The world is full of problems and conflicts. So why can we not solve them? According to Edward de Bono, world thinking cannot solve world problems because world thinking is itself the problem. And this is getting worse: we are so accustomed to readily available information online that we search immediately for the answers rather than thinking about them. Our minds function like trying to drive a car using only one wheel. There's nothing wrong with that one wheel - conventional thinking - but we could all get a lot further if we used all four... De Bono examines why we think the way we do from a historical perspective and uses some of his famous thinking techniques, such as lateral thinking, combined with new ideas to show us how to change the way we think. If we strengthen our ability and raise our thinking level, other areas of our life - both personal and business success - will improve. De Bono is the master of the original big 'concept' book and his enticement to us to use our minds as constructively as possible should appeal to a whole new generation of fans.

When should you adopt an aggressive business strategy? How do we make decisions when we don't have all the information? What makes international environmental cooperation possible? Game theory is the study of how we make a decision when the outcome of our moves depends on the decisions of someone else. Economists Ivan and Tuvana Pastine explain why, in these situations, we sometimes cooperate, sometimes clash, and sometimes act in a way that seems completely random. Stylishly brought to life by award-winning cartoonist Tom Humberstone, Game Theory will help readers understand behaviour in everything from our social lives to business, global politics to evolutionary biology. It provides a thrilling new perspective on the world we live in.

TEACH YOUR CHILD HOW TO THINK

Penguin Books

Poses the question, how can you energize people to see problems not as obstacles to success but

as opportunities for innovation? Looks at what makes a lateral leader - the kind of person who can create a climate of creativity by inspiring people to have the confidence to take risks, and who can then develop their skills in creative techniques. Presents practical exercises for implementing the principles of lateral thinking and uses real-life examples to illustrate the rules, principles and processes involved.

The Leader's Guide to Lateral Thinking Skills Lateral ThinkingCreativity Step by Step

People spend a fortune on their bodies, their faces, their hair, their clothes. Cosmetics, plastic surgery, diets, gym membership - everyone's trying to be more attractive. But there's an easier way to become a beautiful person. It doesn't have to be physical. No matter how you look, if you have a mind that's fascinating, creative, exciting - if you're a good thinker - you can be beautiful. And being attractive doesn't necessarily come from being intelligent or highly-educated. It isn't about having a great personality. It's about using your imagination and expanding your creativity. And it's when talking with people that we make the greatest impact. A person may be physically beautiful, but when speaking to others a dull or ugly or uncreative mind will definitely turn them off. In clear, practical language, de Bono shows how by applying lateral and parallel thinking skills to your conversation you can improve your mind. By learning how to listen, make a point, and manoeuvre a discussion, you can become creative and more appealing - more beautiful.

Creativity Step by Step Penguin UK

THE classic work about changing yourself and how others see you from the world-renowned writer and philosopher Edward de Bono People spend vast amounts of money, time and energy to achieve and maintain beauty, and yet despite its undisputed importance few of us devote similar efforts to be interesting. It is often thought that intelligence, beauty and confidence make you more interesting. This is not true. Being interesting is actually a state of mind. In How to be More Interesting, lateral-thinking guru Edward de Bono reveals how playing with ideas, making connections, speculating and using the imagination are at the heart of being an interesting person. With seventy exercises that will help you bring humour, insight and surprise to everyday situations, this book will ensure that people not only find you fascinating company but also won't be able to forget you.

62 EXERCISES TO DEVELOP THE MIND

Random House

Why do some people always seem to have new ideas while others of equal intelligence never do? Lateral Thinking is Edward de Bono's original portrayal of what lateral thinking is, how it works and how to use it to develop your own potential for thinking and problem solving. First published in 1967 as The Use of Lateral Thinking, this classic international bestseller remains as relevant to learning, problem solving and creative thinking today as when it was first published. De Bono

argues that conventional vertical thinking often inhibits our ability to solve problems and come up with new ideas. He then shows that lateral thinking is a far easier and more natural way to generate simple, sound and effective ideas and offers guidance on how to develop your own ability to think laterally. Lateral thinking is a technique that anyone can learn and benefit from.

