Translation: Theory and Practice: A Historical Reader responds to the need for a collection of primary texts on translation, in the English tradition, from the earliest times to the present day. Based on an exhaustive survey of the wealth of available materials, the Reader demonstrates throughout the link between theory and practice, with excerpts not only of significant theoretical writings but of actual translations, as well as excerpts on translation from letters, interviews, autobiographies, and

fiction. The collection is intended as a teaching tool, but also as an encyclopaedia for the use of translators and writers on translation. It presents the full panoply of approaches to translation, without necessarily judging between them, but showing clearly what is to be gained or lost in each case. Translations of key texts, such as the Bible and the Homeric epic, are traced through the ages, with the same passages excerpted, making it possible for readers to construct their own map of the evolution of translation and to evaluate, in their historical contexts, the variety of approaches. The passages in question are also accompanied by ad verbum versions, to facilitate comparison. The bibliographies are likewise comprehensive. The editors have drawn on the expertise of leading scholars in the field, including the late James S. Holmes, Louis Kelly, Jonathan Wilcox, Jane Stevenson, David Hopkins, and many others. In addition, significant non-English texts, such as Martin Luther's "Circular Letter on Translation," which may be said to have inaugurated the Reformation, are included, helping to set the English tradition in a wider context. Related items, such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in "collages," marking particularly important moments or developments in the history of translation. This comprehensive reader provides an invaluable and illuminating resource for scholars and students of translation and English literature, as well as poets, cultural historians, and professional translators.

Enter the "fascinating" and frightening world of modern forensic psychology as experienced by one of the most respected practitioners in the field today (Robert K. Tanenbaum, New York Times–bestselling author). At the heart of countless crimes lie the mysteries of the human mind. In this eye-opening book, Dr. Cheryl Paradis draws back the curtain on the fascinating world of forensic psychology, and revisits the most notorious and puzzling cases she has handled in her multifaceted career. Her riveting, sometimes shocking stories reveal the crucial and often surprising role forensic psychology plays in the pursuit of justice—in which the accused may truly believe their own bizarre lies, creating a world that pushes them into committing horrific, violent crimes. Join Dr. Paradis in a stark concrete cell with the indicted as she takes on the daunting task of mapping the suspect's madness or exposing it as fakery. Take a front-row seat in a tense, packed courtroom, where her testimony can determine an individual's fate—or if justice will be truly served. The criminal thought process has never been so intimately revealed—or so darkly compelling—as in this "excellent and entertaining" journey into the darkest corners of the human mind (Booklist).

It is the spring of 1939 in the age of anxiety. In months Europe will be Hitler's. And Badenheim, a resort town vaguely in the orbit of Vienna, is preparing for its summer season. The vacationers arrive as they always have, a sampling of Jewish middleclass life: the impresario Dr. Pappenheim, his musicians, and their conductor; the gay Frau Tsauberblit; the historian Dr. Fussholdt and his much younger wife; the 'readers,' twins whose passion for Rilke is featured on their program; a child prodigy; a commercial traveler; a rabbi. The list waxes as the summer wanes. To receive them in the town are the pharmacist and his worried wife, the hotelier and his large staff, the pastry shop owner and his irritable baker, Sally and Gertie (two quite respectable prostitutes), and, mysteriously, the bland inspectors from the "Sanitation Department." The story unfolds as matter-of-factly as a Chekhov play. The characters on stage are so deeply held by their defensive daily trivia that they manage to misconstrue every signal of their fate. Finally, de facto prisoners in their familiar resort, the vacationers, now increased by the forced crowding-in of other Jews hardly on vacation, take on the lineaments of undefined disaster. The text builds a sense of foreboding in which each human detail is so persuasive, so right in its fidelity to the terrible evasions of the time, that it leaves the reader transformed by what he and the author know must happen to Badenheim's people. Badenheim 1939 owes everything to its author's astonishing capacity to recreate the energies and confusions of innocent and uncomprehending victims who, always loyal to civility and social graces, fail to even dimly see the cruel terms of their imminent fate.

Fondo's life is sad and lonely until he meets Stephanie Michele. She takes care of the geese who live on the shore of Lake Merritt, and when Fondo shows up there one day, she lets him help. But now the geese are preparing to fly south for the winter, and Fondo says that they've invited him to join them. Is hope enough to accomplish a miracle? Patricia Polacco masterfully intertwines themes of friendship, homelessness, and faith to create a beautiful modern myth.
