BUSINESS MATHEMATICS

S. Chand Publishing

The 14th Revised Edition of the book "Corporate Accounting" includes the provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards - 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes. Salient Features of the Book The following features are worth nothing in the present text: • The illustrations and assignment material has been made to conform to the requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised. • The revised revision of Paragraph 14 of Accounting Standards — 4 concerning Financial Statements regarding Proposed final dividend has been incorporated at relevant pages and the

illustrations amended accordingly. • The relevant provisions of Ind AS — 7: Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book.

• In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summerised in the chapter. • All chapters have been revised and udapted. Problem of each chapter have been suitably graded and edited to include questions of topical interest. We are confident that the book in its revised form will be more useful for B.Com (Pass and Hons.), M.Com, M.B.A., C.A., I.P.C.E, C.A.(Final), I.C.M.A. (Stage II) and Company Secretaries (Executive Programme) Examinations.

Accounting and Finance for Managers
Cambridge University Press

The book has been designed as per the Syllabus prescribed by the University of Madras for Paper on 'Financial Accounting' effective 2020-21 for B.Com. Degree First and Second Semesters Core Course; B.Com. (A & F), B.Com. (CS), B.Com. (BM), B.Com. (MM), B.Com. (CA) & B.Com. (ISM)

COMPANY LAW & SECRETARIAL PRACTICE, N.D. KAPOOR

Sultan Chand & Sons

Sultan Chand & Sons present the 38th Revised and Enlarged Edition of the book entitled "Elements of Mercantile Law". This book is specially written for B. Com, M. Com, CA, CS, CMA, MBA, LLB and Other Commerce Courses of all Indian Universities. The book is divided into three Volumes. Volume I is Law of Contract, Volume II is Company Law and Volume III is Industrial Law The salient features of the present edition are as follows: A new chapter on 'Goods and Services Tax (GST)' has been included in this edition. In order to bring uniformity in Tax rates and to simplify the tax mechanism, Central Government rolled out Goods and Services Tax (GST) from 1st July, 2017. The Insolvency and Bankruptcy Code, 2016' is the Bankruptcy Law of India has been added. A chapter on 'Limited Liability Partnership' popularly known as LLP has been added in the present edition. LLP combines the advantage of both the Company and Partnership into a single form of organization. Volume II of the book on Company Law with Schedules has been thoroughly updated and amended upto 2019.

Corporate Accounting Sultan Chand & Sons

The Seventh Revised Edition of "Business Law" as per Tamil Nadu University syllabus for all BBA, B.Com. students. The

new edition, like its predecessors, attempts to present the basic principles of Law in a way that makes the subject easily intelligible even to a non-specialist. This object has been achieved by dividing into IV units: Unit I – The Indian Contract Act consists of 157 Illustrative Cases, 213 Test Questions, 326 Practical Problems (with Hints and Solutions), 174 Multiple-choice Questions, 194 True & False Questions and 644 Examples with the idea of testing the depth of knowledge of the reader, basic understanding of concepts and his ability to apply whatever he has learnt to a particular situation or problem. Unit II – The Sale of Goods Act, 1930. Unit III – Law Relating to The Indian Partnership Act, 1932 and The Limited Liability Partnership Act, 2008. It facilitate the reader in understanding the Nature of Partnership, Relations of Partners & Dissolution of Firm followed by a chapter on ‘Limited Liability Partnership’ popularly known as LLP has been added in the present edition. LLP combines the advantage of both the Company and Partnership into a single form of organization. The Limited Liability Partnership Act, 2008 was published in Official Gazette of India on 9th January, 2009 and has been notified with effect from 31st March, 2009. Unit IV – The Companies Act, 2013 as Amended upto 2019. The Companies Act, 2013 (Schedules) which has been thoroughly updated and amended upto 2019 to our esteemed readers.

Labyrinth of Thought Sultan Chand & Sons

The Thirty-first Revised Edition of the book entitled “Company Law & Secretarial Practice” with Companies Act, 2013 (Schedules) for B.Com., B.Com. (Corporate Secretaryship), M.Com., IPCC, CS & LLB. The book is divided into two parts volume I Company Law contains 32 chapters and volume II Secretarial Practice contains 10 chapters having more than 270 Test Questions; 67 Practical Problems (with Hints and Solutions); 79 short Answer & Objective Type Question; 48 Multiple Choice, Presentation of Examples (10); Illustrative cases (12) etc., University Questions Papers have been added at the end of the book to give an idea about the pattern of questions asked.

