“Remarkable: a book about borders that makes the reader feel sumptuously free.”
—Peter Pomerantsev In this extraordinary work of narrative reportage, Kapka Kassabova returns to Bulgaria, from where she emigrated as a girl twenty-five years previously, to explore the border it shares with Turkey and Greece. When she was a child, the border zone was rumored to be

an easier crossing point into the West than the Berlin Wall, and it swarmed with soldiers and spies. On holidays in the “Red Riviera” on the Black Sea, she remembers playing on the beach only miles from a bristling electrified fence whose barbs pointed inward toward the enemy: the citizens of the totalitarian regime. Kassabova discovers a place that has been shaped by successive forces of history: the Soviet and Ottoman empires, and, older still, myth and legend. Her exquisite portraits of fire walkers, smugglers, treasure hunters, botanists, and border guards populate the book. There are also

the ragged men and women who have walked across Turkey from Syria and Iraq. But there seem to be nonhuman forces at work here too: This densely forested landscape is rich with curative springs and Thracian tombs, and the tug of the ancient world, of circular time and animism, is never far off. *Border* is a scintillating, immersive travel narrative that is also a shadow history of the Cold War, a sideways look at the migration crisis troubling Europe, and a deep, witchy descent into interior and exterior geographies.

In *Consolations* David Whyte unpacks aspects of being human that many of us spend our lives trying vainly to avoid – loss, heartbreak, vulnerability, fear – boldly reinterpreting them, fully embracing their complexity, never shying away from paradox in his relentless search for meaning. Beginning with ‘Alone’ and closing with ‘Withdrawal’, each piece in this life-affirming book is a meditation on meaning and context, an invitation to shift and broaden our perspectives on life: pain and joy, honesty and anger, confession and vulnerability, the experience of feeling overwhelmed and the desire to run away from it all. Through this lens, procrastination may be a necessary ripening; hiding an act of freedom; and shyness something that accompanies the first stage of revelation. *Consolations* invites readers into a poetic and thoughtful consideration of words whose meaning and interpretation influence the paths we choose and the way we traverse them throughout our lives.

The Heart Aroused Vintage

“With this insightful book, David Whyte offers people in corporate life an opportunity to reach into the forgotten and

ignored creative life (their own and the corporation’s) and literally water their souls with it. The result is a very well written book that can truly heal.”—Clarissa Pinkola Estés, PH.D., author of *Women Who Run With the Wolves* and *The Gift of Story* Find professional and personal fulfilment through the poetry of both classic and modern masters—now revised and updated Has your work lost its meaning? Have you forgotten the goals you hoped to achieve when you began your career? Are you afraid of pursuing your dreams? In *The Heart Aroused*, David Whyte brings his unique perspective as poet and consultant to the workplace, showing readers how fulfilling work can be when they face their fears and follow their dreams. Going beneath the surface concerns about products and profits, organization and order, Whyte addresses the needs of the heart and soul, and the fears and desires that many workers keep hidden. At a time when corporations are calling on employees for more creativity, dedication, and adaptability, and workers are trying desperately to balance home and work, this revised edition of *The Heart Aroused* is the essential guide to

reinvigorating the soul.

World War II has ended and all over the world, young women are beginning to fulfill the promises made to the men they wed in wartime. Rules are strictly enforced, from the aircraft carrier's captain down to the lowliest young deckhand. But the men and the brides will find their lives intertwined despite the

Navy's ironclad sanctions. And for Frances Mackenzie, the complicated young woman whose past comes back to haunt her far from home, the journey will change her life in ways she never could have predicted—forever.

Crossing the Bay of Bengal Scribner

NATIONAL BESTSELLER • WINNER OF THE

PULITZER PRIZE • A searing, post-

apocalyptic novel about a father and son's fight to survive, this "tale of survival and

the miracle of goodness only adds to McCarthy's stature as a living master. It's

gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A

father and his son walk alone through burned America. Nothing moves in the

ravaged landscape save the ash on the wind. It is cold enough to crack stones,

and when the snow falls it is gray. The sky

is dark. Their destination is the coast,

although they don't know what, if

anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate

destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

lyrical work of self-discovery that's shockingly intimate and insistently universal...Not so much briefly gorgeous as permanently stunning." —Ron Charles, The Washington Post Poet Ocean Vuong's debut novel is a shattering portrait of a family, a first love, and the redemptive power of storytelling On Earth We're Briefly Gorgeous is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family's history that began before he was born — a history whose epicenter is rooted in Vietnam — and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and

anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. tenderness, *On Earth We're Briefly Gorgeous* is as much about the power of telling one's own story as it is about the obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. The inspiration for the film *The Dark Divide* starring David Cross and Debra Messing, one of America's most esteemed natural history writers takes to the hills in search of Bigfoot—and finds the wildness within ourselves. Awarded a Guggenheim

