**The Modern World** McGraw-Hill Education

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may

be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern

World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)
