Le vieux baron des Ravots avait été pendant quarante ans le roi des chasseurs de sa province. Mais, depuis cinq à six années, une paralysie des jambes le clouait à son fauteuil, et il ne pouvait plus que tirer des pigeons de la fenêtre de son salon ou du haut de son grand perron. Le reste du temps il lisait. C'était un homme de commerce aimable chez qui était resté beaucoup de l'esprit lettré du dernier siècle. Il adorait les contes, les petits contes polissons, et aussi les histoires vraies arrivées dans son entourage. Dès qu'un ami entra chez lui, il demandait : -- Eh bien, quoi de nouveau ? Et il savait interroger à la façon d'un juge d'instruction. Par les jours de soleil il faisait rouler devant la porte son large fauteuil pareil à un lit. Un domestique, derrière son dos, tenait les fusils, les chargeait et les passait à son maître ; un autre valet, caché dans un massif, lâchait un pigeon de temps en temps, à des intervalles irréguliers, pour que le baron ne fût pas prévenu et demeurât en éveil. Et, du matin au soir, il tirait les oiseaux rapides, se désolant quand il s'était laissé surprendre, et riant aux larmes quand la bête tombait d'aplomb ou faisait quelque culbute inattendue et drôle. Il se tournait alors vers le garçon qui chargeait les armes, et il demandait, en suffoquant de gaieté :

In any event, if there is any division between a Muslim and a Christian on the grounds of dogma, belief, ethics or morality, then the cause of such conflict could be traced to an utterance of Paul found in his books of Corinthians, Phillipians, Galatians, Thessolanians, etc., in the Bible. As against the teaching of the Master (Jesus) that salvation only comes through keeping of the commandments (Mathew 19:16-17), Paul nails the law and the commandments to the cross (Colossians 2:14) and claims that

salvation can only be obtained through the death and resurrection of Jesus Christ:- "If Christ be not risen from the dead, then our preaching is vain, and your faith is also vain." (1 Corinthians 15:14)

From one of the world's biggest selling authors comes another million-copy worldwide bestseller: A beautiful and tender fable seen through the eyes of a Jewish child living in Belgium under the Nazi occupation. It is 1942 and the Jews are being deported from Belgium. Separated from his parents, seven-year-old Joseph must go into hiding. He is taken in the dead of night to an orphanage, the Villa Jaune, where the benign and enigmatic Father Pons presides over a motley assortment of children. With the ever-present threat of the Gestapo growing closer, Joseph learns that the secret of survival is to conceal his Jewish heritage. Soon Joseph also discovers that Father Pons has a secret of his own: he is risking his life not only for the boys in his care, but for the Jewish faith itself. Sensitive, funny and deeply humane, Noah's Child is a simple fable that reveals the complexities of faith, bravery and the human condition.

In My Valley, Claude Ponti leads us on a journey through an enchanted world inhabited by "Touims" (tiny, adorable, monkey-

like creatures), secret tree dwellings, flying buildings, and sad giants. Clever language and beautifully detailed maps of imaginary landscapes will delight children and adults alike. Ponti himself has said, "My stories are like fairytales, always situated in the marvelous, speaking to the interior life and emotions of children. That way each child can get what they want out of the images: the characters and dreams are their own."

This "dazzling" novel follows a family of English aristocrats as their country teeters on the brink of World War II (Penelope Fitzgerald). As war clouds gather on the distant horizon, Hugh, Edward, and Rupert Cazalet, along with their wives, children, and loyal servants, prepare to leave London for their annual pilgrimage to the family's Sussex estate. There, they will join their parents, William and Kitty, and sister, Rachel, at Home Place, the sprawling retreat where the three brothers hope to spend an idyllic summer of years gone by. But the First World War has left indelible scars. Hugh, the eldest of his siblings, was wounded in France and is haunted both by recurring nightmares of battle and the prospect of another war. Edward adores his wife, Villy, a former dancer searching for meaning in life, yet he's incapable of remaining faithful to her. Rupert desires only to fulfill his potential as a painter, but finds that love and art cannot coexist. And devoted daughter Rachel discovers the joys—and limitations—of intimacy with another woman. A candid portrait of British life in the late 1930s and a sweeping depiction of a world on the brink of war, *The Light Years* is a must-read for fans of *Downton Abbey*. Three generations of the Cazalet family come to unforgettable dramatic life in this saga about England during the last century—and the long-held values and cherished traditions that would soon disappear forever.

