When a blizzard
threatens to ruin
Valentine's Day, three
seventh-grade friends
make and distribute
fortune cookies to their
lonely neighbors—and
confront the secrets
they've been keeping
from one another.
Confident Kate doesn't
notice much but the
latest gossip, and shy
Georgia can't say out
loud what's always on
her mind. They're
joined by observant,
careful Olivia, whose
epic, single-minded
crush on PBJ (real
name: Phillip Becker-
Jacobs) is starting to

frustrate the other two. Using fortune cookies that mysteriously always seem to speak directly to the person who opens them, the three girls try to work together to bring some love to their building, while reminding each other why they're such good friends to begin with. With all the right ingredients to appeal to tween girls, this is an irresistible confection from an emerging talent. "The trio's romantic ups and downs tie the story together... an affectionate, insightful ode to friendship. An enjoyable, sure-to-be popular read."

Lip gloss addict

Emerson Taylor and
her best friend, Trina,

have declared this year the Year of the Boy and vowed to find boyfriends. But for Emerson, there's just one problem: she can read the mind of anyone whose lips touch hers. It's totally creepy—and at first it seems like a curse. But Emerson soon realizes there are perks to her strange new talent—like the ability to steal secrets, memories, and most importantly, test answers. If Emerson doesn't bring up her grades soon, her days at private school will be numbered. But kissing for grades is stickier than lip gloss, and Emerson's about to learn some lessons not found in her textbooks—lessons about true love...and real beauty. Oh, why can't life be as simple

as choosing the perfect shade of lip gloss? The author of *Kiss & Make Up* has donated this book to the Worldreader program

Hyperion
Praise for *How I Became a Quant* "Led by two top-notch quants, Richard R. Lindsey and Barry Schachter, *How I Became a Quant* details the quirky world of quantitative analysis through stories told by some of today's most successful quants. For anyone who might have thought otherwise, there are engaging personalities behind all that number crunching!" --Ira Kawaller, Kawaller & Co. and the Kawaller Fund "A fun and fascinating read. This

book tells the story of how academics, physicists, mathematicians, and other scientists became professional investors managing billions." --David A. Krell, President and CEO, International Securities Exchange "How I Became a Quant should be must reading for all students with a quantitative aptitude. It provides fascinating examples of the dynamic career opportunities potentially open to anyone with the skills and passion for quantitative analysis." --Roy D. Henriksson, Chief Investment Officer, Advanced Portfolio Management "Quants"--those who design and implement mathematical models for the pricing of derivatives,

assessment of risk, or prediction of market movements--are the backbone of today's investment industry. As the greater volatility of current financial markets has driven investors to seek shelter from increasing uncertainty, the quant revolution has given people the opportunity to avoid unwanted financial risk by literally trading it away, or more specifically, paying someone else to take on the unwanted risk. How I Became a Quant reveals the faces behind the quant revolution, offering you the chance to learn firsthand what it's like to be a quant today. In this fascinating collection of Wall Street war stories, more than two dozen quants detail

their roots, roles, and contributions, explaining what they do and how they do it, as well as outlining the sometimes unexpected paths they have followed from the halls of academia to the front lines of an investment revolution. Falco 11 University of Hawaii Press

 Inspired by Fabulous
 Las Vegas Postcards
 The postcard is a brilliant piece of pop culture. These simple, lightweight rectangles of good cheer serve many functions at once: They are glimpses of a special place, vessels of memory, fragments of story -- and, for those that survive, little capsules of history. That's especially true of postcards from Las

Vegas, one of the most visually dynamic, changing, meaning-packed locales in the world. Inspired by iconic Sin City postcards, eight of the city's best writers delve deep into their imaginations to conceive short stories and essays that cast a fresh eye on a place you only think you know. The writers are Quentin R. Bufogle, Maile Chapman, Maxwell Alexander Drake, Lindsey Leavitt, Corey Levitan, Greg Blake Miller, Kristen Peterson and Lissa Townsend Rodgers. Editor: Scott Dickensheets. Kiss & Make Up Harper Collins

In an exquisitely chilling debut novel, four children unravel the mystery of a family curse — and a ghostly creature known in folklore as Long Lankin. When Cora and her younger sister, Mimi, are sent to stay with their elderly aunt in the isolated village of Byers Guerdon, they receive a less-than-warm welcome. Auntie Ida is eccentric and rigid, and the girls are desperate to go back to London. But what they don't know is that their aunt's life was devastated the last

time two young sisters were at Guerdon Hall, and she is determined to protect her nieces from an evil that has lain hidden for years. Along with Roger and Peter, two village boys, Cora must uncover the horrifying truth that has held Bryers Guerdon in its dark grip for centuries — before it's too late for little Mimi. Riveting and intensely atmospheric, this stunning debut will hold readers in its spell long after the last page is turned.

Aaron W. Marrs challenges the accepted understanding of

economic and industrial growth in antebellum America with this original study of the history of the railroad in the Old South. Drawing from both familiar and overlooked sources, such as the personal diaries of Southern travelers, papers and letters from civil engineers, corporate records, and contemporary newspaper accounts, Marrs skillfully expands on the conventional business histories that have characterized scholarship in this field. He situates railroads in the fullness of antebellum life, examining how slavery, technology, labor, social convention, and the environment shaped their evolution. Far from seeing the Old

South as backward and premodern, Marrs finds evidence of urban life, industry, and entrepreneurship throughout the region. But these signs of progress existed alongside efforts to preserve traditional ways of life. Railroads exemplified Southerners' pursuit of progress on their own terms: developing modern transportation while retaining a conservative social order. Railroads in the Old South demonstrates that a simple approach to the Old South fails to do justice to its complexity and contradictions. -- Dr. Owen Brown and Dr. Gale E. Gibson

HOW I BECAME A

QUANT

HarperCollins
One teenager in a skirt.
One teenager with a lighter. One moment that changes both of their lives forever. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act

left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The 57 Bus is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight.

Last Year's Mistake

Simon and Schuster
Soon to be a major motion picture from Academy

Award-winning director Guillermo del Toro and starring Bradley Cooper, Cate Blanchett, Rooney Mara, and Toni Collette. *Nightmare Alley* begins with an extraordinary description of a carnival-show geek—alcoholic and abject and the object of the voyeuristic crowd's gleeful disgust

and derision—going about his work at a county fair. Young Stan Carlisle is working as a carny, and he wonders how a man could fall so low. There's no way in hell, he vows, that anything like that will ever happen to him. And since Stan is clever and ambitious and not without a useful streak of ruthlessness, soon enough he's going places. Onstage he plays the mentalist with a cute assistant (before long his harried wife), then he graduates to full-blown spiritualist, catering to the needs of the rich and gullible in their well-upholstered homes. It looks like the world is Stan's for the taking. At least for now.