Fellowship to investigate the legends of Sasquatch, Yale-trained ecologist Dr. Robert Pyle treks into the unprotected wilderness of the Dark Divide near Mount St. Helens, where he discovers both a giant fossil footprint and recent tracks. On the trail of what he thought was legend, he searches out Indians who tell him of an outcast tribe, the Seeahtiks, who had not fully evolved into humans. A handful of open-minded biologists and anthropologists counter the tabloids Pyle studies, while rogue Forest Service employees and loggers swear of a vast conspiracy to deep-six true stories of unknown, upright hominoid apes among us. He attends Sasquatch Daze, where he meets scientists, hunters, and others who have devoted their lives to the search, only to realize that “these guys don't want to find Bigfoot—they want to be Bigfoot!” Since its original publication, the author's fresh experiences and finds have been added to his original work through an updated chapter. With an evaluation of recent DNA evidence from Bigfoot hair and scat, the study of speech phonemes in the “Sierra Sounds” purported Bigfoot recordings, an examination of the impact

of the wildly popular Animal Planet series *Bigfoot Hunters*, the reemergence of the famous Bob Gimlin into the Bigfoot community, and more, *Walking With Bigfoot* keeps every Bigfoot enthusiast's mind wide open to one of the biggest questions in the land and brings Pyle's work on the “legend” of Bigfoot into the new century.

There is nothing placid about San Francisco Bay. Its raucous waters have hosted brutal storms, daring rescues, horrendous accidents, and countless hours of drama and tension. Captain Paul Lobo knows that better than most people. As a licensed harbor pilot in those treacherous waters, Lobo captained nearly 6,500 boats in a thirty-one year career—everything from mega-yachts to the USS Enterprise to the Love Boat. Each trip tells its own story, and Lobo shares many. Here readers will find gripping, tense adventure stories, all well told. Reading *Crossing the Bar* is like

being on the rolling bridge with Lobo. Here are tragic deaths and lives saved, inspiring rescues, devastating storms, and the infamous and horrendous oil spill after the Cosco Busan rammed the Oakland Bay Bridge—which resulted in the first imprisonment of a maritime pilot for making an error. Readers will also find a December sea rescue Lobo assisted with in hurricane strength winds and monstrous seas. Without Lobo’s pilot boat and its crews’ supreme effort, the ship they saved would have foundered on the rocky Marin County, California, coastline with the loss of all hands. He flees northward, following a wild, fjord-riven shore, navigating from one danger to the next, unsure of his destination. Yet the

Using mathematical metaphor, Cohen touches deeply into issues of life and heart. POETRY AND THE PRESERVATION OF THE SOUL IN CORPORATE AMERICA

Harlequin

In his first novel in more than a decade, award-winning author David Malouf reimagines the pivotal narrative of Homer’s Iliad—one of the most famous passages in all of literature. This is the story of the relationship between two grieving men at war: fierce Achilles, who

has lost his beloved Patroclus in the siege of Troy; and woeful Priam, whose son Hector killed Patroclus and was in turn savaged by Achilles. A moving tale of suffering, sorrow, and redemption, *Ransom* is incandescent in its delicate and powerful lyricism and its unstated imperative that we imagine our lives in the glow of fellow feeling.

Crossing Paths with Atrial Fibrillation Farrar, Straus and Giroux (BYR)

"We want life to be less arduous and more delightful. We want to be able to think differently about how to organize human activities." So begins *A Simpler Way*, an exploration of a radically different world view that will reshape how we think about organizing all human endeavor. Margaret J. Wheatley and coauthor Myron Kellner-

Rogers explore the question: "How could we organize human endeavor if we developed different understandings of how life organizes itself?" They draw on the work of scientists, philosophers, poets, novelists, spiritual teachers, colleagues, audiences, and their own experience in search of new ways of understanding life and how organizing activities occur. A Simpler Way presents a profoundly different world view that can change how we live our lives and how we can create organizations that thrive. A Simpler Way explores fundamental new beliefs about organizations and life. Like Leadership and

the New Science, this new book is rooted in science but breaks new ground by developing insights from literature, spiritual teachings, and direct experience. The authors challenge many assumptions about life, organizations, and change, while providing inspiration and guidance for readers on their own journey to a simpler way to organize their endeavors. The authors describe a new paradigm of life as self-organizing and coevolving, drawing on sources that support modern science but predate its findings by thousands of years. They examine five major themes-play, organization, self, emergence, and coherence-each grounded

in both the science and philosophy of a world that knows how to organize itself. Each theme is explored in depth, and then applied to how we think about human organizations. The book begins and ends with photo essays, providing visual imagery that recalls readers to their own experience with a world that is creative, playful, and self-organizing. Written in a relaxed, poetic, and inviting style, the book welcomes the reader into this exploration of a new way of being in the world, one which can give us increased organizing capacity and effectiveness with less of the stress that plagues us now.