The "beautiful and haunting" (San Francisco Chronicle) tale of an orphan's search for love, for his unknown father, and for the key to the elusive riddle of his fate, from the author of the forthcoming *4 3 2 1: A Novel* Marco Stanley Fogg is an orphan, a child of the sixties, a quester tirelessly seeking the key to his past, the answers to the ultimate riddle of his fate. journeys from the canyons of Manhattan to the deserts of Utah, he encounters a gallery of characters and a series of events as rich and surprising as any in modern fiction. Beginning during the summer that men first walked on the moon, and moving backward and forward in time to span three generations, *Moon Palace* is propelled by coincidence and memory, and illuminated by marvelous flights of lyricism and wit. Here is the most entertaining and moving novel yet from an author well known for his breathtaking imagination. From New York Times bestselling author Paul Auster (*The New York Trilogy*).

"London's style is typically lush but his viewpoint is skeptical and dystopian...the story reminds us of the dangers we still court with our careless ways."-The Times "Jack London saw this coming. Why didn't we?...To revisit *The Scarlet Plague* during the COVID-19 crisis is to marvel at how much London understood- a century ago-about the challenges we face now."-The Baltimore Sun *The Scarlet Plague* (1915) is an early dystopian novel written by Jack London in 1910, serialized in *London Magazine* in 1912, and finally published as a book in 1915. Set in 2073, sixty years after a pandemic has wiped out most of earth's population, an old man recounts the events of 2013 to his grandsons. He had been a professor of English Literature at the University of California Berkeley, and managed to survive the pandemic by isolating himself in the chemistry facility at the school. Later, he spent years living alone in an empty hotel in Yosemite, until he finally joined a group of rag-tag survivors in San Francisco who called themselves "The Chauffeurs". *The Scarlet Plague* opens at the end of civilization when Professor James Howard Smith is an old man on a beach outside of San Francisco, when he tells his story. The world that he describes has no relation to the post-apocalyptic desolation of 2073, and the culture and civilization that he evokes are met with abject skepticism. Smith is convinced that he is the remaining survivor who can describe how the world existed before it descended into complete barbarism. *The Scarlet Plague* is a harrowing classic of early science fiction that eerily resonates with the tumultuous events of our own times. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Scarlet Plague* is both modern and readable.

In *The Selfish Gene*, Richard Dawkins crystallized the gene's eye view of evolution developed by W.D. Hamilton and others. The book provoked widespread and heated debate. Written in part as a response, *The Extended Phenotype* gave a deeper clarification of the central concept of the gene as the unit of selection; but it did much more besides. In it, Dawkins extended the gene's eye view to argue that the genes that sit within an organism have an influence that reaches out beyond the visible traits in that body - the phenotype - to the wider environment, which can include other individuals. So, for instance, the genes of the beaver drive it to gather twigs to produce the substantial physical structure of a dam; and the genes of the cuckoo chick produce effects that manipulate the behaviour of the host bird, making it nurture the intruder as one of its own. This notion of the extended phenotype has proved to be highly influential in the way we understand evolution and the natural world. It represents a key scientific contribution to evolutionary biology, and it continues to play an important role in research in the life sciences. *The Extended Phenotype* is a conceptually deep book that forms important reading for biologists and students. But Dawkins' clear exposition is accessible to all who are prepared to put in a little effort. Oxford Landmark Science books are 'must-read' classics of modern science writing which have crystallized big ideas, and shaped the way we think.
