Book 1 - First Contact

Fire from the Rock
Three young children, Mal, Ari and Martha, have been "touched" and are in possession of enormous talents, bestowed on them by a chance encounter with the Young Master. Now Ari, Mal and Martha find themselves in the wrong place and

time because Ari has done the unthinkable, resulting in a perpetual red dawn. But that is the least of their worries! Ari is on the run, while Mal and Martha attempt to keep their enemy at bay. The Strange Man is back and he's got even more sinister tricks up his sleeve ...
Marriage on the Rock
Simon and Schuster
THE FIRE IN THE ROCK is a first-person retelling of the Exodus story from the

viewpoint of Tziporah, the wife of Moses; but it is not a conventional "Bible story." First, God is "offstage"; He is present only in the characters' hearts and thoughts. Second, there are no overt "miracles"; all the events of the Plagues and the Exodus are attributed to natural, if unique, events that are now known to have taken place at around that time. This is not a book of "signs and wonders." I write of Moses

and Tziporah as real people with a real, human relationship; indeed, the book has been described (by Kirkus) as "a powerful, focused love story that may perhaps be more appealing to seekers than believers." As for the "religious" aspect -- Moses himself is filled with uncertainty and doubt till the end of his life. The central inspiration of the book was, in fact, the simple question,

"What if Moses were just an ordinary man?" THE FIRE IN THE ROCK received a Starred Review from Kirkus Reviews, and was named to its list of "Best Books of 2106." [A Journey into the World Within](#) BookBaby Parker O'Neill is a man with the world at his feet. Son of the CEO of O'Neill's International, he is ready to take over as head of the company, once his

father retires in six months' time. However, Parker has earned himself the ultimate playboy reputation, and not everyone thinks he is ready to take control of the company that he was groomed for all his life. Given an ultimatum that he has to settle down if he wants to take over from his father; Parker decided the only way to solve his problem, is to pay someone to play the

part of his dutiful wife. Alice Whitman is a hard working girl, with a kind heart. Raised by her grandmother after losing her parents, she knows what its like to lose everything. Sophia, Alice's grandmother, is getting older and growing weaker by the day. Alice is the only one Sophia has, so it falls to her to do whatever it takes to help her beloved Gram. When Parker makes Alice an offer

he thinks she can't refuse, he is stunned to find that money doesn't always mean you get your own way. However, Alice soon realises Parker might be the one person that can help her when she needs it most. Can they make their arrangement work without anyone finding out the truth, or will this thing between them turn into something neither of them expected it to be?

Tales of a Ratt
CreateSpace
Having survived the worst effects of the Civil War, the city of Memphis, battered but unbowed, finds itself facing a far more dangerous foe. It is invisible, lethal, and unstoppable: a plague of yellow fever. It is the story of JP Mahoney, 14-year-old

farm boy who dreams of escape from tedious chores and farmlife routine. It is the story of a courageous young woman, Ginnie Moon, onetime Confederate spy, who now operates a boarding house for men who have survived the war. And it is the story of Kevin O'Boyle, an embittered riverfront laborer, who blames the world for his troubles, and finds the crippled city his perfect prey. Several characters in

the novel are actual historical figures, most notably Ginnie Moon, Judge "Pappy" Hadden, and Cap'n Jim Lee. Their actions, and those of the other characters, are entirely fictional. The plague, one of several to hit the city in the years following the war, was all too real.

Publishing Simcha Guterman's, *Leaves from Fire*, is a firsthand account written with the deep sense of comprehension he was documenting the fate of his people. Knowing full well that his life was in danger, Simcha chronicled the occurrences of

the Holocaust on long scraps of paper, as they happened right before his eyes. The events described take place in Poland, during the first years of World War II. The author stuffed long paper scraps, written in Yiddish, into bottles and hid in them in different places. One of these bottles was discovered after the war. Simcha Guterman's work has been published and translated into eight different

languages, receiving high praise from critics. The book's evocative illustrations were drawn by Yaakov Guterman, the author's son.