The classic work about meetings and decision-making. Meetings are a crucial part of all our lives, but too often they go nowhere and waste valuable time. In *Six Thinking Hats*, Edward de Bono shows how meetings can be transformed to produce quick, decisive results every time. The Six Hats method is a devastatingly simple technique based on the brain's different modes of thinking. The intelligence, experience and information of everyone is harnessed to reach the right conclusions quickly. These principles have been adopted by businesses and governments around the world, ending conflict and confusion in favour of harmony and productivity. The Six Hats strategy will fundamentally change the way you work and interact. 'An inspiring man with brilliant ideas. De Bono never ceases to amaze with his clarity of thought.' Sir Richard Branson

HOW TO HAVE CONFIDENCE AND POWER IN DEALING WITH PEOPLE

Penguin UK

"The Girl with Ghost Eyes is a fun, fun read. Martial arts and Asian magic set in Old San Francisco make for a fresh take on urban fantasy, a wonderful story that kept me up late to finish." —#1 New York Times bestselling author Patricia Briggs It's the end of the nineteenth century in San Francisco's Chinatown, and ghost hunters from the Maoshan traditions of Daoism keep malevolent spiritual forces at bay. Li-lin, the daughter of a renowned Daoshi exorcist, is a young widow burdened with yin eyes—the unique ability to see the spirit world. Her spiritual visions and the death of her husband bring shame to Li-lin and her father—and shame is not something this immigrant family can afford. When a sorcerer cripples her father, terrible plans are set in motion, and only Li-lin can stop them. To aid her are her martial arts and a peachwood sword, her burning paper talismans, and a wisecracking spirit in the form of a human eyeball tucked away in her pocket. Navigating the dangerous alleys and backrooms of a male-dominated Chinatown, Li-lin must confront evil spirits, gangsters, and soulstealers before the sorcerer's ritual summons an ancient evil that could burn Chinatown to the ground. With a rich and inventive historical setting,

nonstop martial arts action, authentic Chinese magic, and bizarre monsters from Asian folklore, *The Girl with Ghost Eyes* is also the poignant story of a young immigrant searching to find her place beside the long shadow of a demanding father and the stigma of widowhood. In a Chinatown caught between tradition and modernity, one woman may be the key to holding everything together. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. Our happiness and success depend on clear thinking. But too many of us are compromised by confusion, trying to do too much at once, and not knowing what to do next. In *Teach Yourself to Think*, Edward de Bono shows that good thinking depends on a simple five-stage process that anyone can learn. It will enable you to assess your goals, sort available information, identify the available choices, make a decision and, finally, turn thought into action. This book offers brilliant advice for anyone who needs to be able to respond to and deal with a vast range of situations at work and in life quickly, efficiently and intelligently.

Unlocking the Creativity and Innovation in You and Your Team Harper Collins

Language has been the biggest help to human progress. But, ironically, language has also become the barrier to its own development. We are locked in to words and concepts that are limited and out of date. These force us to see the world in a very old-fashioned way. Like any self-organizing system, language has become bogged down in its own equilibrium.

I Am Right, You Are Wrong is THE classic work about choice in business and in life from world-renowned writer and philosopher Edward de Bono. Most of our everyday decision-making tends to be confrontational. Whether in large meetings, one-to-one or even in our own heads, opposite view points are pitted against each other. Ultimately, there must be a winner and a loser. In *I Am Right, You Are Wrong*, lateral-thinking guru Edward de Bono challenges this 'rock logic' of rigid categories and point-scoring arguments which is both destructive and exhausting. Instead he reveals how we can all be winners. Clearer perception is the key to constructive thinking and more open-minded creativity. In overturning conventional wisdom, Edward de Bono will help you to become a better thinker and decision maker. 'An inspiring man with brilliant ideas.