THE MANAGEMENT ACCOUNTANT

Business Mathematics Company Law & Secretarial Practice, N.D. Kapoor
This text offers a presentation of the mathematics required to tackle problems in economic analysis. After a review of the fundamentals of sets, numbers, and functions, it covers limits and continuity, the calculus of functions of one variable,

linear algebra, multivariate calculus, and dynamics.

Business Mathematics Cambridge University Press

Environmental Studies pertain to a systematic analysis of the natural and man-made world encompassing various scientific, economic, social and ethical aspects. Human impacts leading to large scale degradation of the environment have aroused global concern on environmental issues in the recent years. The apex court has hence, issued directive to impart environmental literacy to all. In this book the fundamental concepts of environmental studies have been introduced and analysed in a simple manner strictly as per the module syllabus designed by the U.G.C. for undergraduate courses in science, humanities, engineering, medicine, pharmacy, commerce, management and law. Besides the undergraduate students of all disciplines the book will also be useful for those appearing in various competitive exams since environmental issues now find a focus in most of such examinations. The contents of the book will be of interest to all educationists, planners and policy makers. Key features of the book include a simple and holistic approach with illustrations, tables and specific case studies mainly in the Indian context. The basic terminologies have been defined in the text while introducing the topics and some useful terms mentioned in the text have been explained in the glossary for an easy grasp by students of all disciplines. *Indian Book Industry* New Age

International

The 19th edition reprinted in 2020 contains <https://tinyurl.com/yb67waxu> – Buying Roles Types of Buying Decisions Scope of Marketing Process of Marketing Management Profile of Rural Markets Some of the distinctive features of the book are as follows: Learning Objectives to give a bird’s eye-view of the topics covered in each chapter. Lucid, concise and simple language. Real life illustrations from Indian industry. Liberal use of tables and diagrams to illustrate the text. Summary at the end of every chapter for quick revision. Case Study at the end of each chapter. Test Questions culled from examinations of various Universities and Business Schools. Select Bibliography for further study. We sincerely believe that there is always scope for improvement. Therefore, we invite suggestions for further enriching the book.

Quantitative Techniques for Managerial Decisions Sultan Chand & Sons

The present book aims to meet in full

measure the requirement of B.Com students opting for Financial Accounting as a textbook. The objective of the textbook is a basic treatment of the main principles of Financial Accounting. The standard set for the book is complete clarity for beginners and such simplicity of exposition to make the text practically the best one. It is for this purpose that a maximum range of examples and illustrations (about 320) form the part of the textbook. Salient Features: 1. Most comprehensive coverage of subject matter. All topics under the syllabus have been explained in detail. 2. Most authentic and elaborate presentation of subject matter in simple and lucid style with a very large numbers of examples and illustrations (about 320). 3. At the beginning of each chapter an outline of chapter is given. Important Aspects of the chapters are given at the end of the chapter. 4. In each chapter Objective and Multiple Choice Questions are given in large number. At the end of each chapter, Assignments containing theoretical and numerical questions are also given for practice and revision. 5. The book also contains GST Accounting as an Appendix of Chapter 2. 6. The book covers latest changes and amendments in the law. It is based on Accounting Standard (AS) and Indian Accounting Standard (Ind. AS). *Financial Accounting* Sultan Chand & Sons Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities. Knowledge updating is a never-ending process and so should be the revision of an effective textbook. Some prominent additions are given below: 1. Variance of Degenerate Random Variable 2. Approximate Expression for Expectation and Variance 3. Lyapounov's Inequality 4. Holder's Inequality 5. Minkowski's Inequality 6. Double Expectation Rule or Double-E Rule and many others

Fundamentals of Mathematical Statistics

S. Chand Publishing
Business Mathematics Company Law & Secretarial Practice, N.D. Kapoor Sultan Chand & Sons

A Textbook of Business Mathematics, 4th Edition MIT Press

The primary objective of the textbook is to provide the basic concepts of ordinary and partial differential equations as per the requirement of the students appearing for B.A. (Prog.) Semester-V, B.Sc. (Hons.) (Mathematics and Physics) under CBCS pattern followed by Central Universities of India including the University of Delhi. This book covers the entire syllabus of the

paper Differential Equations — Generic Elective of IIIrd Semester (GE-3) for all Honours courses other than Mathematics and B.Tech. of various Universities. It is also useful for various competitive examinations and the School of Open Learning, University of Delhi. There are Eleven Chapters in this book and in each of them, the concepts are properly supported by illustrations followed by several varied types of examples to provide students an integrated view of theory and applications. There are about 247 examples in this book. A large number of self-practice problems and answers have been added in each chapter to enable students to learn. Most of the questions conform to the examination style followed in the University examinations and professional examinations.

