight. *How Not to Grow Up* is the funny story of how a self-confessed perpetual Big Kid deals with his greatest fear - getting older - and is the perfect book for everyone who, deep down, still thinks that they're 18.

I am a fan of *Coming of Age* movies. Over the years, I've found there is a dearth of good reference books on the genre. So I've decided to write one, both to provide a readily available resource for fellow fans of this genre (who may be looking for guide to films they'd like to view) and, secondly, to preserve the many reviews I've written over the years on my blog: theskykid.com. This is primarily a book of reviews of films in the *Coming of Age* genre. But the book also contains several interviews with some of the most notable of *Coming of Age* filmmakers of our age. Their insights

"Hysterically droll, touching, elegant, and wise—a coming-of-age story from someone who possibly came of age before her parents" (Patricia Marx, *New Yorker* writer and bestselling author), *Trying to Float* is a seventeen-year-old's darkly funny, warmhearted memoir about growing up in New York City's legendary Chelsea Hotel. Meet the family Rips: father Michael, a lawyer turned writer with a penchant for fine tailoring; mother Sheila, a former model and renowned sculptor who matches her welding outfits with couture; and daughter Nicolaia, a precocious and wry high school student at work on a highly unusual extracurricular activity, an official record of her peculiar childhood. Nicolaia is a perpetual outsider who has struggled to find her place in schools populated by cliquish girls and loudmouthed boys. But at the Chelsea, Nicolaia she has found her tribe. There's her neighbor Stormé, a tall albino woman who keeps a pink handgun strapped to her ankle; her babysitter, Jade, who may or may not have a second career as an escort; her friend Artie, former proprietor of New York's most famous nightclubs. The kids at school might never understand her, but as Nicolaia endeavors to fit in, she realizes that the Chelsea's motley crew could hold the key to surviving the perils of her adolescence. "Nicolaia Rips is an old-soul sophisticate. Trying to Float is like Eloise meets Wes Anderson" (Elle), and not since Holden Caulfield has there been such a fabulously compelling teen guide to New York City. Rips's debut is "charmingly self-deprecating and very funny...at once highly insightful and deeply familiar" (*W Magazine*), a triumphant parable for the power of embracing difference in all its forms. Her "engaging story with a big heart...will appeal to adults and teens alike" (*Kirkus Reviews*, starred review).

Micah Toub faced quite a few psychological challenges when he was growing up. And two of his best guides through them - as well as the biggest causes of them - were his parents. Part memoir, part introduction to famous and infamous psychological concepts past and present, *Growing Up Jung* tells the story of a boy raised by two psychologists. It's an extraordinary coming-of-age story, replete with more sexual confusion and domestic dysfunction than even the average adolescent has to endure. And through the telling of that story, Toub is able to discuss such topics as why Freud's obsession with Oedipus threatens our chances today of being close to our mothers; the methods a Jungian psychologist might use to help a young man overcome sexual anxiety; and why it is okay to sometimes let your inner-murderer out for the night. Referencing the written works of the thinkers discussed, books that have been written about them, and relevant contemporary pop culture, Toub discusses and explains such topics as Synchronicity, Archetypes, and the Oedipus Complex, as well as lesser-known corners of the psyche, such as the Ally, the Dreambody, and what Jung called Active Imagination. And he is able to weave all this information seamlessly into his own story, because if there was a psychological problem going, it went Toub's way. Call it synchronicity. And if you don't know what synchronicity is, see chapter 5.

"[An] enchanting journey through Ann Hood's early fascination with reading.... Book lovers will find Morningstar irresistible."—Lynn Sharon Schwartz, author of *Ruined by Reading* *Growing up* in a mill town in Rhode Island, in a household that didn't foster a love of reading, novelist Ann Hood discovered nonetheless the transformative power of literature. She learned to channel her imagination, ambitions, and curiosity by devouring ever-growing stacks of books. In *Morningstar*,

Hood recollects with warmth and honesty how *The Bell Jar*, Marjorie Morningstar, *The Harrad Experiment*, and *The Outsiders* influenced her teen psyche and introduced her to topics that could not be discussed at home: desire, fear, sexuality, and madness. Later, *Johnny Got His Gun* and *Grapes of Wrath* dramatically influenced her political thinking while the Vietnam War and Kent State shootings became headline news, and classics such as *Dr. Zhivago* and *Les Misérables* stoked her ambitions to travel the world. With characteristic insight and charm, Hood showcases the ways in which books gave her life and can transform—even save—our own lives.

Wise, often funny, sometimes heartbreaking, *Persepolis* tells the story of Marjane Satrapi's life in Tehran from the ages of six to fourteen, years that saw the overthrow of the Shah's regime, the triumph of the Islamic Revolution and the devastating effects of war with Iraq. The intelligent and outspoken child of radical Marxists, and the great-granddaughter of Iran's last emperor, Satrapi bears witness to a childhood uniquely entwined with the history of her country. *Persepolis* paints an unforgettable portrait of daily life in Iran and of the bewildering contradictions between home life and public life. Amidst the tragedy, Marjane's child's eye view adds immediacy and humour, and her story of a childhood at once outrageous and ordinary, beset by the unthinkable and yet buffered by an extraordinary and loving family, is immensely moving. It is also very beautiful; Satrapi's drawings have the power of the very best woodcuts.
