

his reputation for courage by racing against death to complete his *Personal Memoirs*. Published by Mark Twain, it is widely considered to be the greatest autobiography by an American leader, but its place in Grant's life story has never been fully explored—until now. One of those rare books that successfully recast our impression of an iconic historical figure, *American Ulysses* gives us a finely honed, three-dimensional portrait of Grant the man—husband, father, leader, writer—that should set the standard by which all future biographies of him will be measured. Praise for *American Ulysses* “[Ronald C. White] portrays a deeply introspective man of ideals, a man of measured thought and careful action who found himself in the crosshairs of American history at its most crucial moment.”—USA Today “White delineates Grant's virtues better than any author before. . . . By the end, readers will see how fortunate the nation was that Grant went into the world—to save the Union, to lead it and, on his deathbed, to write one of the finest memoirs in all of American letters.”—The New York Times Book Review “Ronald White has restored Ulysses S. Grant to his proper place in history with a biography whose breadth and tone suit the man perfectly. Like Grant himself, this book will have staying power.”—The Wall Street Journal “Magisterial . . . Grant's esteem in the eyes of historians has increased significantly in the last generation. . . . [American Ulysses] is the newest heavyweight champion in this movement.”—The Boston Globe “Superb . . . illuminating, inspiring and deeply moving.”—Chicago Tribune “In this sympathetic, rigorously sourced biography, White . . . conveys the essence of Grant the man and Grant the warrior.”—Newsday

Wang (humanities, California State U.)

studies six of Wilson's plays, including *The Piano Lesson*, *Seven Guitars*, *Ma Rainey's Black Bottom*, and *Fences*. He treats each play separately and examines the thematic strands running through them, especially as they relate to the struggle of African-Americans to come to grips with their history, their place in American society, and their struggle for a just society. Contemporary Authors New Revision Stigler shows how statistics arose from the interplay of mathematical concepts and the needs of several applied sciences. His emphasis is upon how methods of probability theory were developed for measuring uncertainty, for reducing uncertainty, and as a conceptual framework for quantitative studies in the social sciences.

Now fully updated and totally revised, this highly regarded classic remains the most comprehensive study available of

America's military history. Called "the preeminent survey of American military history" by Russell F. Weigley, America's foremost military historian, *For the Common Defense* is an essential contribution to the field of military history.

This carefully researched third edition provides the most complete and current history of United States defense policy and military institutions and the conduct of America's wars. Without diminishing the value of its earlier editions, authors Allan R. Millett, Peter Maslowski, and William B. Feis provide a fresh perspective on the continuing issues that characterize national security policy. They have updated the work with new material covering nearly twenty years of scholarship, including the history of the American military experience in the Balkans and Somalia, analyzing the wars in Iraq and Afghanistan from 2001 to 2012, and providing two new chapters on the Vietnam War. *For the Common Defense* examines the nation's pluralistic military institutions in both peace and war, the tangled civil-military relations that created the country's commitment to civilian control of the military, the armed forces' increasing nationalization and professionalization, and America's growing reliance on sophisticated technologies spawned by the Industrial Revolution and the Computer and Information Ages. This edition is also a timely reminder that vigilance is indeed the price of liberty but that vigilance has always been—and continues to be—a costly, complex, and contentious undertaking in a world that continually tests America's willingness and ability to provide for the common defense.

Contemporary Authors

In this book the author examines how women detectives are portrayed in film, in literature and on TV. Chapters examine the portrayal of female investigators in each of these four genres: the Gothic novel, the lesbian detective novel, television and film.