MY JOURNEY INTO THE HEART OF SCRIPTURAL FAITH AND THE LAND WHERE IT ALL BEGAN

Study Abroad: A Semester in Spain
Environmentalists worry about too much carbon dioxide, but what's too little? What if global financiers

manipulated the global warming crisis to gain control over humanity's resources, freedoms, and population? What if someone with the financial and technical abilities decided mankind was a virus and used carbon dioxide trapping technology to plunge population levels by crashing life-essential CO2 to new lows? These are questions Anna Picard must face in The Carbon

Trap, the first book in The Carbon Series. At the height of the global warming crisis, the United Nations attempts to control all carbon emissions, and authorizes a series of programs it deems necessary to save humanity. A progressive US government enthusiastically endorses the UN Carbon Trapping program, and to help pay for it, will impose carbon taxes, draconian regulations,

and... it will secretly sell Alaska. Anna Picard is an amoral fixer, an employee of Agenda 21 member and global financier Alexis Swanson had trained to help recruit his corporate army and neutralize his enemies. It is her job to unleash a global hacker network to help destroy the carbon based industries and funnel insider-trading profits to Swanson. One of her recruits is Dr. Sven

Johansson, a brilliant geneticist and President of Snath Biotechnology, who designs life forms to trap CO2. But Sven has more ambitious plans. At a UN conference in the Maldives held to impose draconian carbon regulations, not everyone is happy, some industrial executives realize data has been falsified. To protect her scheme, Anna frames one of the execs for murder. Her

plans are complicated when she falls in love with Dr. Pete Heyward, the son of the man she framed for murder. Pete is a US Marine amputee who sees past her malevolent deeds and tries to rejuvenate the morality of her youth. After a series of genetically modified carbon trapping life forms is unleashed upon the Earth, Anna must confront the evils she helped unleash, and

prevent an even bigger disaster from unfolding that would destroy most life on Earth. This is a high-tech ecological thriller that takes the reader from the Maldives, to the French Riviera, and the heartland of Texas. It introduces cutting edge technologies and concepts, used for the first time in a novel, that reveal striking implications for society.

There's a sacred and hidden path inside each one of us, a path of mysteries and amazing manifestations , where nothing is impossible, not even our wildest spiritual creations. This is the realm of impossibilities, where imagination is carried away by a spiritual insight, which is here referred as

the phoenix.
The allegory inside this book takes us to a subconscious realm, that can lead us to the most uplifting and unknown side of ourselves, but also to other realities as well, namely, the ones that are parallel to ours, and also other dimensions and galaxies. It is with this allegory of the phoenix that we understand the role of the dragons and serpents of our planet, and how they

interfere in the Tao of our existence. As a dance of forces, vibrations of different natures, these symbols and concepts take us to the deepest truth within, of who we are and how far can we go. This is a book about the adventures of our soul, the journey within that so many Shamans live to explore. It's also about a path that all spiritualists and gurus have experienced, a path that some have

called nirvana, enlightenment or awaking, but few have ever had the ability to fully describe in a way that can be perceived by the common mortal. The Native Americans have often told us about the spirit of the eagle that keeps guard over the spiritual world. This eagle, or big bird, is representative of another living force, which is the phoenix, the bird of fire. This is why many mystics of ancient

times believed that only fire could take souls to another world. The fire purifies the body, but the most potent fire comes from within, as an energy that we burn with our conscious awareness. This is the fire that Buddhists, Taoists and Hindus persist in awakening from within, commonly using disciplines created specifically for this purpose, such as yoga, chikung and meditation.

This fire represents the power of our own spirituality, which most people are unaware to possess. As mortals and genetically manipulated slaves of a few alien species, we've lost the physical capability to ignite it. But the phoenix can help us reach it, through the spiritual nature that is within each one of us. The one who can ride the phoenix, can travel very far, to amazing

lands. And these are the ones that often come back, when they choose to, as our prophets and religious leaders. This book describes their journey to Valhalla, Heaven, Paradise, or more simply, the Laboratory of God.