UNCLE ARTHUR'S BEDTIME STORIES

Sultan Chand & Sons

The new edition of A Textbook of Business Mathematics inches on its earlier editions and continues to provide a comprehensive coverage of important topics and concepts in business mathematics. The text integrates the standard curriculum and the manifold requirements of undergraduate business maths students.

Business Law (Madras) Sarup & Sons

This Book Is Designed To Serve As A Text For Management, Economics, Accountancy (Chartered And Cost Accountancy), And Commerce Students. The Book Covers Concepts, Illustrations And Problems In Statistics And Operations Research. Part I Deals With Statistical Techniques For Decision Making. Part II Studies Various Operations Research Techniques For Managerial Decisions. The Book Contains Illustrations And Problems, Drawn Extensively From Various Functional Areas Of Management, Viz., Production, Finance, Marketing And Personnel, Which Are Designed To Understand Real Life Decision Making Situations. In Order To Make The Book Self-Contained, All Relevant Mathematical Concepts And Their Applications Have Been Included. To Enhance The Understanding Of The Subject Matter By The Students Belonging To Different Disciplines, The Approach Adopted In This Book, Both In Statistics And Operations Research, Is Conceptual Rather Than Mathematical. Hence Complicated Mathematical Proofs Have Been Avoided. This Book Would Be An Ideal Reference To Executives, Computer Professionals, Industrial Engineers, Economic Planners And Social Scientists. The Other Books By The Same Authors Are: Operations Research For Management And Business Statistics.

Miller's name appears first on the earlier editions.

English Grammar & Composition Sultan Chand & Sons

This is the seventh edition of Business Law as per CBCS syllabus of Madras University for B.Com (Hons.) Semester IIIrd and B.Com, Corporate Secretary ship Semester Vth Student This book has been divided into 2 Parts – Part-1 is General Principles of Law of Contract & Part- 2 is Special Contracts. The chief aim in writing this book is to present the fundamental principles of Business Law, in a simple and easily intelligible manner. The intricate points of law have been illustrated by examples, and the subject has been dealt with by topics rather than in the strict order of section in the various Act.

MATHEMATICS FOR ECONOMICS AND FINANCE

Pearson Education India

Chapters and topics have been organized in a reader-friendly manner. Ample number of solved examples and exercise problems included in each chapter. Extensive coverage of applications of mathematical modeling in business.

Review Projector (India). Sultan Chand & Sons

"José Ferreirós has written a magisterial account of the history of set theory which is panoramic, balanced, and engaging. Not only does this book synthesize much previous work and provide fresh insights and points of view, but it also features a major innovation, a full-fledged treatment of the emergence of the set-theoretic approach in mathematics from the early nineteenth century. This takes up Part One of the book. Part Two analyzes the crucial developments in the last quarter of the nineteenth century, above all the work of Cantor, but also Dedekind and the interaction between the two. Lastly, Part Three details the development of set theory up to 1950, taking account of foundational questions and the emergence of the modern axiomatization." (Bulletin of Symbolic Logic)

Books India Sultan Chand & Sons

Industrial Relations & Labour Laws, P.C. Tripathi, C.B. Gupta, N.D. Kapoor, 6e, 2020 is suitable for post-graduate students of B.Com., MBA, DBA, DPM, MBE and MSW. A Professional Book for Personnel Managers and Executives is divided into two parts and has 11 objective type questions; 179 Test Question and 15 Practical Problems with Hints and Solutions.

**MARKETING MANAGEMENT, C.B.
GUPTA & N. RAJAN NAIR**

Sultan Chand & Sons

Mathematics has become indispensable in the modelling of economics, finance, business and management. Without expecting any particular background of the reader, this book covers the following mathematical topics, with frequent reference to applications in economics and

finance: functions, graphs and equations, recurrences (difference equations), differentiation, exponentials and logarithms, optimisation, partial differentiation, optimisation in several variables, vectors and matrices, linear equations, Lagrange multipliers, integration, first-order and second-order differential equations. The stress is on the relation of maths to economics, and this is illustrated with copious examples and

exercises to foster depth of understanding. Each chapter has three parts: the main text, a section of further worked examples and a summary of the chapter together with a selection of problems for the reader to attempt. For students of economics, mathematics, or both, this book provides an introduction to mathematical methods in economics and finance that will be welcomed for its clarity and breadth.
